A Smooth, White Skin That Defies Wea.her

During the coming months of biting During the coming months of bitting winds and intense cold, you who would keep your skins smooth, white and velvety, should turn your attention to mercolized wax. Nothing else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather-beaten cuticle, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. If your skin be blutchy, pimply, freckled, coarse, sailow or overmore pronounced. If your skin be blotchy, pimply, freckled, coarse, sailow or over-red, why not shed it? One ounce of ordinary mercolized wax, to be had at any druggists, will completely transform the most unsightly complexion in less than a fortnight. Use the wax nightly, like cold cream, washing it off mornings. If weather, age or poor health has marred your face with wrinkles, here a good news. You can quickly remove every line by using a harmlers, refreshing face lotion prepared by dissolving 1 oz powdered saxolite in 2 pt. witch hazel. The firmer, smoother skin, the more youthful appearance, even after one application, will astonish you.—Advertisement.
