

IF ONE PRICE WON'T SELL 'EM ANOTHER WILL

Meyer Clothing Co. Stock Experiences Another Price Undermining to Move Final Lots.

HIGH GRADE OF GOODS ADMITTED BY CLOTHIERS

Present Lease Terminates in a Month. All Possible Inducements in the Meanwhile.

Once in a while a concern starts in business carrying goods that are "too good" if anything. Such was the case, at least, with the Meyer Clothing Co., who established a perfect gem of a clothes shop at 166 Farnam street, late last spring.

The Meyer Clothing Co. saw fit to sell its entire stock to the Orkin Clothing Co. at \$10 on the dollar, simply because a really high grade store finds hard sledding nowadays.

The Orkin Clothing Co. has had an extremely successful selling with the Meyer stock—but the final lots are presenting themselves now—the stubborn remainders.

To quickly dispose of every suit or overcoat yet remaining in the Meyer Clothing Co. stock, the Orkin Clothing Co. will "Reduce a Reduction."

Remember the location—166 Farnam St. opposite the Paxton Hotel.

THRIVE ON SWEET CLOVER

Farmers Now Planting What Was Once Called a Weed.

IT IS GOOD FOR MILK COWS

Will Provide More Feed Per Acre Than Any Other Form of Grass Used in This Section of the Country.

More and more the opinion is growing among farmers and agricultural experts that a new epoch in Nebraska farming and farm values is dawning with the development of sweet clover farming.

Stock thrives on it. Within the last few years it was found that stock will eat the hay and thrive on it if it is cut young enough, before the stems get hard.

Farm demonstrators in the several counties where such demonstrators are now working are looking favorably on the sweet clover plant.

Excursions through the best agricultural districts of the state have recently revealed some splendid results attained with sweet clover.

Does Not Bloat Stock. Sweet clover has one great advantage over alfalfa, according to the farmers who have had experience with it and that is that it does not so readily cause bloating as does alfalfa when pastured in wet weather.

are harvested the clover booms up in fine shape, and the farmer's entire herd of cattle are having splendid fall pasture on the stubble field. They do not have to cover much ground to get enough to eat in a day.

John R. Morris, near Carroll, Neb., has a five-acre tract on which he pastured a lot of sheep during the summer and fall. He is a man of experience in sheep pasturing, and he declares that the five acres carried more stock than forty acres of timothy and clover would.

Spinsters Beckon in Vain. "To an independent, good-looking bachelor, who in his younger days preferred to live a single life rather than get married and be ruled by a petticoat boss through this life and perhaps in eternity."

A granite monument bearing this unique epitaph and surrounded by the rather heroic effigy of a bachelor standing on one side of the River Jordan, with three old maids on the other, beckoning him to cross, marks the grave of P. B. Waite, an eccentric resident of Myrtle Point, Ore., who died recently at an advanced age.

It is his will Waite left explicit directions for the heaving of the monument, and the inscription it should bear—Portland Oregonian.

TWO JURY PANELS DRAWN

District Judge James P. English Oversees Selection of Men.

DEWEY AND SMITH ASSIST

Names Are Taken from List in Commissioner Moorhead's Office and Shaken Up in Big Tin Drum.

Two more panels of veniremen to serve on juries in this district's five jury courts have been chosen by Presiding Judge English, County Clerk Frank A. Dewey and District Court Clerk Bob Smith. They picked out two panels of 150 men each, instead of just one, because the approaching period of the court session will be unusually busy.

In making up the panels, this procedure follows: Names of legally qualified voters are picked at random from the registration lists in the election commissioner's office and are placed on separate cards and mixed up in a big tin drum. Then the court clerk picks out cards, hands them to the presiding judge, who sees that everything is done according to law, and then turns them over to the county clerk to be recorded.

Are Possible If Stuart's Calcium Wafers Are Used for a Short Time After Each Meal.

Many people have been heard to say that they used creams and lotions for years without effect, yet after five or six days of Stuart's Calcium Wafers their complexions were perfectly clear.

"I Get Rid of Blackheads in a Jiffy by Using Stuart's Calcium Wafers."

It's easy to understand why creams and lotions only get at the surface, while Stuart's Calcium Wafers go right into the blood and instead of a sluggish deposit in the skin the impurities that cause skin diseases are destroyed in the perspiration that is exhaled through the pores in the form of invisible vapor.

They contain no poisonous drug of any kind, are perfectly harmless and can be taken with absolute freedom, and they work almost like magic. Calcium Sulphide, their principal ingredient, is the greatest blood-cleanser known to science. No matter how bad your skin will be, Stuart's Calcium Wafers will quickly work wonders with it. It's goodbye to blackheads, pimples, acne, boils, rash, eczema and a dirty "filled-up" complexion. You can get a box of Stuart's Calcium Wafers at any drug store at 50 cents a box, and you will be positively delighted with their wonderful effect. A small sample package mailed free by addressing P. A. Stuart Co., 115 Stuart Bldg., Marshall, Mich.
