Further Progress Noted in Direction of Increased Trade.

NEW YORK, Feb. 19 .- Duns Weekly Review tomorrow will say:

Review tomorrow will say: Some further progress is noted in the direction of increased trade, although conditions are very irregular and do not apply with equal accuracy to all sec-tions and all branches of business. The west, owing to the great demand by prices for wheat is more prosperous than other parts of the country. Conditions in the south have been improved by the larger exports of cotton. "Mile the business situation is still con-trolled by conservatism prompted by un-precedent world conditions it is ateadily maining in strength and activity, and the rate of progress, while it seems slow when measured by months. Failures in the United States for tho corresponding week last year. In Canada, Lines numbered 66 against 69 hast year. The cost has compared with Sis the corresponding to the week (five days) amounted to \$2534,669,418, a decrease of 14 per cent as compared with the same week last year.
