GRAIN AND PRODUCE MARKET

Rampant Bulls on Board of Trade Talking Higher Prices for Wheat-Clearances Heavier.

CORN MAKES SHARP ADVANCE

OMAHA, Jun. 16, 1915.

OMAHA, Jan. 18, 1915.

The more rampant buils on the beard are new talking \$1.75 and possibly higher for wheat on this crop. The market in which exporters have bid for this grain, as well as flour, and the fact that they have continued to advance their bids because of the competition between millers and exporters, shows the buils that there are many possibilities on their side of the market. A new high level was reached yesterday at \$1.45% for May wheat. It was difficult to trade in the May future yesterday because of the amali offerings in the pit and those wanting that future were colliged to bid for it.

A feature of the day's business was the sale of 1,250,600 bu. Duluth No. 1 northern spring wheat, now affoat at Buffalo, the American commission for relief in helgium. Spring wheat stocks at Buffalo, the American commission for relief in helgium. Spring wheat stocks at Buffalo are reported as largely concentrated in the hands of a Duluth exporter. This holder predicted semetime ago that wheat would sell at \$1.50, and now he says it will reach \$1.75, and possibly higher.

The cash wheat business in all positions yenterday was reported at nearly 2,000,000 bu. and the clearances from the seaboard this week were \$129,000 bu., compared with \$,912,000 bu. last year. Charters for the outward movement of wheat have been made the last day or two at the highest prices ever known.

Primary corn receipts were 2,207,000 bu. and shipments 1,201,000 bu. against re-ceipts of 972,000 bu. and shipments of 654,-

CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade.

CHICAGO, Jan. 16.—Five cents a bushel was knocked off the price of wheat today in less than fifteen minutes, puting the market here under severe atrain, and causing a flood of stopioss seiling. The flurry, to some extent, was later overcome, started by reports that a bill would be introduced in congress to place an embargo on exportation of wheat.

Fresident Wilson's order for an invostigation touching wheat and flour, was not known of here until lafter trading hours. The wheat market closed upsettled at 3% to 3% onto down here to fix to he 1% onto here and provisions varying from a set back of a shade to a rise of 7%.

Suddenness of the break in wheat was explained by the fact that an unusual number of recent buyers had sought to protect their trades by orders to sell out and stop losses if there should happen to be a decline of 1% to 3%c. It was the pressure of these orders that soon after the opening overwhelmed the market, and kept prices plunging down, without a halt to \$1.0 for May delivery as against \$1.60 the night before.

Later buying was based more or less on advices that stiff bids to farmers, notably in Nebraska, had brought no wheat. Confidence of the bulls was somewhat restored, too, by primary receipts being posted as the smallest in months.

Corn gave way with wheat, but showed unexpected relative strength especially as big purchases by cash houses here were being hedged in the pit. It was said a good export business in corn was in progress. Besides stormy weather was expected to curtail receipts. Conditions as to onta paralleled corn. A number of early sellers relastated their lines.

Packing bouse products showed only temporary weakness when grain declined. Outsiders bought quite freely on the sag. Grain prices furnished by Logan & Bryan, 315 South Sixteenth street:

SHEIRP—Every day this week except Tuesday served as an opportunity for the packers to take off prices considerably, the decline being more rapid than in some time. With the exception of the lest day in the week the receipts have kept coming in liberally and, of course, the inevitable has happened. Traders at the close yesterday quoted prices anywhere from 50c to \$1.00 off on both sheep and lambs, compared with the end of last week. The bulk of the offerings averaged 63c to 55c lower, with most of the better grades of lambs on Friday selling on both packing and shearing account at aged 60c to 50c lower, with most of the better grades of lambs on Friday selling on both packing and shearing account at \$7.5007.50, some shearing lambs going as high as \$8.8502.00. If it had not been for a fairly good demand for lambs on the part of feeder buyers, who have confidence in the late market, conditions would have been much worse. The same was true of aged sheep. Ewes that sold here Wednesday from \$5.50 to \$5.00 had to sell at the close of the week around \$5.00\$\text{for \$5.00}\$ to \$5.00 had to sell at the close of the week around \$5.00\$\text{for \$5.00}\$ with ewes and jearlings as a rule have been scarce, though, in sympathy with ewes and lambs, have shown almost the same slomp in values.

Dealings During Two-Hour Session More Than Generally

Active. STANDARD ISSUES SUFFER

NEW YORK, Jan. 16.—Dealings in stocks during the day's two bours' session, were more than ordinarily active, but an unusually large proportions of the business was in shares of the miner or active issues. Standard stocks suffered from realizing sales, with some renewal of bear activity. United States steel, Amaigamated copper, Reading and the transcontinentals, which generally supply the bulk of the trading, were relegated to the background and were disposed to weaken. They steadled at the close, however. Missouri Pacific, which excited some attention by yesterday's late rise was less active today on denial of various reorganization rumors. Western Maryland issues especially the preferred stock, made further gains in response to persistent buying. Erie second preferred and Delaware & Hudson, also moved upwards.

Mercantile agencies reported steady trade improvement and increased activitation.

Mercantile agencies reported steady trade improvement and increased activity prevailed at leading steel centers, some of the mills in the Pittsburgh district having doubled their production of a few weeks ago.

The feature of the bank statement was the large increase in demand, which approximated \$28,000,000, while reserves increased about \$15,400,000, with a comparatively moderate expansion of loans.

Bonds added to recent gains, numerous low priced insues manifesting the greatest strength. Total sales par value were \$1,007,000.

Reference is made particularly to women, children. Sed persons and men, who, while of the age for military service, are physically unfit for it.

CORRUGATED WART

Bemis Park Residents Grow Emphatic in Discussing Water Board "Improvement."

WILL KEEP ON PROTESTING

Residents of the Bemis park district are beginning to resent the dilatory and arbitrary tactics of the Omaha Water board with regard to beautifying the Walnut Hill reservoir grounds. This resentment was vigorously voiced

Park Improvement club at the Franklin school last evening. J. H. Rushton, presided, and there were a number of speakers. "Shall we leave this weed-covered, corrugated wart of a thing standing up at the city's highest point to be a contin-

by speakers at a meeting of the Bemis

ual eyesore?" demanded George G. Wal-lace. Mr. Howell and the water board

stance that the water board and commissioners are of different minds and thus the citizens, whose servants both bodies of men are, are ground between the upper and nether millstone."

More Harmony Needed. Dr. H. M. McClanahan called attention to the comprehensive civic beauty plans, which such municipalities as Cleveland, Denver and Kansas City are developing. He, too, threw an Irish bouquet at the water board.

"If the water board whom we elect to run the water plant would run the water plant we would get what we want. They are our stewards, put in charge of our property and must give an account of their stewardship. We need more harmony between the water board, the city commissioners and the citis before we move forward and stride. If we had that, the have 200,000 people today." commissioners and the citizens of Omaha before we move forward at our best stride. If we had that, Omaha would

H. A. Thompson, T. G. Northwall and others, expressed the same sentiments. Dr. Cyrus E. Stimson, the playground expert, was present with City Commissioner Hummel and made an address on how Omaha ought to plan for the future of at least a hundred years. In that time the outlying fields for several miles around will be covered with dwellings, he declared.

"Apartment houses and apartment hotels may cover much of the space where now are cottages and single houses. Then the property that is now open fields will have been built upon and it will have increased immensely in value. The time to acquire property for the park and boulevard purposes of the Omaha of a hundred ; ears hence is now. Got the beauty spots surrounding your city, get them now, get them, if necessary, with state aid. But at all events get them, possess them for your city, for all time and for your children's children."

Good Start Made. Dr. Stimson complimented Omaha on the use that has been made of the little money that has been at its disposal for parks and boulevards, and said that among more than seventy American cities that he has visited and studied he has seen none that surpasses Omaha in this regard. Though it had been announced that

Park Commissioner Hummel was to speak, he was not called upon. A resolution was adopted that a committee of nine members be appointed by the executive committee to take up "and continue to take up" with the water board the desires of the citizens for the improvement of the reservoir grounds and the extension of the boulevard through them. President Rushton will appoint this committee at a meeting of the executive committee at his home next Tuesday evening.

Belgian City Fined Ten Million Because Teuton Law Obeyed

WASHINGTON, Jan. 15,-The Belgian legation here issued the following statement tonight:

"According to a cable received by the Belgian legation today, the city of Courtrai (Belgium), has been fined 10,000,000 THAN WEEK AFTER HUSBAND for disobedience, but for obeying the ormarks (about \$2,500,000) by Germany, not ders of German commanders. The circumstances are as follows:

"Two German officers, Commander rived at Courtral and ordered the municipal authorities to have all arms deposthese instructions all arms were deposited in the place named. Then there arrived a new German commander, Commandant Von Kneesebeek, who on going to the tower of Broel saw the arms in the place where the other German commanders had ordered them put, and thereupon fined the city of Courtral 10,-000,000 marks, under pretext that it was a clandestine deposit of arms, in spite of the fact that the orders of his predecessors to place the arms in the tower of Broel was known to everybody and even placarded on the walls of Courtral.
