*CATTLEE—The receipts of cattle this morning numbered 132 cars, a very fiberal run for a Thursday, but still the total for the week is smaller than for the corresponding four days last week by almost 2,000 head. At the same time the run is larger than a year ago by over 1,000 head. As advices from other selling points were not particularly encouraging, buyers were somewhat inclined to take their time, giving the trade the appearance of being slow. Still there was a fair movement and the big bulk of the receipts changed hands in reasonable season. The prices paid on the desirable kinds were about steady with yesterday. This means that the market is now around 50c heigher than the extreme low point of last week.

Cows and helfers were a little slow, but there was not much change in the market as compared with yesterday, taking were not quite so atrong as yesterday. Still the market is around 406750c higher on killing grades than it was stitle care as strong on feeders as it is carling the case of undesirable stuff they may not have been bid quite so strong as yesterday. Still there was a reasonably good demand and the desirable kinds changed hands in fair season.

The feeling this late in the week is never as strong on feeders as it is carling. Still there was a reasonably good demand and the desirable kinds changed hands in fair season.

For the first time i several days, reichmarks falled to show increasing strength. It was due to a temporary cossation of demand for these remittances.

Bould this submitted by the exchange dividend anmouncement.

Outstanding features this week thus far have been the liberal receipts on Monday, accompanied by a sharp simp of 2550c. Since that time, however, the receipts are dropped off considerably, the estimate for the four days to date amounting to only 29,304, compared with 44,342

NEW YORK STOCK MARKET Continued Broadening of Demand

for High-Grade Securities. MANY OVER COUNTER SALES

Scope of Trading, as Well as its Extent, is Below that of Recent Active Days.

NEW YORK, Dec. 10.—Continued broad-ening of the demand for high grade securities was the conspicuous feature of the general financial situation today, both on the stock exchange and among bank-ers, who reported a large number of "over counter" sales. There were signs of foreign liquidation, presumably for Germany, but this was taken without strain.

Germany, but this was taxen without strain.

Both bonds and stocks of speculative quality moved irregularly, but the scope of the trading, as well as its extent, was below that of recent, active days. In the stock list submitted by the exchange the weakest feature was New York Central, which reflected yesterday's dividend announcement.
