GRAIN AND PRODUCE MARKET

Active Demand for Wheat Causes Prices to Make a Slight Advance.

LOOK FOR GOOD RUN OF CORN

OMAHA, April 24, 1915. OMAHA, April 24, 1915.

There was an active demand for wheat today and as a result of this and also because of the higher cables the market advanced from Melike.

The receipts of corn were good and the demand fair. Corn was unchanged to he higher.

Oats were fairly active and were unchanged to he higher.

Some of the largest corn handlers here predict increased receipts for the next ten days, as they have been buying more to arrive. ten days, as they have been buying more to arrive.

Those who are bullish on wheat say immediate conditions are of greater importance than future possibilities. They believe that too much attention is being given to the crop outlook and the price for new crop futures than to actual conditions. ittions.
Clearances were: Wheat and flour equal to \$17,000 hu.; corn. 297,000 bu., and oats, \$65,000 hu.

CHICAGO GRAIN AND PROVISIONS Prices of Trading and Closing Prices on the Board of Trade.

CHICAGO, April 24.—Builish cables and European buying of both old and new crop delivery forced the wheat market today steadily upgrade. There was a strong close at 1%c to 2%c above last night. Corn gained %c to %c net and oats %c to 1%c. In provisions the outcome was unchanged to 5c down.

May wheat today sold at the highest figures since February, largely as a result of a heavy decrease expected in the United States visible supply total on Monday. Traders apparently could not get away from the European influence regardless of domestic weather and crop conditions that were almost ideal for the bear side. Virtually no attention was given to reports showing possibilities of wheat production for 1915 n the United States and Canada to be greatly in excess of snything ever before indicated.

Efforts to bring about a Saturday reaction in the wheat market proved a complete failure. In the last hour expe-Peatures of Trading and Closing

cess of snything ever before indicated.

Efforts to bring about a Saturday reaction in the wheat market proved a
complete failure. In the last hour especially buying of options was on a liberal
scale and included all the active months.

Corn mounted with wheat and owing
to reports of additional crop damage in
Argentina, shorts covered freely. Commission house calls for September was
a feature of the oats trade. Other deliveries dragged,
Business in the provisions pit consisted
of week-end evening up. Change in
prices had little if any significance.

Quotations ranged as follows:

NOBODY LOVES OUR FAT MEN

United States Naval Surgeon Accuses Them of "a Disturbance of the Orientation."

Now that a surgeon of the United is. States navy has turned his powerful #2 brain upon the American fat man in an is. official report, we have an interesting 67.

brain upon the American fat man in an official report, we have an interesting subject for discussion. He finds that as we present ourselves for enlistment in the sea forces we are all right as to the legs, but above the waistline we are muscularly weak, usually fat and excessively heavy. Even were than that, we have the disturbance of orientation.

Roughly speaking, we should say that an American citizen whose orientation was disturbed had lost his bearings and did not know whether he was afoot or on horseback. Probably no argument is mecessary to prove that such a man, no matter how efficient he might be in other lines, would not be very valuable as a naval recruit, but if his lower extremities were sound he might at least develop a pair of sea-legs which nobody on ship board need despise. The men who come to the recruiting office with an excess of fat above the waist are typical of prosperous America. They have had three meals a day, with a luncheon or two on the side and any with a luncheon or two one to see the wooled almbs ordering with the wooled almbs ordering with the wooled ambs ordering with which to test out the fact that prices are so much higher is an apair of sea-legs which nobody on ship board need despise. The men who come to the recruiting office with an excess of fat above the waist are typical of prosperous and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any with a luncheon or two on the side and any wi

All that they need is a little training. and if a navy cannot give them that, of what use is it?

If the medical officers of our military service had to deal with a hungry populace, flat-chested by reason of privation rather than carelessness, and with legs that weakened on the slightest provocation, they would have real troubles.-New York World.

(Correspondence of the Associated Press.) shortage in the supply of cradics in England and prices have more than double seds of caler from which English cradies are woven are in Selgium, in German hands, and there have been no importss tions since the war began.

advantage is rapidly drawing to a close and owners naturally are anxious to unload before buyers begin discriminating against stock carrying a ficece. Hence it would be nothing surprising should receipts prove to be rather liberal on some days during the next week or two. Receipts this week foot up 35.125 head, which is smaller than last week by nearly 8,000 head, but still slightly larger than the corresponding week last year. To make another comparison, receipts this week, with the single exception of two weeks ago, are the smallest of any recent week.

EAST PRUSSIAN VILLAGES-AIDED BY GERMAN CITIES

(Correspondence of the Arsociated Press.) BERLIN, April 19.-A new scheme is announced for the rebuilding of devastated districts of East Prussia. Each of the larger municipalities in the interior of Germany will become "god-father" to one of the towns or villages which have suffered from invasion.

Thus Charlottenburg has undertaken to raise the necessary assistance for Sol-dau, Magdeburg and Johannisburg, and so on. The parent towns are not expected to deal with the general or temporary relief of distress, but rather with rebuilding and town-planning.

**BLOODY TOWER OF LONDON** NOW OPEN TO THE PUBLIC

(Correspondence of Associated Press.) LONDON, April 2.-The bloody tower of the Tower of London, where the two 'princess of the tower" were imprisoned, "princess of the tower" were imprisoned, has been opened to the public, after being used for some years as residential quarters for the warders.

Many victims of royal caprice have been immured in this particular building and the wails are still covered with Tenessee Railway.

ing and the wails are still covered with their writings, the sole occupation of their long hours of confinement.

cheers for Marian and told her she was a plucky girl. It was the happiest mo-ment of her life, despite her pain and condition. Marian was then dressed in a plaster

around the automobile. They gave three

cast, which enveloped her from head to arms, and in this she was destined to remain all summer. She smiled through it all, and assured her parents repeatedly that she didn't mind. Several days ago, the cast was re-

moved and Marian found difficulty in moving her neck. By gradual use of it, however, she succeeded in turning it and now she controls it freely. She returned to school Thursday. Dr. Runcie is diffident in speaking of the case, giving credit to Marian, her grit and the cowboys and Indians, but her recovery is said to be remarkable.-Brooklyn Eagle.

CHICAGO LIVE STOCK MARKET Develops Unlooked for Strength in Latter Half of Day's Short Session.

NEAR BUOYANCY AT CLOSE

NEW YORK, April 24.—The stock market developed unlooked for strength in the latter half of today's short session, closing with an almost bouyant tone under the lead of United States Steel. That stock became the dominant feature, gaining two points to the accompaniment of rumors that the case of the government against the company would soon be decided on reasonable terms.

rumors that the case of the government against the company would soon be decided on reasonable terms.

In the early part of the session, leading shares were more or less neglected, interest again shifting to "war" issues, the metal shares and Mexican petroleum. Coppers held their prominence throughout, a few of the low priced issues making new price records. Mexican petroleum also broke all records, making a net gain of the points on confirmation of the report that the company had entered into a very advantageous selling agreement with leading British interests.

Reading, Union Pacific, St. Paul and other stocks in the investment class shared in the later movement. Stocks of the roads coming within the category of reorganized properties were under pressure, as also were some of the isolated initial advances. News of the day, including irregularity in the London market, made no impression upon the local situation.

The bank statement showed an unexpectedly large cash gain, which was reflected in a reserve increase of \$13,000,000, Loans expanded by a little over \$19,000,000, an inconsiderable amount, considering the heavy stock trading of the week.

Sales of stocks today amounted to 45,000 shares.

Bonds were mainly irregular, total sales,

shares.

Bonds were mainly irregular, total sales, par value, aggregating \$3,550,000.
United States Bonds were unchanged on call during the week.

daughter of Mr. and Mrs. Archer B. Wallace of Church street, Freeport, L. I. Street, ago, and about 6,000 larger than a year ago, and beginning the property of the property o

interested her, so that she agreed to remain quiet and submitted happily to being strapped to a board while Dr. Claghorn took the X-ray.

While father, mother and grandfather, George Wallace, waited in suspense, Marian was the cheeriest little patient imaginable. But she held her head absolutely still and the physicians were able to determine just exactly what the injury was. The X-ray revealed that there were two distinct breaks of the vertrabrae of the neck. Scientifically, the fractures were in the lamina of the third and fifth vertebrae, and there was also an apparent forward dislocation of the backbone.

Marian was ordered placed in a plaster cast for two months and it was evident that her hopes for seeing the Wild West also were to be shattered. She was told the truth of her injuries, because to the recessory quiet. The truth did not trouble ber, "You must be strapped to the board."

You must be strapped to the board.
