GARAGE NOT ON STATE LAND

Discovery Made at Lincoln that Mansion Not So Large as Thought.

DEAF SCHOOL FIGHT IS UP

(From 'a Staff Correspondent.) LINCOLN, March 3 .- (Special.)-It has been discovered that the automobile garage in the rear of the governor's mansion is not located on ground belonging to the state and Chairman Fuller of the house committee on state institutions asked the house to authorize the purchase of the ground or some other suitable for

the location, to which the house agreed. Chairman Fuller also announced that his committee had visited the penitentiary and insane asylum in Lincoln and found them running properly, but recommended that a new building be erected at the latter institution for the dope patients.

Instruction or Denf. The house got into a discussion this afternoon on H. R. 631 when Clayburn, Hunter and Hoffmeister filed a majority report from the committee on education asking that the report of the majority for indefinite postponement of the bill

be not concurred in. The bill deals with methods of instruction for the deaf at the state instiat Omaha. The minority committee wanted to amend the bill, but acting Chairman Elmelund of the majority wanted the whole thing killed.

Measure Postponed. Mr. Richmond fought hard to save the bill. He said he had visited the school in company with Senator Quinby and from what he saw and learned there he had prepared and introduced the bill which allowed different methods of instruction to be used at the institution. instead of the lip method alone. He asserted that Representative Dafoe, a most or compromising opponent of any change in the law had two children attending a deaf school in Massachusetts. A lengthy petition from parents was presented by Mr. Richmond asking for a choice of methods.

Hunter spoke in favor of the bill as did others, while Stebbens, Trumble and others spoke against it. On a roll call the bill was indefinitely postponed by a vote of 76 to 17.
