The president's friends understand he believes the commission should conduct the investigation into industrial conditions for which it was created by congress without getting into newspaper controversies. While he has not gone tnto the merits of the discussion between Mr. Walsh and Mr. Rockefeller, it was said today he thinks the object of the commission investigation is apt to be defeated if published attacks on witnesses

LOS ANGELES, Cal., May 5 .- Charles E. Sebastian, suspended chief of police, chosen by the people of the city to head the mayoralty ticket at the general election next month, apparently will be opposed for office by Fredrick Whiffen, president of the city council. Early returns today gave Whiffen a slight lead over Robert M. Allen for second place on the ticket.

Both Whiffen and Allen were beaten by a two to one vote. The fact that six candidates shared the mayoralty vote was assigned as the sole reason the police official had failed to poll a majority of the votes and thereby achieve election in the primary yesterday.

With the mayoralty results practically assured, attention turned today to the vote cast for the many aspirants for other city offices.

Frederick C. Wheeler, socialist member of the city council, appeared, on incomplete returns to have received the largest vote cast for council nominations. Among other who seemed to have qualified were Mrs. Estelle Lawson Lindsey and Mrs. Clara Foltz, who was the first woman admitted to the bar in California.

GRAIN CASE ON IN COURT

ing to Recover from Chicago House.

SECURED

A jury was selected yesterday in Judge Estelle's court to try the suit in which the Saunders-Westrand Grain company of Omaha is seeking to recover \$43,589,73 from Lamson Bros. & Co., of Chicago, alleged to have been appropriated by the late Sherman Saunders and William C Sunderland and transferred to the defendants. The following jurors will hear

A. E. Carter, Benson; Alfred E. Cass, Raiph W. Craddock, Omaha; Emil Holub, Felix Lenegh, South Omaha: Daniel Lanihan, C. G. Lund, A. B. Myers, Charles Oakley, Omaha; George H. Remer, South Omaha; Stephen Sedlacek, Omaha, and Charles C. Straube, South Omaha

Trial of a lawsuit in which the Saunders-Westrand Grain company of Omaha is seeking to recover \$43,580.73 from Lamson Bros. & Co. of Chicago, alleged to have been appropriated by the late Sherman Saunders and William C. Sunderland and transferred to the defendants, has begun in Judge Estelle's district court.

The case, which invoives alleged illegality of grain trading transactions carried on by Sunderlan' and Saunders, a former Omaha firm, promises to develop a complete expose of methods of the Chicago Board of Trade and allied branches all over the country.

Much Legal Talent. A brilliant array of legal talent is en-gaged in the trial. The plaintiffs are represented by J. J. Sullivan, J. W. Woodrough and F. A. Brogan, and the defense by W. D. McHugh and Smyth, Smith & Schall. Attention of men engaged in the grain business all over the United States is said to be turned at present to the Omaha court where the case is on trial. The plaintiff company alleges that Sunderland and Saunders dealt through Lamson Bros. & Co. "by pretended orders from pretended customers." but that in reality they merely laid wagers on future prices of grain markets. On June 1, 1912, and on July 10, 1913, the

petition charges, Sherman Saunders withdrew \$43,588.73 of money belonging to the Saunders-Westrand company and transferred it to the defendant company. Suit is brought for recovery of this amount.

Great Britain is **Building Wireless** Station in Jamaica

NEW YORK. May 5 .- To supply a need felt by the British navy a powerful wireless station is being built on the highlands of the Island of Jamaica, 3,000 feet above the level of the sea, according to Rev. George B. Stallworthy, a Unitarian clergyman, who arrived here today aboard the steamer Juan, after a five months' visit to the island.

Rev. Mr. Stallworthy said 300 men had been working on the plant for two months. No details as to its equipment or range had been permitted to become public, except that it would be very powerful, with a long radius of effectiveness The general opinion prevails in naval circles in the West Indies, Mr. Stallworthy asserted, that Rear Admiral Sir Christopher Cradock and his British fleet would not have been lost in the engagement with the German fleet off Coronel, Chile, November 1, last, had there been then in the West Indies such wireless plant as Great Britain is now building. It was said a plant would have averted defeat by warning the British admiral of the strength of the Germans or by sending other warships to aid him.

Turkish Aeroplanes Brought Down by Fire of Allies' Ships

PARIS, May 5.-Two Turkish aero planes have been brought down by shells from allied warhips, according to a dispatch from Saloniki. Setting out from Seddul Bahr, the aeroplanes flew over the fleet, dropping several bombs, all of which, however, fell harmlessly in the water. They had put out to sea to recon notter Lemos and Tenedos, when they were brought down. The German aviators were rescued and made prisoners.

A Havas dispatch from Athens filed yesterday states that the inhabitants of Gallipoli and other parts of the peninsula are crossing in large numbers to the Asiatic side.
