Weish, we reiterate, is done as a fighter. is has seen his best days in the ring, and the sole reason he has clung to his title so long-it is ten months since he relieved Ritchie of the diadem-is because of the no-decision contents prevailing in this country. True, decision bouts are permitted in several communities, but Weigh has engaged in only two of these affairs since becoming helr to the lightweight crown; and he was wary to shooze a "mark" each time.

Another thing which has bended to minish Weish's ring power is the fact that he must henceforth favor a fractured hand. Welsh was never known as a hard hitter, but now that his jab is robbed to see even mediocre lightweights wade in and barter punches with the champion. Welsh shattered his right hand on the very-crusted cupolo of "Red" Watson, a a coast lightweight, and Frederick is still out of commission. It will be two weeks mure before he will be seen in action.
If only White, Ritchie or Mandot could tense the champion into such a match as oned in the earlier paragraph! Each of these three has proven his worth in the ring, and all have earned the right to engage Weish in a battle with the title

Matty was batted from the box in his first time out, and was beaten badly in his second start by the Dodgers. That was the last strawto be beaten by the over-the-river rivals. The fact that Matty's arm has not been right so far and that he has pitched only under protest doesn't soften the criticism directed at him, and the cry is out; "Get some young blood!"

All Germs Ordered To Beat it!-Git!

Searching Influence of a Remedy That Works Wonders.

The introduction of S. S. S. is at once command to blood impurities to find

a command to blood impurities to find a way out.

And what are blood impurities? They may be the hypersecretions found in the mucous linings of the body; they may be acid accumulations known as rheumatism; they may be boils, pimples, ecsema, acne and stubborn, indolent sores. But examined closely, they are all germs that have gotten the upper hand and it requires the flushing influence of S. S. E. to drive them out. And out they go when S. S. S. begins to circulate in the blood. It only requires five minutes to begin this influence, for it is a fact that in this limited time S. S. S. may be traced in the urine, in the perspiration, in the effloresence from the lungs to show that it is at work. Germs, mind you, are of various kinds, but all are foreign to health and S. S. S. so respecter of destructive germs, it drives them all out, of whatsoever name they go by. Just get a bottle of S. S. S. of any druggist and soon you will observe a decided change. And if yours is a stubborn case, write to the Medical Adviser, care of The Swift Specific Co., 107 Swift Bldg., Atlanta, Ga.
