PIERRE, S. D., Feb. 17 .- (Special Telegram.)-The senate committee killed Senator Berndt's bill that none of the state efficers or employes save the governor should be allowed to advise the legislature.

That the every day merchant may handle Paris green, formaldehyde and such poisons without any harm to the public is the opinion of the senate by passing the bill by Amsden, allowing that privilege in the small towns where no druggist is located.

That the Springfield Normal is to be given two more years of life in which to justify its right of existence was made certain this afternoon when the bill to abolish that institution failed by two to secure the required constitutional ma-

Foreign Influences Again Controlling Factors on the Exchange. PRESSURE ON LEADING SHARES

NEW YORK STOCK MARKET

NEW YORK, Feb. 18.—Foreign influ-ences were again the controlling factors of today's dull and sagging stock market. Developments in connection with Ger-many's maritime war policy were awaited

many a maritime war policy were awalled with the keenest interest and were an-ticipated in further selling of high grade securities for European account. After the close of the market it became known that the British treasury had is-sued a notice prohibiting British share-holders from participating in the New York Central 500,000,000 6 per cent de-bentues issue and would not nerroit deal.

sued a notice prohibiting British share-holders from participating in the New York Central 500,000,00 6 per cent de-benture issue and would not permit deal-ings in these bonds on the London Stock exchange. Although this action was in line with the recent declaration of the chancellor of the exchequer, it gave rise to much speculation and conjecture. Bankers pointed out, however, that this prohibition would not hold if British in-vestors saw fit to forward their partici-pation direct to this country. Leading shares were under pressure most of the session, but declines in that group were merely nominal. Movements in certain specialties, particularly Mex-ican petroleum, excited adverse comment, but were otherwise without affect. The petroleum shares contributed largely to the professional operations of the morm-ing session, their erratic course suggest-ing hurried liquidation and tukewarm sup-port. Texas company, another oil secu-ity, also displayed marked weakness. In-consplicuous stocks, like Colorado Fiel, Cuban Sugar, American Writing Faper preferred and American Locomotive pre-ferred lost from 2 to 4 points, Locomotive failing to its new minimum of 8! the crop year. It was when the selling was bordering on a semi-panic that export purchasing of wheat was started in defiance of Ger-many's blockade. Guotations now mounted rapidly. England was said to be in the lead in the buying, with France, Italy. Greece and Holland pressing close behind. As the end of the session ap-preached, estimates were current that 200,000 bushels had been disubsed of to Europe, the bisgest total for one day this season. In this connection bull leaders were declaring that actual farm stocks were much less than had been assumed at Washington, and that 1,000,000 a day rate of exports would surely mean famine. Corn, like wheat, had an early break and later a strong rally. Reasons in re-pard to both cereals were much allike Sales of cash corn here during the day aggregated 1,550,000 bushels, mostly to exporters. Oats swayed with wheat and corn. It was said 2,000 bushels of oats were taken for Europe at the sea-board. Weakness in the hog market prevented EARLY.
