

SIX CANDIDATES HAVE A PLATFORM

Zimman, Hackett, Jardine, Lamoreaux, Drexel, Metcalfe in Anti-Administration Campaign.

WILL MEET MONDAY NIGHT

As the outcome of a succession of conferences, Harry B. Zimman, Harry J. Hackett, W. S. Jardine, A. A. Lamoreaux, John C. Drexel and J. W. Metcalfe, six nominees for the city election, have agreed upon a platform on which they will make a joint anti-administration campaign.

The platform is as follows: 1. We will go into office free men, and so long as we continue in office we shall remain free. No corporation, individual or interest will have any special claim or secret lien upon us. We will, in the discharge of official duties, recognize no obligation except the people of Omaha—the whole people. We promise no sweeping or radical reforms, but do promise a firm and efficient enforcement of law and a progressively, temperate and clean administration. Omaha is a great city, fast growing, and the policy of those who administer its affairs should be a broad policy—a policy that will, with the least taxation, give the greatest impetus to development along legitimate lines.

2. We will reorganize the various city departments to the end that the service may be obtained at least cost, and will see that the tax payers' money is expended with the same regard for economy and results that would be exercised in our own private business.

3. We favor the strict enforcement of the Nuisance Law, not only because the lawless traffic of liquor should be suppressed, but also because the licensed dealer should not be put in competition with the unlicensed dealer. Live receipts should not be permitted to engage in the saloon business. Details of every kind and description should be suppressed without delay.

4. The police department should be entirely free from outside influences, and its aim and policy should be to enforce the laws reasonably, humanely, fearlessly and impartially.

5. The practice and procedure in the police court should be governed by the same principles as those that guide and govern the higher courts in the administration of justice.

6. Street merchants, fakirs and itinerant peddlers should not be tolerated. They have no business and only interfere with legitimate business.

7. There should be a physical valuation of the property of all franchised corporations to the end that the city may regulate and control the service and put a just limitation on their rates. Electric light rates should be substantially reduced by ordinance immediately.

8. We favor municipal ownership of all public utilities and believe that steps should be taken immediately for the acquisition of the gas plant rather than to wait for the expiration of the existing franchise.

9. We favor the idea of the city taking steps to acquire the electric light plant and to operate this monopoly for the benefit of the city, and we will exert our best efforts to induce the city to approve bond issues for the gas and electric light plants.

10. It is also our belief that in the event the city cannot satisfactorily agree with the Electric Light company on the terms of purchase, the city should have the alternative to compete by municipal operation.

We believe municipally-owned plants should be managed and in control of men having technical knowledge and of the highest business qualifications.

11. The Omaha garbage system should be modernized. The city should have complete control of the collection and disposition of garbage instead of letting long time contracts to private parties. A reduction plant should be established, thus affording the city a means of reducing the expense of the garbage system.

12. The street lighting system of our city should be improved so that our city may stand in the front ranks of well lighted municipalities.

13. A charter convention should be called as soon as possible so that Omaha may work under a charter of its own making and not be obliged to go to the capital every time we want an addition or amendment.

14. The improvement of the boulevard and park system would be a splendid way to advertise Omaha. Other cities have spent millions to Omaha's thousands in boulevard improvements. Omaha has a fine boulevard system laid out, and it is time for public spirited officials to work toward the completion and the beautification of this magnificent system of pleasure thoroughfares.

15. Recreation spots, play grounds and municipal bath houses deserve our careful attention.

Money for Advertising: It is expected that out of a number of men invited, fifteen will be selected next Monday evening to conduct the campaign. An office will be opened on the eleventh floor of the City National Bank building, and it is stated that a schedule of meetings will be arranged.

A campaign fund will be secured for picture cards of these six candidates and for other advertising.

Strong Winds Cause Neutralism: Don't suffer, get a 2c bottle of Sloan's Liniment, it penetrates to the painful parts at once. Kills the pain. All druggists. Advertisement.

NEW MANAGER GENT'S FURNISHINGS AT HAYDEN BROS.

C. H. Pulver

C. H. Pulver, who has for the last five years been in charge of the trunks, grips and hat departments at Hayden Bros., has been appointed manager and buyer of the men's furnishing department. He is very well known in Omaha, as he has been connected with the various furnishing goods stores here for the last fifteen years.

Comes to Omaha to Investigate Cause of Death of Son

G. W. Merrow, Hartford, Conn., has arrived in the city and has commenced an investigation to ascertain the cause of the death of his son, George W. Merrow, Jr., which occurred near Elkhorn last Tuesday night. In a dying condition, young Merrow was found by William Grocock, a farmer living near by. The young man was alive, but died before medical aid could arrive. When found a pistol lay by his side and another near the heart. In his neck and another near the heart. The body was brought to Omaha and an inquest held, the verdict of the coroner's jury being suicide. The father of the young man is not satisfied with the suicide theory, and with Coroner Crosby he has gone to Elkhorn to continue his investigation.

CREDITORS ASK THAT FIRM BE DECLARED BANKRUPT

A petition has been filed in federal court to have the A. G. Jaeger company, 209 South Fourteenth street, adjudged bankrupt. The petition was filed by Louis Wolf & Co., Boston, Mass., the United States Stamping company, Moundville, W. Va., and the Omaha Crocker company, with claims respectively of \$200, \$775 and \$120. The petitioners claim that the defendant while insolvent committed an act of bankruptcy in permitting the Kitchen Brothers' Hotel company to obtain a preferred claim of \$300 through legal procedure. The former place of business of the defendant has been closed for several weeks and on the door is a notice of sheriff's sale to be held April 29 to satisfy the claim mentioned.

LARGE ORDER PLACED FOR WAYNE STORAGE TANKS

The "safety first" movement has an active supporter in the person of J. R. Bureleigh, president of the Basket Stores company. Believing that volatiles should not be kept above ground Mr. Bureleigh has placed an order for the complete equipping of all basket stores in Omaha with Wayne underground storage tanks and self-measuring pumps. The order consisted of thirteen systems and is the largest ever placed in this part of the country for the purpose. "We find," said Mr. Bureleigh, "there is still a large quantity of kerosene used despite the fact that the greater part of the homes have gas or electricity, and it is no unusual sight to see lamps burning in many parts of the city."

Unusual Attractions at Burgess-Nash Monday

It Took Uncle Sam and His American Engineers to Build the PANAMA Canal

and you will feel a new pride in our country's achievement as you hear the story graphically told at any of the interesting lectures during the day in connection with the

EXHIBITION OF THE Panama Canal Model NOW ON OUR FOURTH FLOOR

Every phase of the canal zone is shown in miniature—the hills and valleys, lakes and rivers, dams and locks, topographically correct. Be sure and see this eighth wonder of the world—it's free. Organize your Panama parties now—though you may never see the Canal, here's the opportunity to study the world's greatest engineering feat.
