Hunters Have Good Shoot—Detective Eddy Fleming and a party of friends have just returned from a two weeks' duck shoot at Red Deer lake, near Woodlake, Neb. The party made the trip in three automobiles, and after a splendid outing, returned home with the limit of birds.

Four-Leaf Clover Club Meets—The Four-Leaf Clover club met at the home of Miss Gene Brennan Friday evening. Prizes were won by Miss Mary Wyness, Catherine Lang and Gene Brennan.

Meyer to Medical Convention—C. A. Meyer left for Philadelphia Friday afternoon to attend the national convention of the Mu Sigma Nu medical society. Mr. Meyer who attends the University of Nebraska medical department will represent the college Beta Epsilon chapter.

Had Colds Quickly Broken Up—Mrs. Martha Wilcox, Gowanda, N. Y., writes: "I first used Chamberlain's Cough Remedy about eight years ago. At that time I had a hard cold and coughed most of the time. It proved to be just what I needed. It broke up the cold in a few days, and the cough entirely disappeared. I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms. Obtainable everywhere.—Advertisement.

Husband at Movies, Wife Tries Suicide—Because her husband insisted upon going to the movies and leaving her at home alone, Mrs. Emil Locina, 22 years old and living at 1539 William street, attempted suicide last night by turning on the gas in her room. Neighbors smelled the escaping gas and asked the police for the putlover.

Happy, Happy Wasaday! SKITCH makes it so No More Rubbing Clothes on a Washboard—No Making Your Hands Tender and Sore in Hot Suds—Use SKITCH

"I should worry! No rubbing needed now—SKITCH does it all for me!"

Who'd be so foolish as to rub clothes on a wash-board now when SKITCH will clean your clothes better and quicker without rubbing. SKITCH is a wonder! Use three teaspoons of SKITCH to a boilerful of clothes and it just skitches the dirt out of the clothes while you sit and rest or do up your other work. Mrs. Alice Fuhre of 245 Stowell ave., Milwaukee, says: "My clothes are all out on the line now by 9 o'clock. I used to be 12 and often later before I was done. And I would be so worn out from bending over a wash-board.

SKITCH is a perfect godsend to women. Don't worry for a minute that SKITCH can hurt your clothes. SKITCH positively is guaranteed not to injure the finest fabric. It's so harmless you can even cast a handful of it without hurt. Get a 10 cent package of SKITCH from your grocery and try it seven days, washing in every package—just a little over a cent to save the hard work of a wash day—less than the soap used in the rubbing would cost. If your grocer won't supply you with SKITCH send his name to me and I'll send you a free sample. Hans Pichtenberg, Milwaukee, Wis.

THE BEE-OMAHA, MONDAY, NOVEMBER 23, 1914.

Affairs at South Omaha. Cudahy's Canning Factory to Reopen to Furnish Army Contract. FOOD FOR ENGLISH FIGHTERS Will Mean Big Boost for Local Yards and Cause Employment of Large Number of Workmen.

Cudahy's canning factory which has been closed for more than a year will open Monday morning in order to fill a large army contract for the British government. About 100 people of all grades will be employed when the plant opens Monday and possibly 500 all told will be able to secure employment when the factory is running at full blast.

The order received from the British government is for 3,500,000 one-pound cans of beef to be ready for delivery within ninety days. The company has just completed a 2,000,000 can order. The last order was put up in Kansas City. It will take the Kansas City and Omaha canneries of the Cudahy plants three months, working night and day, to fill the order.

The opening of the local cannery has been reported for some time, but the orders were delayed and the department remained closed. The opening of the cannery means the reopening of the tinning department, the enlargement of the box factory and an increase in wrappers, jiggers and killing gangs. For some time past the Kansas City house has been buying cattle and shipping here to South Omaha to be killed and boned after which the meat was returned to Kansas City to be packed for shipment.

The new order here will mean that Cudahy will be in the market again for live stock. It was said yesterday that the announcement that Cudahy had reopened the cannery here would be hailed as a godsend by many of the poor packing house men who have been out of work so long.

Point System Introduced. Keeping in step with the times, Principal S. W. Moore of the South Omaha High school has launched for public discussion, a new method of grading students from the local high school. The name of the new plan is "point system of graduation."

Under the new regime, a student may graduate on 2,500 points, in other words equivalent to an average of 90 per cent in thirty-two subjects. The present system requires that the average student have at least a final grade of 70 per cent in thirty-two subjects. Under the new system, the advantage is that if the student makes a special effort and gets a higher percentage in grades, it would mean that he could graduate on less than thirty-two subjects.

The object in view is to make the grades of the average student show quality as well as quantity of work. The fact that a student could, by dint of hard work, attain an average of 85 per cent in thirty subjects during the four-year course and then graduate with only thirty subjects actually dealt with, is enough to install an incentive in the student to study harder and more comprehensive side of the high school courses. Again, even with the number of studies required for graduation lessened by two, the standard required would be 10 per cent higher.

Principal Moore in speaking of the proposition said, "The new system, although undoubtedly ahead of the times and ahead of anything proposed at the recent state teachers' convention in Omaha, is still possibly the most practical offered as yet for any modern high school of this state."

Quarantine to Stand. "No immediate modification of Iowa quarantine" was the reply received yesterday afternoon at the Union Stock yards of South Omaha in response to a petition of the local live stock interests, who wanted the ban on western Iowa raised. This reply was not unexpected at the stock yards as told in The Bee of yesterday.

The Live Stock exchange met yesterday morning to consider the proposition of keeping the yards open on Thanksgiving day. By a vote it was determined to suspend the rules and keep the yards open on that day. This, however, was done in the hope that the quarantine on western Iowa might be modified in a short time.

Explaining the action of the department in refusing to lift the quarantine it was said that new developments in

Early Mailing of Packages Advised. "Mail your Christmas parcel packages early!"

This is the advice given out by the Postoffice department. Significant figures prepared by the railway mail service indicate that unless parcel post packages are mailed earlier this year than last many of them will not be delivered until several days after the Yuletide holiday.

"Our heaviest parcel post business through the Burlington depot mail terminal, which handles all parcels posted to Nebraska points, was so heavy during the few days immediately preceding Christmas last year that much of it was late in being delivered," says Superintendent C. M. Reed of the railway mail service.

Many extra mail clerks have been arranged for to handle the Christmas parcel post business. Captain W. S. Pelt, chief of schemes and schedules in the railway mail service for this division, has applied for a total of 1,000 days' extra help, to be done by about 100 substitute clerks and extra city service men, the last ten days before Christmas.

The parcel post service has grown wonderfully during the last year as indicated by records in the mail service. During the week ending November 15, last year, 1,326 pouches of Nebraska parcel post stuff was handled by the Burlington terminal, as compared with 3,285 pouches during the corresponding week this year.

Twenty-Three Enlist in U. S. Army in Last Ten Days. One of the largest enlistment records ever experienced in Omaha by Recruiting Sergeant Fred Hanson has occurred during the last ten days. In that short time, twenty-three men have voluntarily passed the entire requirements and been accepted for service in the army.

As the number of enlistments was more than 50 per cent of the number of applications during the same period, another high mark has been recorded by the local recruiting office. The usual percentage of enlistments from applications only averages about twenty to 25 per cent. For thirteen men applied here to join the army during the ten days just expired.

In addition to the men who joined the army here, five enlisted at Sioux City, eight at Lincoln and four at Des Moines, and were then sent through Omaha, the main office for this district.
