Durum Wheat Prices Make a New Record at Dollar and Half.

CASH SALES REPORTED HEAVY

Three Million Bushels Are Sold on Export Account-Primary Receipts Fall Off-Corn and Onto Are Higher.

OMAHA, Dec. 18, 1914

OMAHA, Dec 18, 1914.

New record high prices were made for furum wheat yesterday, the highest since the war broke out. Durum sold in Philaconding at \$1.50 and at Omaha at \$1.25. The future market was strong and higher all around.

Cash transactions in wheat on foreign account were around \$20,000 bushels in all positions. Of this amount there were \$60,000 bushels at Chicago. Table advices of the scarcity of breadstuffs in many of the importing countries were redicated by the urgent demand from all preigners, not only for the cash article, but for the futures as well. Advanced prices for futures had no terrors for the foreign buyers, as they continued to absorp offerings as rapidly as they were made.

New York reported the bushest day on the crop for exporters.

Bulis were pleased yesterday by the big decrease in primary receipts. Minneapolis and Duluth reported \$2 cars jointly yesterday and Winnipeg only 149 cars, showing that the wheat is pretty well marketed off the farms and that those wanting this grain will be obliged to pay high. The government crop report posted yesterday was as expected and failed to create any disturbance.

Corn and oats were higher, the former resting at advances of \$451c, and the latter at gains of \$450c. Cash sales were \$50,000 bushels corn and 400,000 bushels oats, 200,000 bushels oats, 200,000 bushels corn and 400,000 bushels oats, 200,000 bushe

oats, 200,000 bushels corn and 400,000 bushels of oats being for export. Speculative trade was light. Baitimore and New York bought corn in the market. The country is selling little corn and oats. Provisions were higher on the steady hog market and a general broadening of speculative interest. Hogs at the yards were 56,000 higher, and the receipts at western markets yesterday were 116,000 head, compared with 107,300 a year ago. Hard winter wheat was 161146 higher. Durum wheat was 161146 higher. Corn was 146146 higher. Oats were 16 higher. Clearances were: Wheat and flour, equal to 1,836,000 bu.; corn, 1,000 bu.; oats, none.

Liverpool closed nominal.

Primary wheat receipts were 1,000,000 bu.

sud shipments 741,000 bu. against receipts
of 1,002,000 bu. and shipments of 545,000 bu.

Primary corn receipts were 978,000 bu, and ahipments 616,000 bu, against receipts of 1,813,000 bu, and shipments of 696,000 bu, last voca. Primary cats receipts were 636,000 bu, and shipments 525,000 bu, against receipts of 614,000 bu, and shipments of 732,000 bu. last year.

CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing Prices on Board of Trade.

CHICAGO, Dec. 18.—Heavy profit-taking and a little talk of peace and of difficulties hampering exports nearly wiped out today a substantial advance in the wheat market prices and closed unsettled with gains of 5c to 5c net. Corn finished 5c off to 5c up, oats unchanged to 5c down.

Holders of wheat did not manifest at

to lac lower and provisions a shade to De down.
Holders of wheat did not manifest at first any general disposition to sell out and it was not until the market had rison an average of ic a bushel that much unloading was done. Vague hints of peace which had been discovered in some of the European dispatches were at this juncture made capital of by speculators working for a decline. There seemed to be a widespread disposition, however, to avoid as far as possible noticing crude rumors, with which the trade has had of late considerable unwelcome experience. Gossip, though, of a check being not unlikely on the sailing of English ships from American gulf ports was given some attention and had are unsettling effect. A New Orleans freight authority was quoted as saying British vessels were not to leave portwithout having official sanction to do so.

Refusal of many country dealers to sell without having official sanction to do so.

Refusal of many country dealers to sell wheat except at a decided further advance kept actual transfers to exporters down to smaller proportions today than has recently been the case. One of the leading cash concerns here was said to have withdrawn from the market for the present, having disposed of to foreigners all the wheat readily available and being without any expectation of replacing the stock in an advantageous manner.

Milder weather, tending to diminish feeding and to enlarge rural offerings, acted as a handicap on the buils in corn. Export sales formed more than an offset, though, until the wheat market saffered a down turn. Oats held to a narrow yange, fluctuating only with other cereals. Primary receipts were larger than the shipments.

than the shipments.

Generous arrivals of hogs weighed down provisions. There was an outlook also for a further heavy run as a result of the lifting of the Wisconsin quarantine.

Coffee Market.

NEW YORK, Dec. 18.—COFFEE—Market was quiet but generally firm during today's trading. The opening was at unchanged prices and there were a few December notices in today's transactions. The close was at open prices and there were a few December prices circulating in the street, but after some little switching from December to later months they appeared to have been taken care of with rumors that the receivers would ship the coffee to Europe. At any rate, the market became more active later in the day, and advanced rather sharply in the absence of important selling, with the close at a net advance of 12 to 18 points. Sales 12,256 bags. December, 6.25c; January, 6.25c; May 6.52c; May 6.52c; June, 6.52c; July, 7.42c. August, 7.52c; September, 7.52c; October, 7.52c; November, 7.69c. SHEEP-A liberal run here, a liberal run at Chicago and depressing news from eastern points caused the packers to be extremely slow buyers again today. There were no bids on many of the offerings until late in the forenoon, and then the opening bids were 40050c lower on lambs. The aged sheep seemed to be in better demand than the lambs, and were fairly active sellers, though showing a decline of 16072c from yesterday. As far as lambs were concerned it was a case of the sellers holding out for better prices. IGS.

resulting in a sluggish market most of the forenous and a good many offerings being unsold at 11:20 o'clock. Finally a break was made with lambs showing a slump at least of 2002 on the best grades, with even a greater decline in cases on the less desirable kinds. The entire receipts were not cleared until late in the day. Most of the lamb sales were made e \$7.5095.00, with the bulk of the ewes nowing at \$5.995.35.

Today's slow and lower market makes lambs 25035 lower than the close of the previous week, with aged sheep harely steady. A sprinkling of yearings arrived on the market this week, and on Wednesday, the high time, however, yearlings have been in poor demand, and current sales show at least a decline of 50c from the middle of the week. Moderate receipts during the fore part of the week gave the trade a healthy tone and a higher trend to prices on some days, but later in the week heavy receipts here and classwhere, coupled with hearish reperts from the eastern trade, gave values a downward tendency, with the week's market closing in a weak condition.

NEW YORK STOCK MARKET

Shares Dropping Before News of Rate Decision Comes.

HASTY COVERING MOVEMENT

Time Money is Easier, the Rate for All Dates Being Reduced to Four Per Cent-Bonds Henvy

NEW YORK, Dec. 18.—Prior to the an-nouncement made shortly before midday that the Interstate Commerce commission had granted a restricted 5 per cent freight had granted a restricted 5 per cent freight advance to the castern railroads, the stock market was dropping at a pace which strongly suggested liquidation. In the brief period between the opening of the market and publication of a summary of the decision, prices crumbled 2 to 3 points and were 4 to 5 points under the high level reached on Tuesday, when open trading in the entire list was reseatabilished. Some shares were within a few points

Some shares were within a few points of the minimum prices and seasoned issues were decining for lack of support. What made the movement more noteworthy was the fact that it took very little stook to affect the decines. The average transaction at that time was in 100 and 200 shares, with losses being sales extending to ½ point or more. Although early advices received in the financial district respecting the decision were somewhat misleading, they were of a tenor to indicate that many of the more important demands of the railroads had been granted. This was sufficient to precipitate a hasty covering movement by the bears and induced some long buying, which not only obliterated all early losses, but restored the average of prices well above the previous day. Realizing in the final hour caused another shading of walues, with new net changes at the end. By students of the railway situation the decision of the interstate Commerce commission was regarded as a victory for the roads, although its invortance was rulliission was regarded as a victory for the roads, although its importance was nullified in large part, it was said, by the failure to include coal, coke and iron ore in the list of commodities entitled to higher rates. Most of the eastern railroads derive a large part of their tohinage from these products, in some cases the percentage running almost up to 70 per cent.

cent.

Time money was easier, the rate for all dates being reduced to 4 per cent. Large amounts of call money were placed at 3 per cent. The local federal reserve bank followed the lead of similar institutions cisewhere by lowering its discount rates. Bonds were heavy at the outset, but recovered with stocks. Total sales, par value, \$1,392,000.

United States government bonds were unchanged on call.

BRADSTREET'S TRADE REVIEW

Currents Run Along Irregular Lines, it is Reported.

NEW YORK, Dec. 18.—Bradstreet's

Trade currents run along irregular lines.
On the one hand, retail trade has been helped by two factors, holiday buying and cold weather, but in the larger lines the immediate situation is quiet, reflecting preinventory conditions, plus seasonal slowing down in industrial pursuits. At the same time optimism as to the future is more in evidence, thanks to lower rates for money, improvement in financial markets and the rendering of a decision in the eastern railway freight rate case.

Inc dentally, buying of finished steel, as well as of cotton goods for future delivery, has expanded somewhat, quotations being sufficiently attractive to induce business. Bank clearings for the week aggregate \$2.87,662,600, a decrease of 12.3 per cent from this week last year.

Business failures for the week were 466, against 378 in the corresponding week last year. Journal will say tomorrow:

ear.
Wheat exports from the United States and Canada were 9,707,123 bushels, against 6,964,102 in the same week last year.

GLOETZNER, PENSION AGENT. ASKED TO WASHINGTON

H. F. Gloetzner, special pension examner in the federal building, has received instructions to move to Washington, D. C. He is now packing up his office papers and will leave shortly. It is not known

whether another pension examiner will be assumed to Omaha, or whether pen sion matters will hereafter be hundled in Washington for this part of the coun-

The rapidly decreasing number of (sdera) pensioners, due to many deaths among old veterans and their widows, may lead to the abolition of the Omaha pension office," says Custodian Cadet

Taylor of the federal building.

ALFRED G. VANDERBILT TO PASS THROUGH OMAHA

Affred Gwynne Vanderbilt will pass through Omaha today in his private car. He will arrive on the Northwestern ast mail and immediately leave over the Union Pacific for California, where he will spend the winter. He will be here at about 9:30 in the morning.

Mr. Vanderbilt, according to people in Omaha who know him, is some admirer of horses and some horseman. In fact, it is said that he has not up to date discarded his horses for automobiles. He lives in New York and his acquaintances here tell of something of a sensation that he created a few years ago when he hauled tourists from the Waldorf-Astoria hotel through Central park and back at \$5 per head and per ride. At the time he wore a bright red coat and white plug hat, drove eight horses to a coach that would carry eighteen to twenty people.

Bank Clearings.

OMAHA. Dec. 18.—Bank clearings for Omaha today were \$2.995,085.06 and for the corresponding day last year \$3.070,-770.67.
