

### Acid in Stomach Sours the Food

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

### About Hair Soaps

Men and women who select with discriminating taste their tooth soap, shaving soap or toilet soap, allow their barber or hair dresser to put upon their heads any old soap that will make a lather. I know one Hotel Barber Shop that uses melted up scrap soap from the guest rooms. Others use laundry soap or cheap toilet soap. Many of the manufactured soap shampoos contain poisonous wood alcohol or denatured alcohol.

Now, it's pretty well known that when Lee puts out anything, it's right. My Shampoo is right. I have studied soaps for several years, and especially hair soaps and their effect on the hair and scalp. I am no mere imitator. I have made and tested over five hundred kinds and I know.

Soaps cause more hair and scalp troubles than any other thing, and it's all because of the soapy nature of most lather or suds. Ordinary soap is one-half lye. If it soaks into the scalp pores and hair fibre it leaves much half dried soap there after the water dries out. This soap in contact with animal matter, gradually breaks down, releasing the lye, and in a week or a month there is brittle, breaky or falling hair, dandruff, itching head sores and other scalp troubles. The hair is always more or less stiff or sticky.

Lee's Shampoo is a neutral vegetable oil, alcohol, glycerine soap; emerald green, beautifully transparent and pleasantly perfumed. It is a five minute cleaner and a ten minute dryer for man—a little longer for women. It is pure and antiseptic, non-soaky, cleans every foreign thing from the hair and leaves no soap in the hair, which dries soft and silky. We guarantee complete satisfaction.

Bottle of 10 Shampoos 25 cts. At your druggist's or postpaid. Sample Shampoo for 4 cts., covering postage.
