CATARRH CAUSED BY A GERM

Must Be Destroyed Before Catarrh Can Be Cured, Says Specialist. Wonderful Results From Breathing Medication.

Medicine taken into the stomach will never cure catarrh. And neither will the sprays, douches, lotions, creams and other temporary relief that so many catarrh victims make it a habit of using. To cure catarrh as it won't come back you must first drive from your body the millions of germs that are flourishing in the inner recesses of your nose and throat and are causing the disease.

There is a preparation which does this called Hyomel (pronounced High-o-mel). Hyomel is a germ-killing vaporized air formed from the purest oil of Eucalyptus combined with other healing and antiseptic ingredients. You breathe the Hyomel through the mouth and nose by means of a little hard rubber inhaler which draws the Hyomel into the nostrils and into the throat.

NEED MORE WORK INSTEAD OF PLAY

Robert Cowell Tells Recreation Experts His Views of Requirements of Modern Youth.

THREE TEACHERS REINSTATED

Robert Cowell, acting chairman of the Board of Education, yesterday evening told Rabbi Frederick Cohn he believes the country is running wild over the play movement; that it is a form of hysteria and that more work for the boys and girls is what is needed.

"I am for work. I want to see our boys carrying out the coal, carrying out the shovels, shoveling snow off the walks; and I want to see our girls sewing, cooking and performing other home duties. The other day a boy in an Omaha neighborhood was the object of derision because he shoveled the snow from the walk of his home," declared Mr. Cowell, with considerable earnestness.

Action is Deferred.

Dr. Cyrus Stimson, field secretary of the National Playground and Recreation association; Rabbi Cohn and Secretary E. F. Denison of the Young Men's Christian association appeared before the school board to urge the members not to decide to refuse to co-operate with the recreation board, about to be organized here. The board decided to refer the matter again to a joint committee consisting of the judiciary and building and grounds committees, with power to act.

Chairman Cowell did not incline toward the idea of the school board co-operating in this plan, one of his objections being the possibility of the school officials unwittingly becoming parties to a general play policy, which might not be agreeable to them.

Parks and Play Places.

Rabbi Cohn drew the fire of the chairman when he stated he and son were swimming in the Hanscom park pond not long ago, whereas a few years ago a policeman would drive the boys out if they even waded in this body of water. Cowell said he objected to the proposition of making the Hanscom park pond a public bathing place.

Rabbi Cohn replied to Mr. Cowell by saying the children are being overworked; that child labor is being exploited and supervised play is one of the needs of the hour. He said: "The child should play and must play and his play should be supervised. Frequently the child plays in the wrong place and in the wrong way."

Dr. Stimson explained that the chief object of this movement is to make the leisure time of the child fruitful and useful.

Member W. A. Foster of the school board vigorously supported the idea of the school officials co-operating in every way in this recreation board matter.

Dr. Harold Gifford spoke in behalf of the plan that the school board should be represented on the recreation board.

Teachers Reinstated.

The board adopted unanimously a report of a special committee, which recommended that Catherine White, Blanche Coffman and Mrs. Alta Hotchkiss be reinstated to the status they held previous to their removal on account of the Rummel matter. An excerpt of the report reads: "Assuming that an error was committed in demoting these three teachers, fairness would seem to require that they should be placed in positions similar in grade and equal in salary to those which they occupied last year."

These teachers will be allowed salaries from the first of the present school year. They were formally removed August 14 upon directions of a committee of the old school board. The committee reporting yesterday evening found that the old committee committed such an unusual act that the public was led to believe that an injustice had been done and the committee expressed itself as of the same opinion.

Miss Stegner Claims Salary.

The board received an affidavit from Louise Stegner, who was involved in the
