

GRAIN AND PRODUCE MARKET

Wheat, Corn and Oats Are All Weak, with Sale Prices Running About a Cent Lower.

TEXAS WHEAT CROP IS BIG

OMAHA, May 15. 1915. Corn is weak, selling from 4 1/2 to 5 1/2 cents. Cash wheat was also lower, selling 45 1/2 to 46 1/2 cents.

Harvesting will start in sections of Texas between May 20 and 30, according to a special report from the grain growers' association.

The condition of the growing wheat in Texas and the acreage to what surmounts that of last year, which is discouraging to holders of the grain in the southwest.

The new wheat of Texas must be taken care of by exporters, as millers cannot use wheat direct from the machine and exporters in nearly all instances want it after it has passed through the sweaters.

There is more wheat in the far southwest than is generally believed, as shown by the offers of holders to exporters.

Clearances were: Wheat and flour equal 1,130,000 bushels; corn, 10,000 bushels; oats, 50,000 bushels.

Primary wheat receipts were 50,000 bushels and shipments 28,000 bushels, against 25,000 bushels last year.

Primary corn receipts were 25,000 bushels and shipments 20,000 bushels, against 20,000 bushels last year.

Primary oat receipts were 10,000 bushels and shipments 8,000 bushels, against 8,000 bushels last year.

Primary soybean receipts were 5,000 bushels and shipments 4,000 bushels, against 4,000 bushels last year.

Primary cotton receipts were 100,000 bales and shipments 80,000 bales, against 80,000 bales last year.

FRANCE ERECTS MONUMENT FOR ITS SOLDIER DEAD. PARIS, May 10.—The first general monument valued to the memory of soldiers fallen in battle has just been completed by re-erecting of the engineering corps near Meux. It is a truncated pyramid of stone and cement on a macadam foundation bordered with a mosaic of broken stones. It bears on a marble slab in front, this inscription in red letters: "Glory to our eternal France. Glory to those who died for her. The monument stands on the extreme edge of the field where was fought the battle that turned the tide in favor of the allies, and made possible the victory of the Marne."

PREDICTS GREAT DEMAND FOR AMERICAN HORSES. LONDON, May 10.—Cavalry has been so little used in this war and transportation so dependent on motor vehicles that it is doubtful whether the demand for American horses is as heavy now as will be after the war, when this shortage will be felt on the farms of Europe. The United States has shipped less than 50,000 horses to the warring powers since hostilities began. If the number is raised to 200,000, only 1 per cent of the American horse supply has been touched.

BUYING LESS FOOD, BUT PAYING MORE THAN A YEAR AGO. (Correspondence of the Associated Press.) HAMBURG, May 10.—Statistics show that Hamburg, which almost alone among the large cities of Germany, supplies its needs with fruit and vegetables through a single central market at which producer meets wholesaler and goods change hands at officially regulated prices, is buying less than it did a year ago, though paying in February more than it did for more food in February, 1914.

LOW PRICES LOOKED FOR AT THE SUMMER RESORTS

FRANKFURT, May 10.—Never in the history of the health resorts of Germany, especially those in Bavaria, have prices been as low as they promise to be, this coming summer. In the absence of the customary clientele, it is regarded as likely that the wives and relatives of army and navy officials will come by thousands.
