

NEW WORLD SOCIETY SPELLS END OF WAR

Prof. Fred Morrow Fling Sees End of All Conflicts as Inevitable.

INTERDEPENDENCE OF NATIONS World Coming to Close of First Great Epoch of Its History Which Will Open Up Era of Peace.

"What we need today is a declaration of the rights of nations," said Professor Fred Morrow Fling of the University of Nebraska, speaking before the Political Equality league at the city hall last night on the basis for permanent world peace.

The speaker said, in his opinion the disappearance of war from the globe and the establishment of a permanent world peace is just as inevitable as is the rising of the sun in the morning. He said it is apparent to any student of history on a large scale, that the world has been tending toward a world society, "and," he said, "the world is just coming to the close of the first great epoch of its history, which will be marked by the formation of a world society."

Interdependence of Nations. He pointed out the extent to which this world society has already been developed in the intricate interdependence of nations upon one another in agriculture, in manufacture, in commerce and in finance.

The speaker attempted to show some of the things the delegates of the present world conference must keep in mind when they finally meet in council to adjust differences and make peace, if they really desire a world peace. He said they must recognize that nationality cannot be stamped out by merely destroying the outer form of a nation's life. He illustrated Poland divided among several nations many generations ago, and yet more alive in spirit today than ever. He pointed to Alsace-Lorraine, taken from the French by Germany in 1871, and today still keenly French in spirit. He showed that this important fact must be recognized by those who seek to make permanent peace.

Other Problems Loom. "You hear some people say," said the speaker, "that if Germany is defeated the country will be divided up and that part of it will go to Russia, part to England, part to France and so on. "What rank nonsense that is! If that were done you could not destroy the nationality of Germany, anyway. What folly to solve the Polish, the Slavic and the French problem and create the Germanic problem. The men who gather around in a peace council this time must take care that in settling this great problem they do not simply create another perhaps greater one.

Eatig When Others Are Through

Is Not Gluttony, But Stuart's Dyspepsia Tablets Will Enable You to Have such an Appetite.

In these days of high pressure most men and women eat very little and a good deal of food is left on the table. The best way to get such an appetite is the Stuart way—the natural way.

Readily: "Ever since Jones took Stuart's Dyspepsia Tablets I've lost money on him."

If your stomach cannot digest your food, what will? Where's the relief? The answer is in Stuart's Dyspepsia Tablets, because as an antacid they neutralize from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is able to digest 1,000 grains of food, doesn't it stand to reason that these tablets are going to digest all the food and whatever food you put into your stomach?

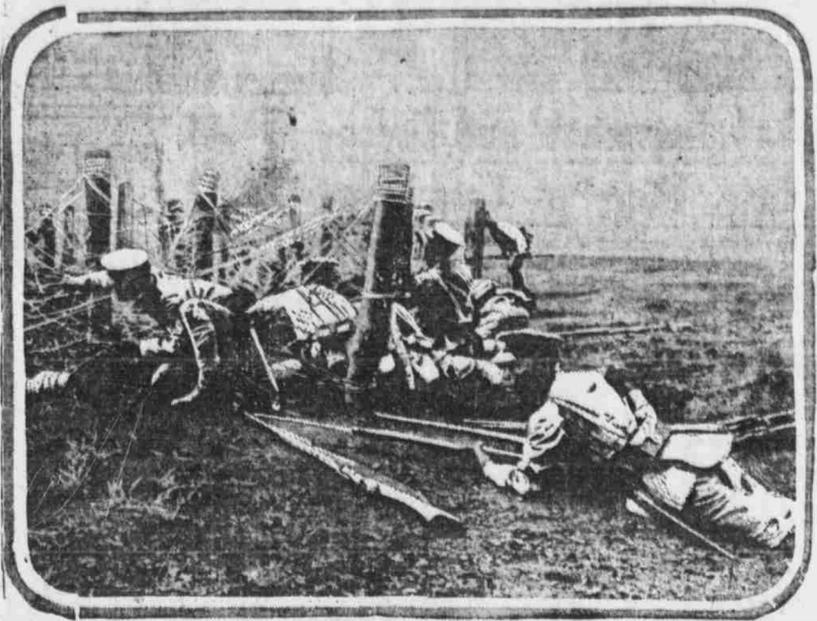

Stuart's Dyspepsia Tablets are carefully made to supply every element lacking in a system afflicted with dyspepsia, indigestion, gastritis, stomach trouble, etc., and to add healthy systems to digest difficult food at unseasonable hours. Just carry one of these little tablets in your purse or pocket. After every meal, no matter when eaten, you have always at hand the assistance that nature will furnish and thrive upon.

In this manner you may eat all manner of food, attend late dinners, etc., and feel no serious results afterwards. Thousands of travelers always have a box of Stuart's Dyspepsia Tablets in their grips and are thus enabled to eat unaccommodated meals at any and all times. Surely there is nothing so well adapted to sufferers from food follies as Stuart's Dyspepsia Tablets, and the greatest proof of this fact lies in the assurance that one can purchase a box of any drug store anywhere in this country.

A small sample package of Stuart's Dyspepsia Tablets will be mailed free to anyone who will address F. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Hotels of Zeebrugge and Heyst Destroyed by English Artillery and Inhabitants Flee.

GERMANS SUFFER NO LOSS All Parties Acclaim Declaration in Saxon Diet Peace Will Not Be Made Without Securities Against Attacks.

BERLIN (Via Wireless to London), November 28.—The following information was given out in official quarters to the press today: "Yesterday's bombardment of Zeebrugge and Heyst, Belgium, by a British squadron resulted in the destruction of the hotels, and the flight of the inhabitants. The German troops suffered no loss.

"When the Saxon diet opened, the declaration that peace would be concluded only after the attainment of security against further attacks was enthusiastically acclaimed by all parties, including the socialists.

"Russian shipping companies at Odessa have withdrawn their ships from the Black Sea and the Sea of Azov as a consequence of the Turkish naval supremacy in those waters. A bombardment of Odessa is feared. The blockade of the harbor of Libau places the control of the Baltic Sea in the hands of the Germans, while the opening of the harbor of Archangel (on the White Sea), severes Russian communication with the outside world.

Asks English Contributions. "It is reported from Stockholm that the Russian government has asked for English contributions to the extent of 500,000,000 rubles (\$80,000,000) toward its war loans.

"A brother of the sheik of the Senoussi informed the Constantinople correspondent of the Berliner Tageblatt that the hostilities were not in any way directed against Italy, but only against the triple entente powers. The sheik, he declared, had over 100,000 warriors under his command in Tunisia and Morocco.

"The Morgenpost thinks that the check to the Russian reinforcements near Lovicz is proof that there are no Russian troops north of the Vistula, they having been driven across the river by the Germans. This further indicates that the German army is now fairly on the Russian flank with the roads to Warsaw open to it.

Russians Driven Back. "From Galicia comes the official report that the Russians have been driven back through the Carpathian passes. Ugek Pass is already in the hands of the Austrians.

"Though no detailed account of the operations in the neighborhood of Pilica and Walkrow (Southern Poland), is at hand the report that the Austrians have taken 2,500 prisoners and forty-nine machine guns during the last few days appears to show that their advance continues.

"The Austrians have made progress in the offensive against Serbia and have repulsed several attacks with great loss to the enemy. The mountain ranges south-east of Valjevo, Serbia, though covered with snow, have been crossed by the Austrian troops."

"HOT" ARGUMENT BRINGS TROUBLE TO JOHN SMITH

It was a decidedly hot argument that Charlie Ward and John Smith had Thursday evening in the lunchroom of the Midway saloon at Twelfth and Capitol avenues. Before it was over, ten gallons of scalding hot water had been spilled over Smith's left arm, shoulder and back. Being decidedly repulsed in the engagement, Smith retreated to his rooms at 20 North Thirtieth street, and did not receive medical attention for his burns until last night, when Police Surgeons Kinyoun and Hubenbecker dressed them and pronounced them quite serious. Both men are colored, and Ward is manager of the lunchroom and lives at 210 Patrick avenue. He was arrested on a charge of assault with intent to do great bodily harm.

GERMAN WARSHIPS DISABLED BY TRICK

Admiral von Essen of Russia's Baltic Fleet Paints Vessels with Teuton Colors.

JOINS KAISER'S BOATS IN FOG Guns Turned Loose at Favorable Opportunity and One Cruiser Sank and Others Are Damaged.

(Copyright, 1914, by Press Publishing Co.) PETROGRAD, Nov. 28.—(Special Cablegram from a Staff Correspondent of the New York World and Omaha Bee.)—I am in a position to tell such part of a story as is advisable to disclose of a very smart piece of naval work by the Russian Baltic fleet, commanded by Admiral Von Essen.

It may be remembered that a number of German war vessels put into the Kiel canal with injuries, in some cases so serious that the vessels sank in the canal.

Nothing official ever was allowed to be known of this Russian exploit, nor can all details be told even now.

The German vessels had the habit of cruising about the Baltic up to the limit which the Russian fleet had decided to hold.

Admiral Von Essen painted several cruisers and destroyers with German colors and contrived in foggy weather to join the German ships.

At a convenient moment he opened fire and sank one German cruiser and badly damaged another, while the destroyers put in good work on the German smaller craft. After this the Russian vessels went home untouched.

The Germans naturally kept silent about the whole affair. A number of coveted St. George crosses were issued to the Russians for this satisfactory expedition.

In connection with the above story it is interesting to note a brief statement which was given out in London by the official news bureau on September 4. This announcement was as follows: "According to information derived from a trustworthy source, seven German destroyers and torpedo boats have arrived at Kiel in a damaged condition and it is understood that others have been sunk in the vicinity of the Kiel canal."

AFFAIRS AT SOUTH OMAHA

George Spears Given Ten Days' Layoff by Police Board.

ACTION ON BUGLEWICZ DELAYED Police Board Will Meet Again Today to Determine Whether He Would Take Smoke and Water as Ordered.

George Spears, a fireman charged with incompetency and drunkenness, was given a ten-day lay off yesterday morning when the Fire and Police board tried him. John Buglewicz, also a fireman and charged with incompetency, was not so fortunate for his case was taken under advisement by the board. In the Spears case the board agreed to dismiss the charges but as a warning to Spears suspended him from duty for ten days beginning with the time he was laid off by Chief Hasbuz. The Buglewicz case will be decided this afternoon at 2 o'clock.

Testimony in the Buglewicz case narrowed down to a question of fact whether the fireman was too hesitant in taking orders at a fire. The chief burden seemed to be the sworn testimony of his superior officers that he had showed a disinclination to climb ladders at fires and also to "take smoke and water."

Mayor Thomas Hoctor took part in neither hearing, being reported absent.

Convey Over Water Bill. In accord with the agreement of some days ago General Manager R. B. Howell of the Water district was on hand yesterday evening to confer with the mayor and city council agent the payment by the city of a water bill amounting to some \$12,000. When Howell arrived the council had disappeared so Mayor Thomas Hoctor, City Clerk Perry Wheeler and City Attorney Henry C. Murphy went into a conference with Mr. Howell. The meeting had been called for an hour before the time when Howell and his attorney John L. Webster arrived. The council not being overly friendly to the claim of the water works, spent no time in cooling their heels awaiting his coming.

There is no doubt, of course, about the city paying the money claimed. In view of the supreme court ruling in a recent case the city has no alternative. It has the money and will pay it because it must needs do so.

Looks Dark for Traynovich. Because William Roedeckay is alleged to have been decorated with a black lamp in Traynovich's saloon at Thirtieth and Q streets, the friends of Roedeckay filed a complaint against Traynovich for selling liquor after hours on Saturday, November 14. The information was filed with Judge Callahan who was defeated at the recent election. The case will come up this morning.

Electric Light Contract. Adverse report on the contract offer recently made the city of South Omaha by the Omaha Electric Light and Power company and the substitution of a new ordinance for street lighting were the features of yesterday about the city hall. The former contract was received some weeks ago. City Treasurer F. J. Martin raised some opposition to the speed that was promised in getting through with the matter. Martin insisted that under the law a contract and clause providing for a royalty to the city must be contained in the new contract. There was considerable talk and then the company proposed the new ordinance which will be placed on first reading next Monday night, it is understood.

MORE MONEY FOR SEWERS, IS CRY FROM MILLER PARK

An increased apportionment of \$100,000 for the city sewer bond fund will be provided for in a bill the Miller Park Improvement club will ask the Douglas county delegation to get through the legislature this winter. This would increase the sewer bond fund maximum to \$500,000.

The improvement club, at a meeting last night held especially to discuss the Miller Park sewer, which is uncompleted from Himebaugh street, invited Mayor Dahlman, and City Commissioners Thomas McGovern and J. B. Hummel to speak. The officials endorsed the proposed bill, but told the club that it would not be possible to raise the \$40,000 necessary to complete the Miller Park sewer unless a bigger bond issue could be secured.

Mayor Dahlman and Miss Minnie Oliver, a teacher in the Miller Park school, sang a duet, the mayor's favorite, "The River Shannon." A musical program consisting of the following closed the entertainment: Vocal solo, Miss Minnie Oliver; flute solo, Earl Tickner; reading, Mrs. J. W. Evans. Mrs. Charles Thiem arranged this program. Sandwiches and coffee were served.
