**AUTO TRIES TO BREAK INTO BANK**—Machine driven by M. O. Headley jumps over curb and into Seventeenth street basement entrance of the Peters Trust company in Omaha National bank building.

## PORK TAKES WELCOME DROP

That is, to the consumers—Chickens and Hens Are Still High in Omaha.

## VEGETABLES GROW CHEAPER

Pork took a drop, welcome enough to the consumers, if not to the producers. In general all lines of pork except, of course, the smoked products, took a drop of 10 to 20 per cent on the wholesale market. This was reflected in the retail market so that chops that cost 18 1/2 cents last week came at 16 1/2 now, and pork steak that cost 14 cents last week comes at 12 1/2 cents now. Little change has appeared in spareribs and neck bones, as these usually sell at a very low figure anyway. Practically no change appears in the beef market. Heavy beef, that is, cornfed beef, is plentiful now, as it is coming in nicely. At the same time its abundance makes it sell about 2 per cent cheaper than the lighter beef. Light beef in this sense means heavier weighing 500 or 550 pounds.

There is no change in the price of lamb and they are still high. In the line of smoked meats, hams are about 30 cents a hundred off, but this has hardly had time to reflect itself in the retail market. Bacon is about steady. Chickens still high.

Chickens are still high. Hens are at a premium this time of the year. This is the time they should either be setting or mothering their chicks, and the chicken breeder who has wintered his hens on 70-cent corn does not care to dispose of them now when they could be of some use to him. Dressed hens are bringing 17 1/2 cents and dressed roosters 16 1/2 cents. Spring chickens are scarce, and are selling at 45 cents.

New potatoes are bending for the first time since they appeared on the market some months ago. They may be had at a nickel a pound now, while for some time before this they have maintained a haughty attitude at 7 1/2 cents. New peas are still very scarce and high, so that the devotee of June peas and new potatoes as a Sunday dinner is not rolling in contentment as yet.

Old potatoes are 70 cents a bushel.

## Rhubarb Cheaper

Four bunches of fine rhubarb can be had for a nickel. Spinach is 15 cents a peck. Asparagus is three bunches for a dime. Ripe tomatoes are 1 1/2 cents a pound. Home-grown radishes are still a minus quantity and the unknown bug is still blamed for this. "Some gardeners are looking for the cold rain to put an end to these bugs," says Al King, manager of Hayden's grocery department, "but we cannot tell as yet how much effect it will have. The bug seems to have puzzled experts, and the gardeners and experts alike feel that the only hope is that a cold rainy spell may put an end to them."

## Onions Six for a Nickel

Radishes from the south are on the market, however, at three bunches for a dime. Onions are six bunches for a nickel. Strawberries are coming off their high horse and may now be had at a dime a pint box, with the possibility that they may come down to 70 cents within a few days.

Eggs are still 30 cents a dozen. Butter is 30 cents for the best creamery. Sugar and flour are steady at their high mark. All cheese is up a cent a pound. Cocoa is up a nickel a pound. This is attributed to the war, as a hundred other advantages that have occurred in the last half dozen months.

## Adolph Kraus Once More Is Elected B'Nai B'Rith Head

SAN FRANCISCO, May 7.—Adolph Kraus of Chicago was unanimously elected to succeed himself grand president of constitution of the grand lodge, Independent Order of B'Nai B'Rith, at the closing session of the convention here today. Lucius C. Solomon of San Francisco was elected grand first vice president. Other officers elected were: Archibald I. Marks of New Orleans, grand second vice president; Charles Hartman of New York, Jacob Furth of St. Louis, Mo., Jacob Singer of Philadelphia, Dr. E. L. Callach of Richmond, Va., and Philip Stein of Chicago, executive committee; Victor Abraham of Cincinnati, O., chief justice of the lodge's court of appeals; A. J. Beckenfrind of Chicago and Jacob Furth of St. Louis remain, respectively, grand secretary and grand treasurer. The grand lodge voted an annual ap-

## Lois Campbell Wins 8 Millions by Verdict

ST. LOUIS, May 7.—A unanimous verdict in favor of the defendants in the Campbell will case was returned by the jury here tonight. The verdict declares Lois Campbell, now Mrs. Elmer Burkham, to be the daughter of James Campbell and therefore entitled to half of his \$16,000,000 estate, willed her by Campbell. On application of attorneys for the defense Circuit Judge Kinsey immediately after the verdict was returned dismissed the entire case, thereby denying the contestants the right to trial on their allegations that Campbell was of unsound mind and that he was unduly influenced by members of the church to which his fortune eventually would go after the death of his wife and daughter.

## WINTER WHEAT AREA LARGE

Area Harvested This Year Will Exceed Last Year Over Four Million Acres.

## AVERAGE CONDITION IS 92.9

WASHINGTON, May 7.—Interest in the May grain report of the Department of Agriculture, issued today, centered in the winter wheat crop, which was planted last fall on the most extensive area ever seeded with that cereal, but which, owing to unfavorable conditions, showed on December 1 a condition below the ten-year average. The crop came through the winter fairly well, but the Heaman fly was reported in several sections, giving some apprehension. The winter wheat area sown was 41,523,000 acres, an increase of 4,135,000 acres over that harvested in 1914. Estimating on the April 1 condition, the crop reporting board last month calculated in its first report of production prospects that the crop would be 619,000,000 bushels, or fifteen bushels an acre. Details of the report, showing conditions as of May 1, follow: Winter Wheat—Area to be harvested, 40,160,000 acres, compared with 41,263,000 acres sown last fall and 36,093,000 acres harvested last year. Average condition, 92.2 per cent of a normal, compared with 88.8 on April 1, last; 95.9 on May 1, last year, and 87.4, the ten-year May 1 average. The condition is indicative of a yield per acre of approximately 12.3 bushels, assuming average variations to prevail to harvest time. On the estimated area to be harvested this would produce 633,000,000 bushels. The out-turn of the crop will probably be above or below the figures given, according as the change in conditions from May 1 to harvest is above or below the average change. Rye—Condition, 90.8 per cent of a normal, compared with 90.5 on April 1, last, 85.4 on May 1, last year and 93.6, the ten-year May 1 average. Meadow (Hay) Lands—Condition, 89.8 per cent of a normal, compared with 90.3 on May 1, last year and 88.4, the ten-year May 1 average. Hay—Stocks of hay on farms May 1 are estimated at 8,465,000 tons, or 12.1 per cent of last year's crop, against 7,822,000

tons, or 12.2 per cent on May 1 last year, and 7,960,000 tons, or 11.9 per cent, the five-year average on May 1. Pastures—Condition, 87.2 per cent of a normal, against 82.3 on May 1 last year and 84.4, the ten-year May 1 average. Spring plowing was 73.3 per cent completed up to May 1, compared with 70.9

on May 1 last year and 65, the ten-year May 1 average. Spring planting was 63.3 per cent completed up to May 1, compared with 64.4 on May 1 last year and 64.8, the nine-year May 1 average.

## Blood Risings Begin A Mere Speck

Stop Them From Growing Large and Dangerous.

Nearly everyone who uses S. S. S. for the blood recalls a friend who went through untold suffering as the result of a mere pimple or small blood rising. A host of people did not realize, until too late, what may result from a slight skin abrasion. But they recovered if they used S. S. S. and in almost every village and hamlet, every crossroad and away back off the road is someone who will tell you how S. S. S., the famous blood purifier, restored his health. It is a most interesting fact that this remarkable vegetable medicine overhauls the blood in a manner that excites curious minds. But it acts in accordance with accepted physiological laws and yet its effect is almost beyond comprehension to those who are wedded to such drugs as mercury, calomel, arsenic, iodide of potassium, copper and other harmful influences which all the world bears silent testimony to their destructive tendencies. S. S. S. is indeed a nature's tribute to what we need and it is worthy of note that in almost any drug store throughout the country you will find it regularly in stock. Get a bottle today. And if you believe yours is a peculiar case, write to the Medical Adviser of The Swift Specific Co., 105 Swift Bldg., Atlanta, Ga. Our word for it, he is one of Georgia's appreciated specialists in restorative active practice, but proud of his name and of his recognized ability.
