THERE IS A REASON.

BÖIL, WATER AND CLIMATE.

Patterson colony in Stanishaus county, California, has three things to perfection, and they mean everything when it comes to raising English walnuts. Deep, rich soil and abundant water to produce the three and no frosts to mp the tender buds. English walnut trees bear in six years and while they are growing you raise 8 to 10 tons of alfalfa per acre between the trees.

No. 95 is a beautiful 15-acre tract two miles from town on Los Palmas Avenue, which is lined with sucallyptus trees and date palm trees. The truct is all in cultivation and there is nothing finer in the valley. Owner lives in Omaha, and will consider exchange for good property here.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 12.—Urgent European demand for both the cash delivery and the May option kept the wheat market today to a higher level than was reached yesterday, mainly as a result of the government report showing a decided falling off in the supply held by interior mills and country elevators. Prices at the close were strong 11/62%c above last night. Corn scored a net gain of %6%c to 1%c, oats of %6%c to 1%61%c, and provisions a shade to 5c.

Much of the buying of wheat appeared to be based on current estimates that, according to the government figures. any further exports from the United States could be spared only by reducing the

cording to the government figures, any further exports from the United States could be spared only by reducing the average carry-over at the end of the crop year or by cutting down domestic use. A great deal of attention was also given to reckonings that the danger line would be touched by exports at the rate of more than 2,000,000 bushels a week from now until July I.

Export sales of wheat for spot cash amounted in Chicago alone today to 60,000 bushels and there were said to have been 1,000,000 bushels disposed of to Transaliantic buyers at the seaboard, with other foreign business elsewhere, notably at Duluth. Cash wheat premiums were the tallest of the year. None of the setbacks in price today for futures were of a grave or lasting sort.

Corn was helped upward by the lightness of rural offerings to arrive. On the other hand, improved demand southwest was offset to some extent by the slackness of shipping call from the east. Oats were strengthened in consequence of reports that the Argentine surplus would be far less than had been supposed. As in the case of wheat, Europeans bought the May option as well as the cash delivery.

Higher prices for hogs and grain gave

livery.
Higher prices for hogs and grain gave a lift to provisions. On the bulge, though packers sold, especially July ribs.

regulations of those states has evidently turned some shipping orders to this point.

Cows and heifers were very slow, requirements of buyers apparently being limited and prices were weak to a little lower than yesterday.

There were no changes in stockers and feeders of any consequence.

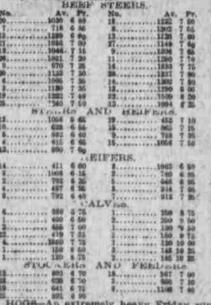

It would be sell for shippers to understand that the federal quarantine regulations are being strictly enforced, which means that cattle for interstate shipment must be billed as stockers or feeders and loaded in cleaned and disinfected cars or they cannot be shipped out into the country again for feeding purposes. Cattle shipped in cars that nave not been cleaned and disinfected can be seld only for immediate slaughter and will be yarded in a quarantine division.

HOGS—An extremely heavy Friday run showed up this morning about 27 cars, or 16.00 head being received. Supplies for the five days total 63.815 head, a gain over last week of nearly 16.000 head, and almost 20.000 larger than a year ago. Advices from other points were encouraging, and in spite of the fact that receipts were so large, the market opened out a big 56910c higher than yesterday's average. One buyer heid out, bidding prices that were only a little better than steady and this made trade pretty dead for a while, but he finally raised his hand and in the end the bulk of the offerings sold on the basis named, that is a big 56910c above Thursday's general market.

Toward the close, when all buyers but

a ready outlet this merning to the packer buyers on a basis strong to a dime hisher. Chicago reported a run of 5,600 head, with trade slow and a weak tendency to prices. The bulk of the lambs today moved at 50.6030.75, with five cars of Mexicans making a top of 39.85. The general quality was better than in some time, with light and handyweights predominating, there being few heavy lambs on sale. Buyers discriminated little, if any, against the heavyweights, and the clearance was fearly.

BRADSTREET'S TRADE REVIEW Feeling of Disappointment is Vis ble in Money Markets.
NEW YORK, March 12.—Bradstreet's

NEW YORK, March 12.—Bradstreet's tomorow will say:

Poor reads, unsettled weather, or small lot buying in larger lines are probably responsible for the feeling of disappointment visible in many markets. These features contrast with increased operations in heavy manufacturing, diminished dileness, activity in ship building, a slight improvement in retail trade at some few centers, some expansion in mail order busines, excellent winter wheat crop conditions, heavy investment demand for busines, excellent winter wheat crop conditions, heavy investment demand for busines, excellent winter wheat crop conditions, heavy investment in collections. The tendency to buy often and in small lots indicates conservatism. There are some evidences of betterment in demand for lumber: textile mills are taking raw ootton more freely; slik factories in some centers are working full time; ammunition concerns are runhed; at the leading center automobile manufacturers are doing better than was expected. On the other hand cost mining is retarded; short time in anthracite regions is the rule and building is improved.

FOREIGN EXCHANGE VARIABLE

NEW YORK, March 12.—The market for securities displayed less resistance to selling pressure today, some of the speculative favorites declining over a point on moderate offerings. Heaviness was most pronounced in the afternoon, the motor shares yielding practically all the ground gained during the morning season. Obvious manipulation in this class of stocks has provoked considerable criticism recently, although it is recognized that the motor industry has profited to an unwonted degree by reason of the war.

General unsettlement uncovered in the tinal dealings when it became known

General unsettlement uncovered in the final dealings when it became known that the directors of the Southern railway had declined to pass the dividend on the preferred stock, which broke five points to 45, two points above its minimum. At the same time announcement was made of the suspension of the dividend on Stock Sheffield Iron preferred. That company recontly issued its annual report showing a very large implanment of earnings.

In point of fact, today's market was left largely to its own devices, actual leadership still being lacking. The short interest has made several efforts to capitalize new developments in Europa and Mexico, and the constructive faction has held aloof, pending a more favorable turn in the general situation.

Foreign exchange was again variable, the features being Italian lines, which were about twenty-five points under rates quoted a week ago. The break in lines was assumed to represent semething more important than mere buying of supplies, rumor persisting in the belief that a large loan to Italian interests is impending.

Bank clearings confirm recent advices

large loan to Italian interests is impending.

Bank clearings confirm recent advices of a hait in trade at leading centers, the decrease in New York being almost 20 per cent compared with the previous week. Local banks appear to have gained some cash on the weeky movement. Time many was freely quoted at recent low rates and commercial paper was on a parity with long-tife maturities.

Total sales of stocks amounted to 231,500 shares.

Investment bonds were irregular with more steadiness in some of the cheaper issues. Total sales par value were \$1,905,000.

Only Overwhelming Numbers Can Crush Teutons' Says Briton

LONDON, March 12.—The efficial mili-tary observer at the British headquarters in the field says in a report given out statements that the German ranks in the west have been depleted generally and

to a marked extent. "The plain truth is that although the enemy's effectiveness in the west is much reduced and ours increased, he still is holding an enormous extent of front, as well as carrying out operations on a huge scale in the cast," the report says. 'No signs of weakening are yet visible in the morale of the German troops as a whole. There is as yet no reason why an intensely brave, determined and well-organised army like that of the Germans

should feet discouraged. "It is impossible to say that either the German people or the army have yet definitely lost confidence in their ulti-mate success. This confidence will be only overthrown and the morale of the troops will be shaken by the consciousess of crushing defeat in the field; but this end can only be attained by everincreasing pressure of vast numbers of men and guns throughout the coming

months. "The kaiser can choose at will a Rustan, Belgian or French town wherein to make a triumphant appearance in the presence of his troops. They are fighting in the enemy's country, ruined and de-

Wilson is in Charge Of Negotiations Now

WASHINGTON, March 12.-Announcement was made at the White House to-day because of the pressing character of tions President Wilson will see no callers other than government officers for the next three weeks. The president wants to take personal charge of the negotiations over neutral shipping and with the

Mexican factions. The sinking of the Prye on the ground that its wheat was destined for a hostile port was understood to be considered as having an important bearing on the sub-
