You Need a "Real" Corset

By a "real" corset we mean a corset that actually supports the figure but does not bind.

During the past few seasons, styles have permitted more or less freedom in the wear of the corset. The new Bon Ton models express the most advanced ideas in correct styles—the higher bust, slightly curved waist and the attractive flat back effect.

Bon Ton Corsets are made for all types of figures in a variety of materials to suit every purse. We make no charge for fitting. Our corsetiers understand corset fitting thoroughly and know which model is exactly what each type of figure needs. When you come to our corset department you get the benefit of this careful study—you also get the very best corset values that can be had.

Whether your selection is lace front or lace back style, we have models to fit you.
