SUFFRAGE WOMEN IN MOCK SESSION

Takeoff on Members of the House of Representatives Held in Hall Just Vacated by Men.

HUMOROUS FEATURES OF DAY

(From a Staff Correspondent.) LINCOLN, April 15.—(Special.)—Women of Lancaster county interested in the cause of woman suffrage held a mock session of the legislature in the house chamber today.

Mrs. Belle Gerhart-Morrison of University Place filled the position held by Speaker George Jackson during the regular session and did it excellently, so much so that the speaker himself, who stood leaning over the lobby all a part of the time, was perfectly satisfied with his successor. The place held by Chief Clerk George Potts was filled by Mrs. I. B. Schreckengast of University Place, while Mrs. Alabaster of the same town acted the part of First Assistant Davis.

Lobby Harassment. There was no sergeant-at-arms, or if there was, she had little to do, for the gate was wide open and the lobbyists were very harmless.

The chaplain, however, was in attendance and prayed that the women would pass some laws which would be of benefit to the state. The chairs of Fries, Meredith, Rogan, Langman, Retzner, Rudeall, Greenwalt, Jerry Howard, Taylor and others were filled by women who tried to do as well as the original occupants had done during the winter, while Mrs. Hostettler endeavored to make a better showing than she appeared to think her husband had done and occupied the same chair.

Representation to Women. A Douglas county member opposed a bill giving the men the right to vote because she thought if they did vote they would vote too often. A bill to give to women one member on the State Board of Control was ably advocated by a member who said the state institution were largely filled with women and for that reason they were entitled to representation on the board which purchased the supplies for the institutions. Mrs. Bunting was against the bill because the women wouldn't know what to buy or how much to pay for it.

"The women are not used to purchasing anything involving large sums of money," she said. "Why should we want to buy soap?" The bill was, however, passed.

A bill regulating the hours of women brought out quite a discussion and a roll call was had. When it appeared that the motion to postpone indefinitely had been lost, several changed their votes. One member said that she wanted to be on the winning side and would change from yes to no. Another wanted to change her vote and appealed to a neighbor to inquire which way she had voted. One who had changed from yes to no asked leave to change back again.

Playgrounds Foolish. The big discussion of the morning was over H. R. 77, a bill known as the child's welfare bill. Mrs. Bunting again opposed the bill, because it was foolish to spend \$10,000 to fix up playgrounds when they were not needed. She opposed summer schools and all the new-fangled ideas of the present and compared them to the times when she was a girl. Her speeches were humorous and entertaining. Some of the members sat through the session with their hats on and some were crocheting. There was a good at-

"STAR—A Good Thing To Pass Along"

Men Who Chew Are Men Who DO AMERICANS are large users of explosives, but instead of employing them to destroy, we use them to improve. The men engaged in the manufacture of explosives are clear-minded and steel-nerved. Of course, they can't smoke—but they want the solace of tobacco while at work. Most of them chew STAR. They chew STAR all day long and find the last chew as good as the first. You'll find that the thick STAR plug allows you more of the mellow, long-lasting chewing leaf; that STAR can't dry out like a thin plug and that every STAR plug weighs a full 16 ounce pound. The demand is so great that STAR never stays long on the dealers' shelves.

LEADING BRAND OF THE WORLD

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Crusen, of Bushnell, Ill.

BUSHNELL, ILL.—"I think all the trouble I have had since my marriage was caused by exposure when a young girl. My work has been housework of all kinds, and I have done milking in the cold and snow when I was too young to realize that it would hurt me. I have suffered very much with bearing down pains in my back and such miserable pains across me, and was very nervous and generally run down in health, but since I have taken Lydia E. Pinkham's Vegetable Compound my back never hurts me, my nerves are stronger, and I am gaining in health every day. I thank you for the great help I have received from your medicine, and if my letter will benefit suffering women I will be glad for you to print it."—MRS. JAMES CRUSEN, Bushnell, Illinois.

A Grateful Atlantic Coast Woman.

HOPKINSON, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarce-y straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—MRS. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

June 10th, 1840: FURS—The St. Louis Bulletin of the 5th says: Two Mackinaw boats arrived here yesterday from Iowa, loaded with buffalo robes.

1840—1915 Seventy five years ago when buffalo abounded as far east as the Mississippi, the brewery of Lemp was founded—the oldest in America with a National patronage. It is not surprising that three generations of brewing effort should be rewarded with the supreme brew—

Lemp's 75 years' brewing experience is proved by the perfect flavor of this incomparable beer. Beer is a food. Bread and beer are made of the same materials: cereals, yeast and water. Bread is solid, beer is liquid—both are equally nourishing. Physicians prescribe beer to produce energy, build tissue and strengthen nerves. Good beer is the elixir of life.
