Your Hair Dark

It's Grandmother's recipe to bring back color, thickness and luster— Everybody is using it again.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars

the face. When it fades, turns gray and

looks dry, wispy and soraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound." Thousands of folks recommend this ready-

to-use preparation, because it darkens

the hair beautifully and removes dan-

druff, stops scalp itching and falling

hair; besides, no one can possibly tell, as

it darkens so naturally and evenly. You

mulsten a sponge or soft brush with it,

drawing this through the hair, taking one small strand at a time. By morning

the gray hair disappears; after another

application or two, its natural color is

restored and it becomes thick, glossy and

lustrous, and you appear years younger.
