CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Jan. 28.—War advances today outdid anything hitherto in regard to
prices of grain. May wheat took the
icad and crossed above \$1.50, a mark
that not long ago seemed fabulous. Active
buying carried other cereals as well as
wheat, to new high levels. Wheat closed
unsettled at \$675c to 15615c wheat closed
unsettled at \$675c to 15615c wheat closed
unsettled at \$675c to 15615c.

Despite a recent almost vertical ascent
of more than ille a bushel wheat today
jumped upward right at the start. There
was no selling pressure from actual holders. Baltimore sent word that wharf
space was insufficient to accommodate
steamships waiting to load for Europe
and there were cables at hand telling of
greatly tightened prices at Liverpool and
Paris, with a prospect of a suspension of
import duties in France. Continued tension between Italy and Turgey made buyers still more confident. So also did the
military situation near the Suez canal.

Export sales of 1.000,000 bushels of wheat
at the seaboard and 300 000 bushels here
helped bring about in the least hour the
strongest swell in the market. In addition it was said country elevator stocks
in the northwest had decreased 10.000,000
bushels for the month, and that private
nall stocks there were depisted.

Only once before in twenty years was
May corn so high as today, but active
commission house buying readily absarbed
large profit-taking sales. Assertions that
exporters had withdrawn from the market were offset by predictions that the
railread embargo on shipments of corn
to Beltimore would be lifted by the end
of the week. Moreover, rural offerings
were small, and receipts falling off in
Chicaso.

Foreiven purchasing of outs counteracted
the influence of denials that the Canadian export duty on oats would be withdrawn. Respising sales by owners, however, were libera!

change Buring the Day.

OMAHA, Jan. 28. 1916.

A great deal of busines in wheat on export account has been done in a subrosa manner. This is reflected in the official report on boldings of that grain by farmers of Kansas. These boldings in the official report on boldings of the Sunflewar state producers total 50,000,000 bushels in 30,000,000 bushels in two short months.

A howl has been heard from cash handlers and exporters, who have said all along that the farmers of Kansas have been holding their wheat at prohibitive prices as some were asking all the way from \$1.50 to \$2. but many have sold at the prices current.

Corn and cats were again higher, with the exception of a temporary setback shortly after the opening. Great strength was displayed, as resting orders were held in both pits, and the buyleg was 50 at all times.

The buying in the provision market was by strong hands. The list was well taken, with lard and ribs the favorites.

Exchange Continues to Reflect Disappointment Over Passing of Steel Dividend.

RAILWAY SHARES MAKE GAINS

NEW YORK, Jan. 25.—The stock market continued today to reflect the disappointment felt at the passing of the Unite' States Steel common dividend, but recovered a part of the severe declines resulting therefrom. Reduction of the minimum price on steel from 48 to 48 was effective in making that stock the most active on the list.

The opening quotalion was at the new minimum and there it remained for the greater part of the session, occasionally advancing a fraction, but soon falling back as pressure of offerings became too strong.
