NEW YORK STOCK MARKET Semblance of Steadiness is Seen, but the Undertone is Most

Irregular.

TRADING IS ON REDUCED SCALE

NEW YORK, April 23.-Higher prices

Pursuant to its recent custom, the list descended to lowest prices in the first hour, some of the standard investment issues yielding a point or more.

International shares were made lower in London, and later as on for that conter, as well as par, were made in this market. Holland, which holds large amounts of American railroad securities of the minor class, was said to have liquidated some of these issues, in turn buying coppers. Large copper producers again advanced the price of their commodity 184 cents. 55 being quoted for preaspective heavy consignments to England. There are runers of contracts for structural steal and from

ments to England. There are runners of contracts for atructural steel and for for shipment to foreign points, but these lacked confirmation.

Signs of continued improvement in transportation conditions were seen in the earnings of Southern Pacific and Baltimore & Chia for March. The former made a net gain of \$241,000 and the latter \$277.000.

Total sales of stock amounted to 636,000 shares.
Fonds were irregular, minor railways issues failing in sympathy with the movement in shares. Total sales, par value, were \$1,760,000.
United States bonds were unchanged on call.
Number of sales and leading questions on stocks were as follows:

PUBLIC.

I have been laying off for nearly the whole winter, for the reason that we have had snow on the ground here almost continually since last December. I have an excellent country here that I am not ashamed of and a country that I want you to see when it is not covered with snow. We have excellent soil, and you can't give a thorough investigation when there is from six to twelve inches of snow on the ground. Now, however, the last of the winter is gone and I am back in the harness. Please don't go searching elsewhere and pass up my section when I positively promise you the biggest bargains and best soil to be found anywhere in the west. We have a prosperous and coming country that I know will meet with your approval. Search these columns regularly for the next few days, under the head of "Nebrasks Lands," and you will see each day the offerings I am making. We are still seeding here and will be seeding until the lith or 20th of May. (Our soil and climate matures a crop quicker than yours does, therefore we do not have to get our crop in so early in the spring.) Please take my advice and come and see me and let me show you my offerings. I do not believe that any man ever had a complaint coming with his treatment at my office, whether he bought iand or whether he did not. However, most of my visitors buy. Read these columns for the next few days; study my offerings and then come, and come prepared to close on whatever place suits you. If you buy a place any time before May 10th I will seed all the cultivated land to wheat for you, and then you can get here in time in the fall for harvest, or I will have it harvested for you. Wheat is going to be king this fall. Please take my advice and act promptly. Today is the day of opportunity in this section.
