

BELGIAN QUEEN ON FIRING LINE OFTEN

She and King Determined Not to Leave Own Land Till Absolutely Necessary.

AMERICAN VISITS ROYAL PAIR

Secretary of U. S. Legation in Brussels Witnesses Actual Fighting. Seeing Hurting Shell Nearby Kill Eleven Men.

(Copyright, 1914, by Press Publishing Co.)

LONDON, Oct. 31.—(Special Cablegram to New York World and Omaha Bee.)—Hugh Gibson, the secretary of the American legation in Brussels, has returned from a special mission to Haive, where he went from London to confer with the Belgian government. He visited the king and queen on the firing line, near Dixmude, having a thrilling experience witnessing the actual fighting.

One incident of the trip was that of a shell bursting near Mr. Gibson, killing men. On account of his diplomatic status, Mr. Gibson was precluded from discussing what he saw, including the military operations.

Received by King and Queen.

He first visited the Belgian government officials at Haive, and then, at the instance of the Belgians themselves, he proceeded to Belgium and there he was received by both the king and queen, neither of whom has ever left Belgian soil and neither of whom intends doing so until it is absolutely necessary.

Neither believes that such a necessity will ever arise. The king and queen are doing heroic work according to Mr. Gibson. The king, in a simple field uniform, is in the trenches constantly directing the operations and talking with his men, whose enthusiasm is always aroused by the king's presence, which stimulates their spirits and keeps them fighting.

Ruler at Very Front.

The king of the Belgians shows no fear whatsoever and keeps at the very front. The queen is no less brave. She, too, ventures into the perilous zone. She is in charge of the organization of the hospitals and ambulance corps which pick up the wounded. She takes an active part in the work. She knows much about treating the wounded, being the daughter of an eminent surgeon and having devoted much time to the study of medicine. She is at all times within the sound of the great guns, and while Mr. Gibson was talking with her the windows rattled with the explosion of the great guns of British dreadnaughts lying off shore, bombarding the German positions. Often the queen goes up to the firing line while directing the rescue of the wounded.

Both the king and the queen evince great interest and grateful appreciation of the American efforts to afford relief to the stricken Belgians.

STATE TEACHERS TO BE HERE WEDNESDAY

(Continued from Page One)

teachers. Besides these, in the way of entertainment, there is to be a full card for the benefit of the teachers. However, the time for the functions has been so assigned that there will be no cutting into the hours designated for the working part of the convention.

Visitors Will Be Entertained.

During the stay of the teachers in the city there will be a trade excursion to South Omaha and an opportunity given to visit the points of interest in Omaha. This will probably be the afternoon of Friday, November 6. The same evening there will be a concert at the Auditorium, to which all will be invited as guests. It will be given by Mrs. Gerville-Reache, a prima donna whose reputation as a singer is world-wide. This is the closing number on the week's program.

During the week of the convention teachers outside Omaha will be given an opportunity of visiting the city schools. And those desiring to do so should write to, or call upon Superintendent Graff at the city hall.

Omaha teachers are hard at work on the details for the convention and have their work well in hand.

E. V. Farris of the publicity bureau of the Commercial club is assisting them and has charge of the committee on information, meeting places and hotels. Teachers desiring information on anything along these lines may write him and depend upon it that their requests will be given attention.

Information for Asking.

Miss Belle Ryan, assistant superintendent of schools, will give any information desired relative to the schools of the city. Prof. Steiner has charge of the bulleting, Miss Hitta the decorations. N. M. Graham, superintendent of the South Omaha schools, the excursions; Prof. Reed the guides, Miss Forsythe the information bureau, Miss Austin, reception of teachers at the depots; Prof. Rossmel, the ushers and the Young Men's Christian association, the rooming bureau.

Each day during the convention, uniformed high school cadets, wearing badges, will be at the depots, where they will answer questions and furnish the teachers assistance in getting up town, reaching the convention halls and directing them to their boarding places.

Headquarters at Home.

The headquarters of the association will be at the Rome hotel, with convention sessions held in the Auditorium, the banquet hall of the Rome, the high school, the Central school, the High school of Commerce, the First Methodist, and First Congregational churches, and the Chamber's academy, Creighton Arts and Science building, Creighton auditorium, the Young Men's Christian and the Young Women's Christian association buildings.

The first session of the convention will be held in the banquet hall of the Rome hotel at 10 o'clock, the morning of November 4, when "What Constitutes Efficient Supervision of City Schools," will be taken up and discussed, followed by a discussion of the "Rights of the Child."

In the afternoon there will be another meeting at the same place. At the same time there will be sectional meetings at nearly all the places, therefore referred to.

In Fall Blast by Thursday.

The following day, Thursday, the convention will be in good working order. The machinery will be running and at nearly a dozen places scattered about in the downtown sections, the sectional meetings will be going on. There will not be a moment of the time that will not be taken up, as 4,000 or more teachers who will be there will want to crowd all the work possible into the three days.

In connection with the convention, Thursday afternoon, there will be the annual session of the Story Teller's

JAPS ASK US TO SEND GERMAN CRUISER FROM HONOLULU.

AMBASSADOR CHINDA OF JAPAN.

WASHINGTON.—In response to a dispatch from Ambassador Chinda of Japan, government officials have taken steps to have the Geier, a German cruiser, expelled from the port of Honolulu, where it recently put in for repairs. The Japanese now point out that the repairs to the Geier were now complete, and under international law it is no longer entitled to remain in the port. It is understood that Japanese men-of-war are waiting for it outside the harbor.

League, and Friday afternoon, at the Central High school, the annual meeting of the Nebraska branch of the American School Peace League. Both are auxiliaries of the Nebraska State Teachers' association.

Teachers visiting the city at the time of the convention, or those who desire to become members of the association, may enroll at any time during the morning and evening by going to the Auditorium during afternoons at the High school building, and at the Rome hotel at any time between 7:30 in the morning and midnight.

The Brandeis stores have invited the teachers to a special performance at the Brandeis theater.

To Visit South Omaha.

The live stock interests of South Omaha are making extensive preparation for receiving the Nebraska teachers. The stock yards company is issuing a souvenir invitation to each of the teachers to visit "Market," where special concessions will be extended to them. The packing houses are arranging for elaborate displays of their products and all the institutions connected with the market will hold open house during the term of the convention. On Friday, November 6, the stock yards company will tender an informal luncheon in the big exchange dining room to the members of the Teachers' association.

"The South Omaha live stock market now ranks second among the world's markets and is today Nebraska's greatest commercial institution," said Everett Buckingham, general manager.

The progressive teacher, always alert to matters of public interest, and ever ready to absorb knowledge which may be useful in the everyday field of endeavor, will find a visit to the stock yards a profitable one, for there an opportunity will be afforded to learn something concerning the industry which has been such a prominent factor in the development of Nebraska's resources.

Among the many local excursions planned for the teachers last year the one to the "yards" proved by far the more popular and it is expected that thousands of the teachers will visit the big packing houses and the stock yards, so those identified with the market are making arrangements accordingly.

GERMAN SCHOOL COURSES ARE CURTAILED BY WAR

LONDON, Oct. 31.—A dispatch to the Reuter Telegram company from Amsterdam says that, according to the Berlin newspapers, the usual course of instruction in the schools of Germany cannot be continued, as 40,000 teachers are now at the front.

Culls from the Wire

The defense rested in the trial in New York of Jared Flag, charged with using the mails to defraud.

The economy being practiced by English women at present is causing lack of work in certain branches of trade.

A. H. Bilber of Pittsburgh was elected president of the American Hardware Manufacturers' association at the closing session of its convention in Atlantic City, N. J.

The French government is arranging, through the American embassy in Paris, to send to Germany and Austria all subjects of those countries detained in France who are not subject to army duty.

Officials of the Panama canal zone are concerned over the opposition which has developed recently to the ratification by the Panama assembly of the new canal zone boundary convention, signed by representatives of the United States and Panama on September 2.

FRANCE TO REMOVE CAPITAL TO PARIS

Government Seat to Be Returned to Metropolis from Bordeaux November 26.

WATCHING YPRES RESULTS

Stubborn Fight in Northern Country to Resist Advance of Germans Along Famosa River Center of War Interest.

PARIS, Oct. 31.—Unofficial announcement was made today that the government would return to Paris from Bordeaux November 26 and that Parliament would meet on December 15 to pass emergency laws.

Little by little Paris appears to be returning to more normal conditions. The shops in the Avenue de Loux Opera, which had their doors locked and the windows whitewashed, have been reopened. Each day another restaurant or bar on the boulevards or elsewhere resumes business, and the newspapers, which ceased to publish at the time of the mobilization, have begun to appear again. The question of reopening the Bourse also is discussed. From the war areas in France and Belgium the most pleasing news to Parisians today was that telling of the retreat of the Germans across the Yser in the face of stiffly opposing by the allies. The announcement only a few days ago that the Germans had succeeded in crossing to the left bank of the Yser did more to depress the spirits of the people here than any development of the war for some time.

Their withdrawal now, along with the progress of the allies at other points is officially announced, is taken by many as marking the first stages of an impending victory.

Much interest is taken in the hot fighting in the vicinity of Ypres, where the allies have been gaining, because of the great importance of the position to the Germans. Ypres, according to the German military men, is the center of the German position between Lille and the sea. They have said that they could not continue their advance unless assured of the possession of it.

"If Ypres is conquered, we will have the route opened as far as heights of St. Omer, twenty-two miles southeast of Calais," is a statement attributed to them. However, the most important positions in the line of combat between Nieuport, Dixmude and Ypres are in the hands of the allies.

General Pierre Cherfils, the military critic, declares that a wounded French officer with whom he talked yesterday, had all the praise to the German method of combat. The present war, he says, also affords the immense service which can render to the French units. The aeroplane has become an instrument of observation, not only useful but indispensable, according to General Cherfils. The death list of the army men today contains the name of Colonel H. Detrie, who was the youngest superior officer in the war.

PRINCE MAURICE KILLED WHILE LEADING COMPANY

LONDON, Oct. 31.—Princess Henry of Battenberg has been informed by the headquarters at the front that her son, Prince Maurice of Battenberg, whose name appeared in the list of killed made public a few days ago, met death leading his company in an attack. The prince was struck by a shrapnel bullet from a bursting shell and died almost immediately afterward.

A dispatch to the Central News says the Prince Maurice has been buried near Ypres.

Eat Less Meat If Back Hurts

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headache, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful after-noon drink with lemon juice, and is a tonic for men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Advertisement.

Wounded in Northern France Taxing All Hospital Facilities

LONDON, Oct. 31.—The hospital accommodations in northern France are insufficient to cope with the number of wounded being received, according to a medical correspondent of the Times. Writing from Boulogne the correspondent says:

"The hospitals are full, but the stream of wounded continues and will continue. The plain facts are that the hospital accommodations in northern France are insufficient. The policy of shipping as many wounded as possible to England is being pushed to a dangerous extreme."

"There is a great and serious lack of efficient and experienced surgeons and nurses. A great majority of the wounds are caused by shrapnel. They become infected quickly and demand surgical treatment of the most thorough character. With these cases time is a big factor. It is dangerous in most cases to subject the patient to a long trip to England."

"Many more hospitals must be established in hotels, casinos and houses behind the firing line. Surgeons of long experience must be sent. Finally, anti-septic surgery must be practiced and not aseptic surgery. The latter, which aims at cleanliness without the use of germ-killing substances, is useless where infected wounds are concerned."

"Yet there are many good reasons for believing it to be widely practiced. Here is where surgeons of wide experience are needed rather than young chodgers. The same holds true of numerous delicate operations. It is equally necessary to have in the hospitals staffs of nurses who have had a course of year-long course of training."

Sing Sing Warden Dismissed by Glynn

NEW YORK, Oct. 31.—Thomas J. McCormick was dismissed tonight as warden of Sing Sing prison after Governor Glynn had read the report submitted to him by Stephen C. Baldwin, the special commissioner appointed to investigate the affairs of the institution.

The primary cause of the warden's discharge was his granting of special favors to Daniel A. Sullivan, a Brooklyn bank broker. Sentenced to hard labor, Sullivan was given work as a stenographer and chauffeur.

Five residents of Yonkers testified today that recently they had seen Sullivan about that city.

Two German Cruisers Reported Captured

LONDON, Oct. 31.—(239 a. m.)—A dispatch to the Post from Sydney, N. S. W., says it is reported that the German cruisers Scharnhorst and the Gneisenau have been captured as a result of the failure of their coal supply. There is no official confirmation of the report to be had here.

Kansas City Opens New Union Station

KANSAS CITY, Mo., Oct. 31.—Kansas City today began to celebrate the completion of its new union station which will be formally opened to the public this afternoon when President Wilson at the White House touches a button and swings wide the doors of the terminal structure.

The celebration will continue with little interruption until midnight Saturday, when the first regular train will run into the station.

Built at a cost of \$4,000,000 and representing, with the attendant terminal facilities, an outlay of \$5,000,000, the new station is one of the world's largest buildings of its kind.

The public schools were closed that the pupils and teachers might take part in the festivities.

IS YOUR HAIR RIGHT FOR THE NEW FALL STYLES?

You will delight in arranging your hair in the new and interesting modes of this season so that it appears naturally heavy. This will be a simple matter if you use the right shampoo. It is not advisable to use a makeshift but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.
