Subsequent Developments. The subsequent developments as a con sequence are related in the Examiner as

"Mrs. Bloomer accepted the invitation and named the evening of January 8 1856, as the time and announced for her subject: 'Some Thoughts on the Question Woman's Right of Franchise.' When Mrs. Bloomer appeared before a crowded ouse she was greeted with cheers. She felivered her lecture in a pleasing and squent manner, her arguments mestwith much favor.

"A newspaper correspondent said: 'Mrs Bloomer, though a little body, is among the great women of the United States; and her issen, intellectual eye seems to lash fire from a fountain that will consume the stubble of theories until woman placed in her true position in the enment of equal rights and privileges. Her only danger is in asking too much."

"So much interest was created by the cture that a bill was drawn up and ntroduced into the legislature giving to roman the right of franchise. The bill was drawn and presented by General William Larimer, formerly of Pittsburgh, . It was not until the last day but one t the session that this woman auffrage

all came up, by special order of the souse. A number of ladies were present hear the discussion. General Larimer eks ably and eloquently in favor of he bill. On the vote being taken, t stood as follows: Yeas, 14; Nays, 11. Having passed the house, it was

There was considerable excitement oncerning the matter, pending the action of the legislature on the bill and afterward, General William Larimer was the special exponent of the bill. REAL ESTATE MEN AS HOSTS Plans Laid for Entertaining East-

erners as They Go Through Omaha to Coast.

SECRETABY HERE TUESDAY Omaha real estate men are determined

that all the eastern real estate men who stop off in Omaha on their way to Los Angelos for the convention of the National Association of Real Estate Exchanges, shall be properly entertained while in the city. A special committee appointed some weeks ago to solicit funds for the entertainment of these men has raised \$1,700). E. R. Benson is chairman of the committee.

Next Tuesday Thomas Ingersoll, executive secretary of the National Association of Real Estate Exchanges, is to spend the day in Omaha en route to the coast. He is to be entertained by the real estate men. The exchange has set Tuesday for its regular meeting this week, instead of Wednesday, which is the regular date. This was done in order that Mr. Ingersoll might come before the exchange in session and deliver a talk.

Some Booster Talks.

A number of booster talks were given at last week's meeting of the exchange by C. C. George, Harry Wolf, Frank H. Meyers, President Thomas, C. F. Harrison and George F. Gilmore.

Harry Wolf pointed out that in Omnha cents are running far ahead of ground values, as compared with the eastern cities. He asserted that while an investment in ground in New York City yields only 2 per cent on the investment, in Omaha it yields from 7 to 12 per cent. He declared that this discrepancy should no longer, exist; that Omaha should now be considered so well established a metropolitan city that capital should be as willing to invest here as in the east, especially in view of the fact that the rate

of returns on the investments is so much greater.

People Just Waiting. George F. Gilmore asserted that there s something of a waiting condition of mind on the part of the people of the country on account of the war and various conditions, and that much money is idle that ought to be invested in real estate. He pointed to the increasing values in Omaha, and declared that the example of George A. Joslyn's recent investments are good ones to follow, in that they show a confidence in Omaha

property, since Mr. Joslyn invested considerably more than \$1,000,000 in less than one month. The Real Estate Exchange took up matter of taxation referred to in ommunication from the Building Owners' and Managers' association. The mmunication stated that through a revision of the methods of accounting and through other possible changes, a reduction of 10 per cent should be made in the

present tax assessment. The exchange is to appoint a committee to look into the matter and probably co-operate with the building owners and managers in movement to this end.

Stop in Omaha. In proparation for the "Stop-Off-incrowds this summer, Payne & Slater are having a huge sign painted for the Wellington Inn, on Farnam street. The sign is to be placed at the very top of the building, facing east. It is to be fourteen by sixty-five feet in dimensions, illuminated with shaded
