Wheat Prices Unchanged, with Uncertain Market in Both Cash and Futures.

CORN BULLS ARE MORE ACTIVE

OMAHA, March 4, 1915.

An acute condition has been reached in the cash wheat situation, as the demand exceeds the offerings. May wheat is congested. Comparatively little new business is coming into the market, and the interests which usually have large stocks at this season are practically cleaned out. There is some hedging on the part of millers who have not herectofore sold against their cash wheat holdings. Some of it is in May, but July is regarded as safer than May, because of the scarcity of cash wheat. OMAHA, March 4, 1916. cash wheat.

of cash wheat.

Evidence is rapidly accumulating that the United States will go into the new wheat crop with practically empty bins. One of the best informed experiers called attention to the fact that the highest estimate on reserves for export and carry over for the next four months is only 100,000,000 bushels, of which about 25,000,-000 bushels are already sold for shipment. Without selling any more wheat this would leave only 65,000,000 bushels to carry over June 30, against 76,000,000 bushels last year.

last year.

Corn bulls predict light receipts and say that the bulk of the marketable stocks are now in the show windows. They expect supplies will decrease steadby from now on. Continued heavy exbort huying of oats has created a friendly

Prices on Board of Trade.

CHICAGO, March 4.—Sensational reports that millions of dollars in orders for war materials from the United States had been cancelled in the last twenty-four hours, nearly knocked the bottom today out of the wheat market hers. After a fall of 7%c a bushel, prices closed wild at 4% 4% 4%c, under last night. Corn suffered a net decline of 1½gl%c to 1%c, and onto of 1%c. Provisions made a ragged finish, ranging from 10c off to a raise of 5c. Stampede selling so urgent that prices snapped ic to 2c between trades hardly a moment apart took place in the wheat pit as soon as even a hint was caught of the possibility of an early peace. No details referring to peace were given except that the orders supposed to have been nullified were largely for ammunition. It was not until wholesale unloading had been done by holders of wheat that denials which seemed to possess authority could be obtained. The ensuing swift rally at the end of the session was in line with counter statements that there had been no diminutive recently in the volume of orders for war material, nor had there been any concellation.

Before the wheat market had gone to 632,404 530,742 101,963 506,106 486,341 18,865 ellation. Before the wheat market had gone to

Before the wheat market had gone to pieces on the conclusion jumped at that the supposed cancelling of orders for war material might mean some important move to end hostilities, the course of trading was nervous and irregular, but within ordinary limits.

The break later was in the face of one of the best demands for cash wheat in some time and of assertions by the president of one of the largest grain companies here that all the wheat available at present would be freely taken by foreigners if the market were to advance as much as 20 cents a bushel.

Corn suffered in sympathy with the break in wheat. The buil side was also handicapped by large stocks and the slowness of shipping call. Oafs displayed independent spirit, but finally tumbled like other cereals. The heaviest trading was after prices began to fall in carnest.

Support by packers helped to give com-

Support by packers helped to give com-parative stability to provisions. Weak-ness first in the hog market and next in grain were, however, decided sources of disturbance. Futures were quoted as follows:

HOGS—At the time of closing yesterday's report there were still in the neighborhood of forty or fifty loads still in first hands which packers were trying to buy around \$5.57\cdot 6.40. In the end most of these sold at \$5.40, although some ten loads were held over for today's market. As these last hogs, which sold slightly lower than the earlier ones, were not weighed until late it was impossible to get them in the representative sales column, and for that reason the market as shown there looked slightly better than it should have done.

Only a moderate Thursday run showed up this morning, and even with the few held over from Wednesday there was only a fair supply on hand. A heavy snowstorm which started yesterday afternoos and was still in full swing this morning was probably responsible for the decrease in receipts. Trade opened out dull. Early packer bids were barely steady with yesterday's average or about the same as yesterday average.

intil later, when prices reached a shade higher level. By this time seilers had about given up hopes of getting a 5c advance, and after buyers started offering prices that were about Fige better than yesterday's average it was not long until the big end of the offerings started to move scaleward. Trade nover became acted, with Prices of Securi-

ery active.
The general market is just a shade igher than Wednesday's average. Bulk f the supply moved at \$5.405696.45, with sprinkling at \$5.40 and a few huge sold s bigh as \$5.475. Tops reached \$5.50.

Representative sales: SHEEP—The lower trend to lamb values on Wednesday's market brought in a moderate supply this morning, as only some 4.700 head were reported in, a against 12.402 head a week ago and 11.000 head on the corresponding day a year ago. On account of the snow storm a great many of the offerings were wet, putting them in poor condition for ready

patting them in poor consistion to ready sale.

As usual, when the receipts are wet, the market was a drag most of the foremoon, consequently little of consequence took place until near the noon hour. What few sales were made during the early hours included a load of Mexican lambs, that sold on shupping account at \$3.50, and a car of fed western ewes that were good enough to bring \$7.50, the highest since April, 1910. The general market was steady to easier on lambs and strong on aged sheep. The clearance was late.

Liberal receipts, accompanied by an advance of 400,00c all along the line on both sheep and lambs since the close of last week has been the distinguishing feature of the week's trade. The light runs at Chicago have been a ballish facture, as well as the satisfactory condition of the eastern dressed mutton trade and the consequent strong shipping demand. Feeder lambs selling to shear and for a short feed have also been in good demand and commanded prices a shade higher than last week. The week's receipts to date totalled \$5,20 head, as compared with 40,384 head last week and \$0,-612 head a year ago.

Ballou was found unconscious in the street in front of the building where Mrs. Angle lived in Stamford, and he died later in a hospital.

Harry H. Jones, until recently considered one of the wealthlest men in Phoenix, Ariz., fired a builet into his brain and died shortly afterward. Financial troubles following a fire that destroyed valuable property holdings are believed to have prompted him to take his life. Jones was well known in New York and Chicago. Chicago,

Representatives of railroads, manufacturers, shippers, forwarding agents, steamship companies and various city chambers of commerce met in the New York customs house to discuss changes in rates, and regulations covering the receipt and delivery of freight in New York harbor which the carriers proposed to put in effect January 1 last. The changes were postponed by the Interstate Commerce commission until May 1, pending hearings and investigations. Appearances were filed by some thirty interested carriers and manufacturers.

Small Amount of Business Transties Irregular.

WHEAT OPTIONS FALL AGAIN

NEW YORK, March i.—Peace rumors, more gold imports and adjournment of congress were among the incidents of the day in Wall street while the market for securities pursued an irregular course on a small amount of business. Wheat options fell again as a result of the first named rumors, which lacked confirmation in high banking quarters. Some of the gold now in transit to these shores is from Japan: Canada, however, contributed a small amount.

Stocks rose and tell, leading issues moving within narrow limits, according to the

Stocks rose and rell, leading issues moving within narrow limits, according to the whims or caprices of the protessional element, outside interest being negligible. There were wider movements in some specialties, notably the automobile shares, the continued activity in this group being ascribed to trade improvement. Much of the early advantage was effaced in the later trading, at which time the short interest renewed its recent operations on a moderate scale. Net changes on most of the stocks were fractional. Passing of the common dividend on American Sizel. the stocks were tractional. Passing of the common dividend on American Steal Foundries occasioned little surprise, in view of the known condition of the com-pany's business. Practicany all the markets for fereign

exchange were higher, London, especially, showing greater firmness both for capics and drafts. On the advance some offerings of bills appeared, causing slight declines from highest quotations. Time money worked to lower levels, loans for four and five months being made at 5 per cent. The quoted rate was a fraction per cent. The quoted rate was a fraction per cent. The Great Northern, Atlantic Coast and Rock Island systems made indifferent returns for January, all showing net losses of varying degree, while the St. Leuis & San Francisco road reported a het increase of \$281,000 on a substantial saving crease of \$291,000 on a substantial saving in operating costs.

The German war notes were publicly favored at Chicago and other western points, according to advices received here. Local bankers, so far as is known, are not participating in the offering.

The feature of the Bank of England's weekly statement was another heavy loss of gold, the contraction amounting almost to \$20,000,000, with a large decrease in its liability reserves.

London Stock Market
LONDON, March 4.—The stock market
was quiet, with a good business in investments securities. Several American
gold bonds were included in the markings. American securities opened steady,
in sympathy with New York. There were
more dealings than recently and the
market closed steady, a fraction below
the best.
