#### GRAIN AND PRODUCE MARKET

With Exporters Searching for Grain Price of Wheat Make Five-Cent Advance-

#### ARE PAYING FANCY PREMIUMS

OMAHA, March 6, 1915, Exporters of wheat are searching the country for that grain and are willing to pay tamey premums. New sales at the seaboard were reported at 1,20,000 ousnels to exporters, and this wheat will be els to exporters, and this wheat will be chilpped out as soon as boats are available. The buying was led by Mediterranean countries and less was heard of the probaciaty of the big surpus now held in Russia coming out in the near future. The clearances of breadstufis from North America since July 1 nave totaled 280,000,00 bushels, which compares with clearances of 130,800,00 bushels for the corresponding period a vear sec. the corresponding period a year ago. Clearances from both coasts this week were 8,438,000 bushels, as compared with 5,577,000 bushels for the same week a year

The receipts at this market continued light and this is probably caused by bad roads, the farmers being unable to haul their grain to the country elevators, Omana Spot Market—Wheat was 4550 higher; corn, 11450le higher; oats, 1260le

higher.
Clearances: Wheat and flour equal to \$18,000 bushels, corn, \$4,000 bushels, and oats, 344,000 bushels.
Liverpool closed with corn 45d lower.
Primary wheat receipts were 455,000 bu. and shipments of 499,000 bu., against receipts of 500,000 bu. and shipments of \$25,000 bu. bu. last year.

213,000 bu. last year.

Primary corn receipts were 562,000 bu. and shipments of 613,000 bu., against receipts of 1.144,000 bu. and shipments of 625,000 bu. last year.

Primary oats receipts were 687,000 bu. and shipments of 1.174,000 bu. against receipts were series. 

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, March 6.-Unabated foreign buying tended today to dispel drand of a flood of Russian wheat through the Bosphorus, and helped bring about a strong market here. Prices closed stendy at 21/2031/20 net advance. Other gains at 24,034 to net advance. Other gains were: Corn, 3c to 365; costs, 3c to 365; costs, 3c to 366; and provisions, 105723c to 3c. Export business in wheat today, which was said to aggregate at least 1,000,000 bushels, was shared in not only by seaboard cities, but also Chicago, St. Louis, Kansas City, Duluth and Winnipeg. In addition to spot cash purchasing, the July delivery as well as the May option was liberally taken on foreign account.

was liberally taken on foreign account.
Confidence among wheat buyers began
with announcement that quotations at
Liverpool were firm and was notably Liverpool were firm and was notably increased by private advices here from Petrograd saving it was untrue that great shipments would be made from Russia as soon as the Dardanelles were open. Unfavorable weather in Argentina and the Punjaub assisted in preventing any lasting interruption of the day's advance. Scantiness of receipts had a strengthening effect on corn. So, too, did the wheat bulge. Nevertheless there was enough bearish sentiment in the pit to enlarge offerings whenever the ascent appeared about to become of a radical sort. Cash houses bought oats throughenlarge offerings whenever the ascent appeared about to become of a radical sort. Cash houses bought oats throughout the session. It was said that even without any fresh call, they would be kept busy for some time filling present contracts to ship to the seaboard. Higher prices for hogs and grain made provisions climb. The bulk of the buy-ing came from shorts. Futures were quoted as follows:

Coffee Market.

NEW YORK, March 6.—COFFEE—The market for coffee futures opened steady at a decline of 1 point to an advance of 2 points on the continued steadiness of 3 points on the continued steadiness of 5 points from thouses with European connections. Prices prices are seed off under resulting and some renewed liquidation of the near months, however, with the close of 5 points frade was very draggy all through, and lightly prices are seed off under resulting and some renewed liquidation of the near months, however, with the close of 5 points of the figure state of the supply in the figure state of the supply in the figure state of

Supplies cars, or 1,600 head, bringing the week's total up to 80,897 head. This is more than 28,000 short of last week, but is 9,000 larger than a year ago. Receipts for the year to date are over 87,800 larger than during the corresponding period of last year.

SHEEP-No fresh receipts were on deck this morning. Up until the middle of the week the receipts have been liberal, but in spite of that, sharp advances were made on both sheep and lambs. The helpful features of the trade have been the light runs at Chicago and other eastern Metal Market.

New York, March 6.—METAL8—Copper, steady; electrolytic, \$14.75@14.87%; casting, \$14.55@14.83%; tron, unchanged.

ST. LOUIS, March 6.—METAL8—Lead, stron, at \$3.55. Spelter, strong, at \$10.005 to the eastern dressed mutton trade, which has given added strength to the local to the eastern dressed mutton trade, which has given added strength to the local to the eastern dressed mutton trade, which has given added strength to the local to the eastern dressed mutton trade, which were the high days of the strength to the local to the eastern dressed mutton trade, which were the high cast of the same and the shipping demand. On Wednesday and Thursday, which were the high days of the week, Mexican lambs sold to ship east at \$9.55, the record price for the season as well as the record since April, 1910. There has not been the discrimination against week and, as a matter of fact, the bulk of the allient and handyweight order, just the kind that are preferred by the packer buyers. At the close of lant week. The announcement says that Pegoud "on several occasions pursued enemy aeropanes and on February 3 attacked at a great height and caused the fall of a German machine. Soon afterwards he attacked two other air craft, causing the first to fall and the second to land."

Pegoud first came into fame in 1912 as the originator of the feat of flying upside down in an aeropiane while making experiments for obtaining safety. He was the first aviator to loop the loop.

DECLARES GERMANY HAS

week. The market on that kind is higher than 'ast week.

STORM RESTRICTS DEALING Last Day for Filing Causes Arrives and Attorneys and Litigants Are Busy with Their Suits-

SUITS FOR THE MARCH TERM

Today will be the last for filing causes

turned in nineteen petitions. None of the suits were of much public interest. The city was made co-defendant in three suit filed by M. J. Vorhees in trails ballor used. onnection with the acquisition of the ight-of-way for the portion of North 300 feet, ranging in width from twenty condemnatibn was first brought up Vorices asked \$5,500 for the ground desired, condemnation by which he deeded to the ity the strip referred to. Some misunderstanding at the time led Vorhees to believe that part of the agreement obligated the city to give to him all of the land formerly used for street purposes since the changing of the location of the street, placing it on the west side. tends the full length of the Vorhees property. It will naturally become valuable as residence property.

Some Notices Served.

Several notices have been served on the council by Vorhees to vacate this property, but as there was no record of any agreement such as Vorhees alleges, Panama registered as acting quotations cent on the week.
Number of sales and leading quotations on stocks today were:

Sales High Lew Close.

Alaska Gold 700 20 124 224

Amalgamated Copper .... 4 100 25 164 64 64 64 60 and the special committee of the council denied any knowledge of an offer to give him more than the \$1,000, no attention was paid to it. At the last meeting of the council the telephone company and the Postal Telegraph company, whose lines occupy their old position on the street, informed the council that they had been notified by Vorhees to remove their poles and vacate the street. Representatives of the companies asked to have a resolution adopted confirming their right elect the new officers of the club, into use the street, but this was pointed out to be unnecessary for the reason that new executive committee. This will be the city had not relinquished its title a departure from the practice previously to the vacated portion of the street. The suits filed yesterday included one against met immediately after the result of the the city asking judgment for \$2,500 as the balance of the price for the strip taken and elected the new officers. It often in the Vorhees property.

Another suit is an application for an injunction restraining the telephone and sequently had no vote in selecting the telograph companies and the city from officers. All will be present at the meetfurther use of the vacated portion. The ing called next week for that purpose. third suit is against the telephone company and asks judgment for \$370 for lental for the use of the property since Dog Gives Alarm pany and asks judgment for \$370 for it has been vacated for street purposes.

Only One Divorce Suit.

In all the suits filed yesterday, there was only one application for divorce. Alta H. Neville asks absolute divorce from her husband, Atwood P. Neville, on the grounds of cruelty and habitual use of intoxicants. They were married at Gravity, Ia., November 2, 1892, and she aleges that she was compelled to leave him the latter part of 1912. Woodward and George S. Wright.

The new board of directors will hold

The new board of directors will hold a meeting next Friday evening and will cluding president and secretary, and the followed. Heretofore the new board has count of the ballots had been announced happened that a dozen or more of the new directors were absent and con-

# Of Fire in Store

The grocery store located at 381 Harrison street, and owned by Ed Wood, was completely destroyed by fire yesterday forenoon. The loss on the building and the contents has not been fully determined, and will not be ascertained until insurance adjusters complete their work. forms part of a residence occupied by two daughters, aged 16 and 6 years, and Wood. The origin of the fire was attributed to an overheated stove in the store.

Wood had left the store alone about \$ o'clock in the morning and had gone into absent some time, and finally had his attention attracted by the furious barking of a buildog he had left to guard the rtore. He did not respond immediately, but did so when the cries of the dog innue A and Twenty-third street, on Au- dicated pain and terror. He opened the door to find the building filed with flame

Neighbors who had been attracted by the fire that had broken through the roof had turned in an alarm. When the firemen had plowed through the deep snow and reached the place the building was almost ready to fall. The fire was confined to the portion used for a grocery store, and but little damage was inflicted upon the connected section. Insurance to the amount of \$1,000 covered the loss on fully meet the loss austained.

### Grading Machine is Used on Snow Drifts

Yesterday morning huge ridges of snow that had been thrown from sidewalks and swept from street car tracks extended the full length of the business streets. The snow embankments blocked both sides of the streets, leaving only the space occupied by the car tracks as the possible highway for traffic. To haul away the snow would have cost thousands of dollars and taken many days. The street commissioner and his men hitched six horses on one of the city's road grading machines and leveled the banks, leaving the snow of uniform depth, permitting vehicles to drive over it and quickly compress it into a reasonably firm roadway, The grader crew did as much work during the day as could have been accomplished by several hundred men using shovels in the same length of time. After the business streets had been smoothed down, the grader crew continued operations on residence thoroughfares, and many miles of streets were made passable.

This morning, men with plows will cut furrows through the snov along the street curbing, opening the gutters and permitting the escape of the water. This will prevent flooded streets and hasten the melting of the snow. The cost of the work will be small and add nothing to the regular expense of the department, us only the regular street cleaning force in being used.
