The hall and orchestra were engaged months ago for this event, which was looked forward to with keen interest. Plans for the concert were destroyed, however, by the war, but Friday, of last week, Miss Nash played one of the large Chopin concertos, a number on her professional program, before a most select musical coterie.

Aside from being unusually gifted, Miss Nash is an interested worker and a most artistic performer. A year ago she was engaged to play with the Thomas orchestra, but plans for going abroad interferred.

Miss Nash expects to return immediately to Omaha, but is undecided where she will spend the winter.

Have You the Hair of a Musician?

Bald or thin-haired musiciane are unknown. This same may be said of actors. The reason is that constant appearance before the public makes constant care of appearance a habit, And constant care of hair insures a heavy, attractive growth. In cleaning the hair it is not advisable to use a makashift but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthron from your druggist; dissolve a teaspoonful in Idly with uniform color.
