San Francisco Post For Peace Medal

Captain C. E. Adams of the local Army of the Republic has received a copy of a resolution passed by the Lincoln post of San Francisco, giving assurance of hearty co-operation in the advancement of the petition to congress started in Omaha, asking that suitable peace medals be distributed to the surviving soldiers, sailors and marines of the civil war. The resolution requests California congressmen to assist those from Nebraska to whom has been entrusted the presentation of the memorial.

Custer post, No. 7, of Omaha, in a resolution endorsing the movement says it believes "the sentiments expressed in the Rosewater resolutions, which were unanimously adopted at our Apenninox meeting, providing for a suitable peace medal by act of congress, will meet with the approval of congress and the people as well.

Artist Hamilton Visits Bellevue

J. McClure Hamilton, portrait painter from London, England, who visited in Omaha Thursday on his way to San Francisco, spent a short time in Bellevue with Prof. Schmiedel.

Prof. Schmiedel and Mr. Hamilton's son, Prof. George Hall Hamilton, lived together when he was in Bellevue. Mr. Hamilton says that there is no possibility of his son's returning to Bellevue this summer as was rumored.

Five Bellevue pupils of Miss Evelyn Hopper appeared in the recital given Tuesday evening at the Schmiedel & Mueller hall. They were the Misses Marguerite Jack, Alice Nunn, Gertrude Daniel, Bernice Mitchell and Mildred Forenson.

The junior class students are working hard on the annual, the Indian. It will be out commencement week, about June 3.

MAKE PLATE GLASS AT LARAMIE, WYO.

Headquarters of New Manufacturing Plant to Be Located in Omaha.

A. C. Bailey, 68 State Bank building, Omaha, has organized the idea that Laramie, Wyo., is so situated with regard to railroad facilities and proximity to natural deposits of mineral that enter into the manufacture of plate glass, that he has organized a company to install a plant there for the manufacture of this product.

A stock company of \$1,000,000 capital has been organized. Mr. Bailey is president of the company. Some of the stock is now being offered at \$109 a share.

The plant to be erected at Laramie is to cost approximately \$2,500,000. The breaking of ground for the erection of the plant is scheduled to begin about June 15. Within nine months the plant is scheduled to be in running order and it is planned by this company, the Great Western Plate Glass company, that by that time the plant shall be turning out from 150,000 to 200,000 feet of plate glass each month. As the graders and polishers are completed it is planned that the plant shall turn out even a greater amount than this.

While other plate glass factories are largely located in the east, where they have a very long haul for most of their raw material, this company has selected a site a short distance from the city of Laramie, Wyo., simply because nature has here thrown together in great mineral beds within a few miles of one another, all the necessary materials that go into the furnace to produce plate glass. It was a mere chance in nature's prodigal way of distributing its minerals. This company has taken advantage of nature's transportation. In other words, "Nature Paid the Freight," in bringing these various raw materials together. All the company is doing is building a factory in the midst of this aggregation of natural deposits.

For example the gypsum deposits are within five miles of the proposed plant, and the haul is down hill. The soda deposits are sixteen miles away and in position for a down hill haul. The lime stone and sands are only two miles away, again with a down hill haul in sight. The big Laramie river flows directly by the proposed plant, so that the water supply problem is settled at once. The main line of the Union Pacific runs between the river and the factory, giving immediate truckage and an outlet for the product to the world. The Lincoln highway also passes by the site of the proposed plant.

On account of its shipping facilities afforded by Omaha, this city was chosen as the distributing point. Omaha is to remain the headquarters as the main office is to be maintained in Omaha and the money handled here.

Feast of Weeks Is to Be Observed At Temple Israel

In the Jewish churches Wednesday of this week is known as Shebuoth, or the feast of weeks. It is the festival of the moral law and commemorates the delivery of the ten commandments by Moses to the children of Israel.

The Shebuoth services begin Tuesday evening and continue over Wednesday, with confirmation at 9:30 o'clock in the morning of the last named day.

The following eleven children will be confirmed at Temple Israel Shebuoth morning: Bernice Adler, Gertrude Cherak, Madeline Cohn, Ralph Cohn, Emma Gluck, Leo Kraus, Frances Naga, Ruth Oppenhelm, Manuel Preleman, Helen Robinson and David Simon, Rabbi Cohn officiating.

Good Crowd Attends Opening of Air Dome

The Air Dome, removed one block west of its old location, opened for the 1915 season last night. The new Air Dome is located at Thirtieth and Farnam streets, Charles Franke is again manager of the open air movie shop and promises that only the best first run moving pictures will be flashed on his screen during the summer. Pictures will change each night. Quite a large crowd was out last night to enjoy the pictures. The new location is considered much better than the old one as the breeze is more brisk and Franke declares that even on the hottest nights the Air Dome will be cool and comfortable.

Miss Hornaday of the domestic science department has organized a group of members of her advanced class in domestic science cook and serve three dinners to four people. The class is to determine amount of money and is required to select the menu within that amount and set up the complete menu. It would be done to serve invited guests in a home. These dinners are proving to be unusually good. Those who have been invited are praising the work of the young women on every hand.

The track meet between Hastings and Doane on Friday was the most exciting and closely contested of any that have been held on the college grounds in many years. There was no time when the final results were not in question. Doane might be one point ahead in the last and Hastings in the next. Before the last event was called, the relay race, the score was 21 to 0. This made the last event thoroughly exciting. It was won by Hastings, 21 to 0. This is the third dual meet held this year, and each of them has been won by Hastings. The number of the men will be entered at the state meet at Lincoln, which will prove to be a good contest.

ICE WORKERS GO ON STRIKE

People's Company Workers at Car Icing Station Say Should Be Paid by Day.

NOW PAID FOR ACTUAL TIME

Because circumstances compelled them to remain on duty twelve hours for an aggregate wage of 45 cents in many days, ten workmen employed by the People's Ice company at the Union Pacific railroad's refrigerator car icing station near Nineteenth and William streets, last night went on a strike.

When they quit, they warned other workers for the company that any attempt to fill the job would be met by swift reprisal. It was then that the police were called, and a squad remained in the vicinity all night guarding the property.

There was no violence, however. Fred Soller, 82 1/2 South Thirtieth street, said he, too, averaged 40 cents a day, and was trying to contribute to the support of his aged mother.

The story the men tell is that they get 20 cents an hour only for the time actually put in loading cars. Some times there is only one train a day to be loaded. Last year the men received a flat rate of \$2 a day, they say, and they want this to be put into operation again.

COCONUT OIL MAKES A SPLENDID SHAMPOO. If you want to keep your hair in good condition, the best soap you use the better. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very irritating to the scalp. Simply moisten your hair with multified coconut oil (which is pure and entirely greaseless), and you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two spoonfuls will make an abundance of lather. Perform this treatment to the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and leaves it fine and silky, bright, fluffy and easy to manage. You can get multified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last several months in the family for months.—Advertisement.
