GRAIN AND PRODUCE MARKET

Cash Wheat Quoted Two to Three Cents Lower and Sellers Hold to Their Stocks.

CORN IS UP AND SELLS BRISKLY

OMAHA, May 14, 1915.

Cash wheat was quoted 2@3c lower. There were 36 cars reported in, but no cars were reported sold, the sellers holding out for higher prices as the damaged reports continue to come in.

The demand for corn was good, this cereal selling 1@½c higher.

Oats were quoted ½c lower.

Between the uncertainty over the political and crop situations the wheat trade is badly mixed. Damage reports from the southwest range from 5 to 50 per cent, a majority claiming 10 to 25 per cent.

A year ago claims were 10 per cent to total loss.

The price is unusually high and the trade is inclined to go slow in buying on crop news.

Clearances were: Wheat and flour equal to 236,00 bushels; corn, 214,000 bushels; oats, 663,000 bushels.

Liverpool close: Wheat, unchanged to ½d lower; corn, unchanged to ½d lower.

Primary wheat receipts were 607,000 bushels and shipments 368,000 bushels, against receipts of 372,000 bushels and shipments of 696,000 bushels last year.

Primary corn receipts were 324,000 bushels and shipments 472,000 bushels, against receipts of 240,000 bushels and shipments of 458,000 bushels last year.

Primary oats receipts were 336,000 bushels and shipments 988,600 bushels, against receipts of 434,000 bushels and shipments of 579,000 bushels last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, May 14.—Exports apparently at a standstill for the time being, on account of uncertainties growing out of the American note to Germany tended to bring about a sharp decline today in the price of wheat. The market closed unsettled at 1½c to 2½c under last night. Other leading staples, too, finished at a net loss. Corn, 4@4½c; oats, ¼c to 1¼@1½c, and provisions, 7½@10c to 20c.

It was not until the final hour of trading that the wheat market turned decisively down-grade. Wide differences of opinion as to crop damage had been largely instrumental up to that time in producing a series of irregular price changes that were hard to classify as altogether showing the advantage to either the bulls or the bears. Meanwhile, doubt as to what contingencies might arise in national relations had a noticeable effect toward restricting the volumes of pit transactions. Export support was not lacking, however, until the fact became evident that foreign demand had virtually come to a temporary halt. There were not advices of any fresh sales whatever to Europe.

Latest dispatches in regard to damage to the domestic wheat crop were in the nature of a verdict of not half proved. The Texas official report was said to be the most flattering ever issued as to conditions in that state. On the other hand an earlier private report from a leading authority said the chance of a bumper crop this year in Kansas was gone.

Although corn at first was inclined to hold steady, the market later gave way with wheat. News regarding the progress of planting counted somewhat against the bulls. Absence of important cash sales pulled down oats. Besides, field conditions were said to be excellent, and especially in the southwest.

Provisions suffered from unloading to eastern holders. Higher prices for hogs failed to have a lasting effect.

CATTLE—Receipts were moderate, as usual on a Friday, but the market as a whole was in very fair condition. Buyers were out in good season and pretty much everything changed hands at an early hour. Prices paid showed little or no change as compared with yesterday. While there was nothing choice here to make a high top, there were yearlings good enough to bring $8.40.

HOGS—Supplies were light, amounting to some eighty-six cars, or 5,900 head. The total for the week to date foots up 38,040 head, being 11,600 head smaller than last week, but over 2,000 larger than a year ago.

Advices from other points indicated sharply higher prices all along the line, and the local trade opened fully 5@10c up. Shipper droves were fully 5@10c up, and some sales looked a flat dime higher.

Packers' first purchases were no more than 5@10c higher, but in the end most of the sales were made at a dime advance, with closing prices nearly 10@15c better. The average market was about a dime higher, and movement was the liveliest for a long time, a clearance being made before 10 o'clock.

Bulk of all the sales was made at $7.40@7.45, and tops reached $7.50. Today's top equals anything paid so far this year, and the average is the highest of the year to date.

HOGS—Receipts, 13,000 head; market strong to 10@15c above yesterday's average; bulk of sales, $7.25@7.50; light, $7.35@7.50; mixed, $7.30@7.50; heavy, $7.30@7.50; rough, $7.20@7.40; pigs, $5.75@7.35.

SHEEP—Only four loads, two of them single decks of shorn lambs, showed up today, and the roof was taken off entirely. Sellers asked sharply higher prices, and after dickering nearly all forenoon, the two cars of wooled lambs here finally sold to eastern shippers at $11.50, just 30c above the price paid for the same stuff yesterday. This is the highest figure ever paid at this point. The shorn stuff that showed up was of poor quality and brought $9.30.

Local traders did not agree on the amount of today's advance, but a comparison of prices on the wooled grades shows them to be 30c up—30@35c higher would be a conservative quotation of the market. There were no aged sheep here again today.

The week's trade has shown one of the most rapid advances seen in a long time. Only a few cars have put in appearance each day, and as packers realized that the run of fed stuff was about over, it was up to them to get the sheep now or never. Today's supply of 797 head brings the week's total up to 12,785 head, which is the smallest for several years, being 8,000 lighter than a week ago, and only a little over a third as large as for the same period last year.

Quotations on sheep and lambs: Lambs, light, $10.75@11.50; lambs, heavy, $10.25@10.75; lambs, shorn, $9.00@9.75; yearlings, light, $9.00@9.25; yearlings, heavy, $8.75@9.25; wethers, fair to good, $8.25@8.75; ewes, good to choice, $8.00@8.60; ewes, fair to good, $7.50@8.00.

Sharp Advances in Prices Charged for Meat in Berlin

(Correspondence of the Associated Press.)

BERLIN, May 16.—A striking resume of how generally foodstuff prices have risen in Berlin during the three months, January to March, 1915, in comparison with the same period a year ago is contained in a chart compiled by the Berlin cattle market.

The prices given are in marks for fifty kilograms live weight, and are estimated for the first of January and last of March, 1914, and for the same dates in 1915:

	—1914— Jan.	Mar.	—1915— Jan.	Mar.
Cows	43	38	44	48
Sheep	46	41	50	67
Bulls	45	39	42	44
Oxen	50	45	51	53
Calves	71	60	66	53
Swine	57	45	67	57

With a few intermittent recoveries, the price of animals one year ago fell steadily as the year advanced. In the same period of 1915 they rose quite as consistently, with the single exception of calves. Of the other five, only sheep showed a tendency during January and part of February to lapse back to lower prices, and they eventually soared straight upwards to the high prices of 67 marks.
