Policeman is Held Up in Saloon Till Reserves Come Up

John Barta, plain clothes policeman, was forced to throw up his hands for a few minutes, until help came, when Thomas Doyle shoved a gun in his face. Jim Jackson, colored, was shooting dice when Barta appeared at the saloon door. Doyle poked a gun in his face and made him throw up his hands. Barta argued with him until Officers Sullivan and Leahy came along, when the pair was soon cleaned up and taken to the station. No injury was done except the loss of some skin from Barta's hand, where he hit Doyle when he floored him. In Gus-Wick's place when Thomas Doyle and Frank Burns, both white, assaulted him. He ran to the police station for help and Barta was sent down.

Cleveland, who is to be pastor of the mission. Music was rendered by St. John's choir. Services will be held each evening for a week.

Drink or Drugs Destroy Manhood

Any reputable physician will advise you that the poison of alcoholic liquors or narcotic drugs retards and "stores up" in the system weakness and paralyzes the nerves and tissues of the body, and finally destroys mental, moral and physical manhood. The Neal Treatment acts as an antidote for these poisons, eliminates them from the system, changes desire and craving into a longing for liquor or drugs, overcomes the diseased condition, "builds up" the system, and restores health and real manhood. We recommend that all patients spend a few days at the nearest Neal Institute, but where this is impossible we guarantee that in any ordinary case of drink habit the Neal Treatment may be successfully taken at home, hotel or club. For full information, call or address the OMAHA NEAL INSTITUTE, 1522 South Tenth Street, Omaha.

DOG COMES TO SEEK MOTHER

Shepherd Pup Travels Thousand Miles to Find Mother is Gone.

BELONGS TO SOUTH OMAHAN

G. A. Bolen Family Took Brute to Yazoo, Miss., Six Weeks Ago When Moving to Their New Home.

Dead tired and with its toe nails worn down so far that it could hardly stand up, a shepherd dog belonging to G. A. Bolen, formerly of South Omaha, was found asleep yesterday curled up at the doorstep of its master's father, G. Bolen, 723 North Twenty-second street, South Omaha, after making a trip of about 1,000 miles in two weeks.

That is going some for a 2-year-old canine, and it was nothing more extraordinary than homesickness that instigated its trip back through all kinds of weather and over all sorts of roads to see its mother. But even after such heroic deeds on the part of the poor animal it arrived only to find that its mother was dead, having been shot two weeks ago. The rest of the story is stereotyped in that the dog was taken to its new southern home about six weeks ago by the G. A. Bolen family when the members moved to Yazoo, Miss., and made the trip in an automobile. The trip consumed four weeks, and after establishing themselves in their new home the family went on another trip to New Orleans, leaving the dog at home. The rest of the story has been told, excepting that its trail, stained from its bleeding toe nails, showed at South Omaha that it had first tried to enter the doors of the South Omaha Van and Storage company barn, formerly owned by Mr. Bolen, and meeting with disappointment there went over to the elder Bolen's home, where it looked high and low for its mother, only to finally lie down exhausted at the doorstep of the house.

Just before moving to Yazoo Mr. Bolen gave the mother of the dog to his father, and old scents led the pup on its long trail.

Missouri Pacific May Delay Building of the New Viaduct

Construction of the Dodge street viaduct, assured by the supreme court's ruling on the city ordinance ordering it is legal, will not begin for several months. Missouri Pacific railroad officials have intimated to the city legal department that the road's tracks will be raised over the streets where viaducts may be necessary in the near future.

"This would forestall the city in ordering more viaducts," said City Attorney John A. Hino, "and it will probably be done. Railroads in other large cities have raised the tracks over the streets to eliminate the dangerous grade crossings."

The city legal department has received no word from the supreme court concerning the recent opinion and none is expected within less than two or three weeks.

COTTON MAY NOT BE USED FOR CHRISTMAS DECORATIONS

Fire Warden Ed Morris has issued an order to merchants prohibiting the use of common cotton as "snow" decoration for Christmas display windows. "Asbestos cotton may be used," said the fire warden, "but the dangers from fire make it necessary to prohibit the use of the ordinary cotton." The fire warden will inspect show windows with the city electrician and all inflammable stuff will be ordered out.

Ferguson Tells of Electrical Motors

Prof. O. J. Ferguson of the electrical engineering department of the University of Nebraska gave his second lecture last evening in the Young Men's Christian association's popular industrial lecture course. He talked about street railways and motors. Thursday and Friday evenings E. H. Hagenslek, superintendent of lines for the street railway company, will speak on "Electrical Traction." His Thursday lecture will be illustrated. The course is under the direction of Educational Secretary J. W. Miller of the association, and is intended especially for technical men and for employees of electric companies who wish to learn more of the theory and practice of the work.

NOVEMBER DRIEST MONTH ON RECORD IN OMAHA

Less moisture fell in Omaha last month than in any previous November in the history of the local weather bureau, according to Forecaster Welch's monthly report. The precipitation was .39 of an inch, two-thirds of which fell on the last day of the month. The mean temperature also was higher than it has been in November for ten years, with the exception of 1912. There is now an accumulated excess of 1.55 degrees of temperatures since January 1. There were only three cloudy days during the month.

WOMEN HOT AFTER SENATOR Get No Satisfaction from Hitchcock When Committee Waits on Him.

Resolutions Adopted After Senator Tells Visitors There is No Need for Action on the Question of Polygamy.

The Omaha Woman's Missionary federation is after Senator Hitchcock. It is all as a result of Frank J. Cannon's anti-Mormon speech at the Auditorium two weeks ago, which aroused the church women mightily. One of their number, Mrs. Frank Hughes, approached Senator Hitchcock on the matter, and according to Mrs. Frank Stewart, secretary of the federation, was abruptly informed that there was no need for action as polygamy was no longer practiced in the Mormon church.

At Tuesday's meeting at the Young Women's Christian association, Mrs. E. G. McGillon presented the following resolution, which was unanimously adopted:

"We are amazed at the lack of information shown by Senator Hitchcock, as reported to us by Mrs. Frank Hughes, in regard to polygamy" as at present practiced in the Mormon church. We challenge him to inform himself of the facts. It was also noted that a copy of this resolution should be sent to Senator Hitchcock.

Mrs. P. A. Putnam then introduced the following resolution, which was also unanimously adopted:

"Resolved, That each denomination represented in the Women's Missionary federation take definite action looking to the solicitation of Representative Lebeck's support in the important measure of the anti-polygamy bill."

The Rev. G. A. Hulbert of the St. Mary's Avenue Congregational church addressed, in an interesting way, the federation on "Home Missions."

Commercial Club Renews Membership With National Body

The Commercial club of Omaha will renew its membership in the National Rivers and Harbors Congress. This was just decided by the executive committee. This move grows out of the renewed interest Omaha business men are now taking in the possibility of Missouri river navigation between Omaha and Kansas City. The executive committee has decided to send a committee consisting of J. W. Gamble and Robert H. Manley, commissioner of the club, to Washington next week to meet with the National Rivers and Harbors congress there. These are the two men who a few weeks ago made a trip to Kansas City to investigate the Missouri river navigation project, which has been in operation between Kansas City and St. Louis for four years.

Although sixteen vacancies at salaries of from \$20 to \$2,000 per year were open, only two applicants appeared at the federal building to take civil service examinations for appointment to fill the positions. Schmoller & Mueller's 55th Annual Christmas Sale OF NEW AND USED HIGH-GRADE PIANOS. In order to obtain rock bottom figures from the manufacturers we were obliged to buy over three thousand pianos to be delivered during the year 1914. The unfortunate condition in the south caused by the cotton market, with the holding back of the wheat and corn crop by farmers in the north for higher prices, has created such a depression in our piano business that we find ourselves largely overstocked with nearly one thousand instruments on hand and in transit, and only four weeks time to dispose of them. Rather than store these pianos, we will sacrifice prices in order to place them in as many homes, and get the benefit of the advertising herefrom. We will sell Beautiful NEW Uprights, regular \$250 and \$350 values, at \$175 to \$250; New Player Pianos, regular \$450 to \$600 values, at \$328 to \$395. NEW Grand Pianos as low as \$428. Danger That Economy May Lead to Hysteria. A short time ago we listened to an address delivered to the students of one of our Great Colleges by the professor of Economics. The hall was crowded with the students and many of the influential men and women of the town. The professor referred to the destruction over seas and its effect upon the incomes of many of the people of this nation. He advised economy—the cutting out of foolish and wasteful expenditure, but warned his hearers against the danger of their economies developing a sort of saving hysteria. He was absolutely right. There is today that serious danger all over the nation—people whose incomes have not been affected a particle, people whose incomes are so large that even a reduction of income or passing of a few dividends cannot seriously affect all-cutting down this year. Not before they know it their attitude and the attitude of other thousands will affect all the business interests of the country, and that will mean further reductions in income and more unemployment. That's the hysteria of economy. Don't you acquire it. Act as nearly normal as you can. Think of the sufferers across the ocean; help them out of your abundance. But don't forget what you owe TO YOUR OWN LAND As an inducement to normal activity, THOMAS KILPATRICK & CO. have done some pruning of prices for THURSDAY.
