

### HEAD OF LARGEST RAILROAD HERE

Sir Thomas Shaughnessy, President of Canadian Pacific, Impressed by Omaha.

#### MAKES TRIP OVER THE CITY

"If we were in my office in Montreal I would discuss this question, but over here in the states, it would be in very bad taste for me to talk upon this subject," said Sir Thomas G. Shaughnessy, president of the Canadian Pacific Railroad company, in answer to the question, "What, in your judgment, will be the outcome of the war in Europe?"

Sir Thomas, accompanied by Lady Shaughnessy and their daughter, are en route to the Pacific coast, where they will visit the expositions and return by the northern route. Their private car arrived in Omaha over the Milwaukee from Chicago. Here they were met by President Mohler of the Union Pacific and Mrs. Mohler and taken on an automobile ride through the western part of the city, out to Florence and back over the "Prettiest Mile."

Later in the day Sir Thomas and his family left for the west, going out on a special train and accompanied as far as Grand Island by President and Mrs. Mohler and Superintendent Jeffers. Out of Omaha the party occupied Sir Thomas' private car, "Killarney."

#### Omaha Beautiful City.

After his automobile trip about the city Sir Thomas said: "I have never been in Omaha before. I have often heard of the city and have been anxious to see it, but in the past my trips to the west have taken me over other routes."

"Omaha is a beautiful city, substantial and well built, and with the splendid country that I understand it ought to become the metropolis of Canada are not just what we would like to have them."

The war has interfered with trade, and consequently railroad business has suffered. However, we are looking for an improvement. The outlook is excellent for a large small grain acreage and prospects are that prices to the farmers will continue to remain high for some time."

Sir Thomas was formerly a railroad man in the United States. In 1888 he was with the Milwaukee road as storekeeper at Milwaukee. From there he was called to the Canadian Pacific as assistant general manager, and subsequently was promoted a number of times, becoming president of the system and chairman of the board a number of years ago. At this time he exercises executive jurisdiction over the greatest number of miles of railroad of any man in the world. Since 1904 he and President Mohler have been intimate friends, as have the members of their respective families.

### Little Tot is to Be Witness Against Her Father, Murder Case

Enil Musik, 412 1/2 North Twenty-ninth street, South Omaha, was placed on trial before District Judge English on a charge of murdering his wife, Mrs. Anna Musik, by cutting her throat on March 6. He is charged with first degree murder.

Temporary insanity, caused by melancholia and drunkenness, will be the defense, according to Attorney Joe Biedner and Walt W. Hoye, representing Musik.

A 5-year-old daughter of the dead woman and the defendant, who has been taken from Musik's custody by the juvenile court and placed in another home, will testify against her father, according to County Attorney Magney. Her name has been endorsed on the information.

The county attorney expects to introduce evidence to the effect that Musik was supported by his wife and that a quarrel over this condition led to her alleged murder. Musik, it is alleged, cut his wife's throat with a knife.

### Big Timepiece is to Be Subjugated

The tower clock in the postoffice building has long been waging an unequal fight with the winds in its effort to keep observers posted regarding the right time. It is a well known fact that "the wind bloweth whither it listeth." It is equally well known that "time and tide wait for no man."

But here is a case where the wind, blowing whither it lists, interferes with time which waits for no man.

At least, so Cadet Taylor, custodian of the building, asserts. He finds excuse for the clock. He admits it is somewhat erratic. He admits that sometimes it waits five minutes or so and sometimes it runs ahead of the correct time by an equal space. This, he says, is due to the wind blowing upon the big hands of the clock.

He has just awarded to T. L. Combe & Co. a contract to fix the clock and make it a more exact registrar of the flight of the well known and precious golden hours. For the sum of \$27.50 lawfully money the clock makers will make the timepiece less easily led astray by the winds.

### AD CLUB NOMINATIONS TO BE ANNOUNCED TODAY

Nominations for directors and officers of the Ad club are to be announced at the busy meeting today at the Commercial club rooms. The nominations are being made by mail and are coming in every mail today.

### AD CLUB NOMINATIONS TO BE ANNOUNCED TODAY

### Smith and Ure Feel Deeply the Defeat of Term Extension

County Treasurer Ure and District Clerk Robert Smith have returned from Lincoln, where for several weeks they lobbied valiantly for a bill extending their terms, only to see the measure die in the closing days. As Mr. Ure and Mr. Smith said: "The bill only incidentally extended our terms two years."

"There was an unfortunate disposition in the legislature to take a humorous view of the measure," Mr. Ure indicated yesterday. He advanced four reasons why the bill should have passed; that it was in the direction of the short ballot, tended to eliminate politics from the administration of offices, would give time to officers to form definite policies and would have assisted in doing away with the expense to the taxpayers of frequent elections."

Mr. Ure and Mr. Smith were cruelly charged on the floor of the legislature, as were other unselfish patriots, with spending time for which they are paid by the public in advancing their own term-extension desires. This charge, they insist, was entirely ungrounded since the benefit the public would have derived from the bill would have far overshadowed the advantage to them individually.

### Boys and Girls to Be Taught How to Raise Own Garden

Boys and girls of the Omaha schools will soon be earning their spending money by raising table vegetables and selling them at market prices to their parents and neighbors for home consumption.

They will also be taught how to properly can all surplus vegetables for winter use. They will also write a story on how they made and used their garden crop, and will keep books to show the cost, receipts and profits of their agricultural and business venture.

L. T. Skinner, government gardening expert, has arrived to start the organization work of the gardening clubs, which will be conducted by the city schools under supervision of the extension service of the University of Nebraska, co-operating with the United States Department of Agriculture. He spent the morning at Park and Windsor schools with Secretary R. S. Flower of the Young Men's Christian association, telling the boys and girls of the gardening club plan.

### Entire Board is Against Dances by the H. S. Students

"You may say that every member of the Board of Education is against the proposition of allowing the pupils of Central High school to hold their proposed dance at the Pontenelle on April 22, under the name of the high school," declared President Ernst of the school board today.

The president of the board wanted it understood that Rev. D. E. Jenkins of the board is not alone in this matter, but that the whole board is lined up against the proposed ball and cabaret.

The disclosure of the situation by The Bee has caused considerable talk in school board and high school circles.

"I have nothing to say on the subject at this time, but may have a statement later," was the expression of Superintendent Graf.

Further conferences between the superintendent, principal of the high school and committees of the pupils is said to be contemplated.

The stand of the school board members is that their rule shall stand inviolate, that these functions shall not be given in the name of the high school.

### IOWA MAN DIES HERE WHILE VISITING HIS DAUGHTER

Thomas J. Blackburn, 74, of Hamburg, Ia., visiting his daughter, Mrs. Harry Lehman, 234 Camden avenue, died Sunday night from enlargement of the heart. He retired Sunday evening and was discovered dead Monday morning at the time he was expected to arise. Mr. Blackburn has been ill all winter with enlargement of the heart.

### MAY HAVE PLANS FOR NEW WORKHOUSE HERE SOON

County commissioners are favorably disposed toward the law which authorizes a \$100,000 bond issue for construction of a workhouse for Omaha. Definite plans for carrying out the project may be announced soon, according to Commissioner John C. Lynch, who for several years has advocated a workhouse.

### CHILD SUFFERED WITH SKIN TROUBLE

On Head for Two Years, Itching and Burning, Kept From School at Times, Scratched and Irritated. Used Cuticura, Entirely Well.

1016 McKee St., Fort Wayne, Ind.—"My child, six years of age, suffered for about two years with an itching and burning on her head right behind the ear. It was just very small when first noticed and kept spreading until it got way up above her ear. I had to keep her from school as times it got so sore. It caused her pain for it itched and burned so badly that she scratched and irritated it all the time. It spread and spread until it was a good bit bigger than a silver dollar. It made her ear stick to her head and I could not pull it away without her crying.

"I got a sample of Cuticura Soap and Ointment, washed the sore place with the soap and applied the Ointment and I began to see the relief it gave her. So I bought a cake of Cuticura Soap and a box of Ointment and she is entirely well." (Signed) Mrs. May Testinger, June 2, 1914.

Sample Each Free by Mail With 25-c. Skin Book on request. Address post-card "Cuticura, Dept. 7, Boston." Sold throughout the world.

# Let Your Next Purchase be Omaha-Made Goods

Why? Because you can buy goods of better quality at as low or lower prices than those manufactured elsewhere.

Many people are prejudiced in favor of certain goods because they have used them for a long time and are not familiar with other kinds. Most people dislike to break a habit, no matter how bad or unprofitable it may be.

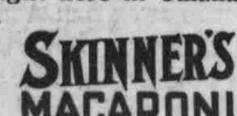

The habit of buying Omaha-made goods will be profitable to you in two ways: First, because you will get more for your money, and second because the money you spend will stay right here in Omaha. Anything that increases Omaha's prosperity, helps you. Think it over.

**Omaha Has the Largest Macaroni Factory in America**

Macaroni tastes good because it is good. It is simple and inexpensive to prepare and is a delicious meal.

The high quality and food value of macaroni have been endorsed by Dr. Harvey Wiley.

Macaroni is inexpensive, nutritious and is made right here in Omaha by Omaha workmen.

SKINNER'S MACARONI

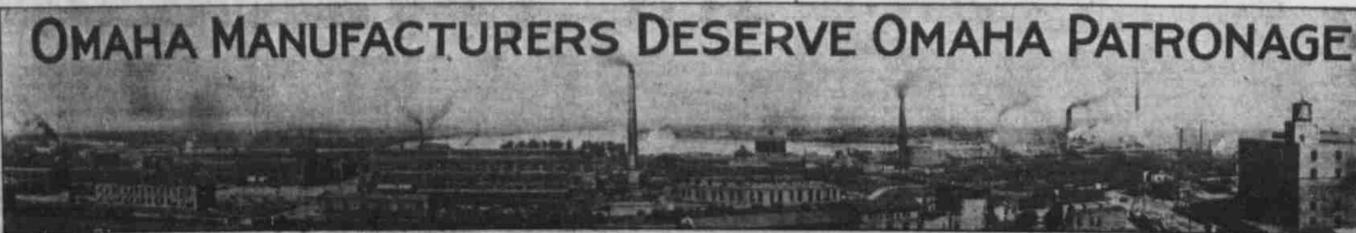

"Don't Eat Meat That's Tough and Bony. Just Try Skinner's Macaroni"

The average man or woman seeks to get the most out of each hard-earned dollar. Economy and service is striven for in practically every business or household, and that is what you get when you patronize home industry.

Give Omaha-Made goods a chance to make good in quality and price. If they don't, then don't continue to use them. That's our platform.
