

### Queen or Dairy Maid Ambition the Same

In the expectant mother's mind there is no limit to what the future has in store, and yet during the period of expectancy, much depends upon the physical comfort of the mother. One of the best aids is a remedy known as "Mother's Friend." Applied over the muscles, it penetrates to the net work of nerves, relieves the pain in the feet, stretches and relaxes the ligaments, makes them pliant, induces daily comfort, restful nights, a calm mind and pleasant anticipation. You use it with your own hand, apply it as needed, and at once feel a sense of relief. Mothers who have learned all this from experience tell of the blessed relief from morning sickness, the absence of strain and the undisturbed peaceful influence imparted to the coming baby.

One very important thing to remember about "Mother's Friend," it can not exert any other influence than to simply lubricate the parts, make them more firm to naturally withstand the constantly increasing pressure. And as the muscles continue to expand, the nerves receive stimulation to this new condition and adjust themselves without undue pain. "Mother's Friend" is entirely free of any drug influence whatsoever and may be used freely at all times.

Get a bottle of this splendid help today. Place your nearest druggist or send for it. The Wolfe-Burdfield Chemical Co., 714 Lehigh Bldg., Atlanta, Ga., for a valuable book of instruction for expectant mothers.

"Mother's Friend" is recommended everywhere by women who have used it. And you can read some very interesting letters if you write for this book.

### Stagnant Blood Given A Quick Impulse

Wonderful Activity Imparted by a Famous Remedy.

The appearance of pimples, boils, skin eruptions and all evidence of impure blood, calls for S. S. S., the famous blood purifier. Cathartics, purges, bowel movers and laxatives won't do.

No amount of bile will destroy certain germs which cause blood and skin eruptions. They are away down deep in the tissues, perhaps in the very marrow of the bones. And such a condition calls for the searching influence of S. S. S. It is indeed a remarkable remedy, since it is taken up by the blood stream and never loses its medicinal influence. On and on it goes, through and through the entire system and always with the same definite action to dislodge germs, destroy their activity and stimulate the liver, lungs, kidneys, bowels and skin to throw them out completely.

It stimulates stagnant blood, provides a rational exhilaration to the nerve centers and thereby the natural functions of the body are aroused to cast out intruders, no matter how strongly entrenched they may be. It refutes the ancient theory that to destroy within us the germs that destroy our very existence, we must get drugs that destroy our very existence. Get a bottle of S. S. S. today, of any druggist and for special advice on severe blood disorders write at once to the Medical Adviser, The Swift Specific Co., 108 Swift Bldg., Atlanta, Ga. Do not accept a substitute, insist upon what you ask for.

### Low Round Trip Fares

Season June 15 to October 1

### Glacier National Park!

This tremendous mountainland, high in the splendid Montana Rockies, now may be enjoyed as never before.

A new mammoth mountain hotel, the "Many-Glacier," has been erected on Lake McDermott, in the Park's heart. New tours—by auto-stage deep among the mountains, a-saddle over wonderful trails onto the Continental Divide—have been arranged.

### California Expositions via Glacier Park

By overland train across Rocky and Cascade Mountains to Pacific Northwest—enroute a tour of Glacier Park—aboard steamship Great Northern and Northern Pacific to San Francisco—travel this "Great Northern way."

### TAXI MEN APPEAR AGAINST JITNEYS

Street Railway Company Insists Jitneys Should Have Fixed Routes and Schedules.

### JITNEYS CUT TAXI BUSINESS

Representatives of the regular taxi lines appeared before the city council committee of the whole with charges that jitney drivers are cutting into their revenue by operating as taxicabs during part of the day at half of the taxi rates. Vice President Leussler of the street car company estimated that if the jitney men are not required to follow definite routes and schedules and take the long as well as short hauls, the traction company may be compelled in self-defense to adopt a zone system of fares.

The council listened to many ideas regarding jitney regulation and agreed to hold another meeting on Tuesday morning, June 1, before directing the legal department to draw an ordinance.

### Jitneys Take Short Hauls

Mr. Leussler's committee report to the council: "That the attitude of the company may be understood, I may state that we do not ask for any jitney regulation that would not be fair to both the jitney men and the public. I maintain there should be a license fee of an equivalent to a percent of the gross earnings. Practically all of the fares collected by jitneys would otherwise go to the street car company, and the city is now losing 3 per cent occupation tax on this money. Many cities are now collecting jitney license fees in advance. I have received Jitney ordinances from most cities and find that as a rule the bond requirement is not less than \$10,000. Our company should know what conditions to meet so we may regulate our service accordingly; therefore, I believe the jitneys should be required to follow fixed routes and maintain schedules. It is not fair to allow the jitneys to take only short hauls."

### Jitney Part of Time

Pressure was brought to bear on the council to include in the new ordinance a provision that a jitney should be a jitney all of the time and not converted into a taxi just to suit a particular occasion, as it is alleged is now being done. It was stated that 30 per cent of the jitney men are engaged in other businesses part of the time, one man said to work in a grocery store during the day and as a jitney driver in the evening.

R. M. Switzer, representing the Omaha Motor Bus association, operating seventy jitneys, maintained that bonds of \$5,000 and \$10,000 would meet all requirements. He also urged that provision should be made to allow jitneys to operate as "taxicabs" if signs on the cars would be changed. Commissioner Kugel objected to allowing jitneys to be operated for any other use.

### Willing to Pay Tax

Stewart Dale, secretary of the Jitney association, asked that the ordinance allow jitney men to carry jitney and taxi licenses at the same time, adding that his association is willing to pay 3 per cent occupation tax and furnish bonds.

Commissioner Hummel said he wants provision made to prohibit these cars on boulevards or park drives, and he announced that he would not stand for any ordinance which did not contain an adequate bond protection provision of not less than \$10,000 per car.

John O. Yelzer urged the commissioners to think well before taking definite action. He called attention to alleged infractions committed in some automobiles, and one of his points was that sitting on laps should not be allowed in jitneys.

### Greater Omaha to Be Boosted at Big Meetings This Week

Meetings on the Greater Omaha campaign are scheduled for Tuesday and Wednesday evening by the Greater Omaha committee. The Southeast Improvement club is to hold a meeting at 8 o'clock at a meeting also this evening at which Judge Ben Baker is to talk for the consolidation movement. Dr. J. P. Connolly is to preside.

The Bemis Park Improvement club is to hold a meeting also this evening at Franklin school, at which Judge Lee Estelle is to be the speaker.

Wednesday evening there is to be a big open air meeting on Greeley's lawn at Twenty-ninth and Hickory streets. The lawn is to be electrically lighted. Dan Deslandes band is to play. The band is to go out from Fifteenth and Capitol avenue in a carryall, starting at 7:45. Greeley's flag, presented by former President Taft, is to be floating from the high staff in honor of the occasion, while Deslandes' band of fifteen pieces plays patriotic selections. Frank G. Odeh of Omaha and T. J. McGuire of South Omaha are to be the speakers.

### NUMEROUS PETTY CRIMES DURING LAST FEW DAYS

Along with the wave of serious crimes now keeping the police busy are a number of lesser ones that are thought by detectives to indicate that Omaha is just now the scene of operations of many crooks that have been driven out of other cities.

P. C. Harm, 1904 South Thirty-second street, surprised a burglar at work in his home Sunday night and scared him away before the prowler could take anything but a revolver.

G. F. Cummings, 283 Douglas street, was robbed of a gold watch. Tools were stolen from the workshop of Lea McGreer, 313 South Fifteenth, and Pat Hughes, 322 Indiana avenue.

John Wick of South Omaha was held up and robbed only two blocks from the police station by a negro and a white man. He lost \$5. Adolph Muel, 145 South Fifteenth street, reported to the police that garden hose and tools were stolen from his yard.

Our "Jitney" Offer—This and Go. Don't miss this. Cut out this slip, enclose with go to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills, for pains in sides and back, rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic. Stout people enjoy them. Sold everywhere—Advertisement.

### Packard Twelve to Be on Exhibition in This City Soon

A tangle of rumors relating to a twelve-cylinder Packard has been crystallized by the announcement of the twin six. It is stated officially that the new model will be on exhibition in Indianapolis during the week of the big race.

In external appearance the new car retains all of the well known Packard characteristics. It looks much like previous models, except that the hood is shorter, the radiator tapered to conform with it and the running boards set two inches nearer to the ground. The reduced length of hood permits of a shorter wheelbase.

When the hood is lifted startling changes are revealed. The twelve cylinders are there all right, but it is hard to realize that such a power plant can be so compactly stored away.

The twin six motor is exactly what its name implies, two six-cylinder blocks arranged in V form with an angle of sixty degrees between them.

The motor is of clean-cut design with nicked trimmings and enameled cylinders. The bore is three inches and the stroke five inches.

H. F. Orr, local representative of the Packard company, says he expects to have some advance demonstrating cars which will be here by a few days about June 15. He expects to make deliveries shortly afterward.

### Parral on Trial for Killing Ring

Juan Parral, Mexican, charged with the murder of Detective Tom Ring last January, was placed on trial in District Judge English's court.

By noon twelve jurors had been passed for cause. Exercise of peremptory challenges began in the afternoon. The work of securing a jury was hastened by the fact that County Attorney Magney did not ask prospective jurors whether they were opposed to the death penalty.

Parral is charged with first degree murder. The pistol with which Ring is believed to have been shot was found in his possession. He was captured in Kansas City a few days after Ring was killed. Parral's Mexican companion was killed while resisting arrest.

### Spring Coughs and Colds Dangerous

Don't run the risk, get a 10c bottle of Dr. King's New Discovery now. The first dose helps you. All druggists—Advertisement.

### LETTER CARRIERS HOLD MEMORIAL SERVICES SUNDAY

The Omaha letter carriers held memorial services Sunday afternoon in honor of the twenty-six men who have died since free mail delivery was begun in Omaha. Assistant Postmaster Woodard represented the postoffice officials. President William Maher of Omaha branch No. 5, National Association of Letter Carriers, read the list of the dead. Congressman C. O. Lobeck, City Solicitor Harry B. Fleharty and former City Commissioner Ryder spoke. Rabbi Frederick Cohn offered prayer.

### Twenty-Five Y. W. C. A. Girls to Lake Geneva

Enthusiasm in the Young Women's Christian association conference at Lake Geneva, which will be held August 17-22, is being aroused at the local association. The vesper service Sunday was given over to discussion of the conference which brings over 600 girls together each year. Miss Beulah Evans will head the local delegation, which it is estimated, will number over twenty-five. Miss Ruth Anderson will represent the Fellowship club and the Business Girls' club will elect its representative Tuesday evening. Other delegates will be chosen later. Miss Evans will also attend the meeting of Young Women Christian association employed workers at the same time.

### RAIN PLENTIFUL ON GROWING CROPS

Winter Wheat on All Divisions of the Burlington Far Above the General Average.

### PASTURES ARE IN FINE SHAPE

The Burlington's crop and soil report for the week ending last Saturday night indicates that the precipitation last week extended to every portion of Nebraska, Colorado, Wyoming and Kansas touched by the company lines. It was the heaviest of any corresponding period of the year, few stations getting less than an inch of rain and the majority of them two to three and one-half inches. The greatest rainfall reported in Nebraska during the week was at Riverton, Franklin county, where the precipitation was four and three-fourth inches.

The summary of the reports sent in by the company agents indicates that the winter wheat crop continues to maintain the high standard, each of the Nebraska divisions showing a condition better than 100 per cent, as compared with the ten-year average. By divisions the report on condition is as follows:

Omaha	102 per cent
Lincoln	102 per cent
Wymore	104 per cent
McCook	105 per cent

Heavenly Fly Exterminated.

In a few fields on the Wymore division, according to the report, Heaven fly has made its appearance, but the opinion is expressed that the heavy rain and unusually cold weather exterminated the pest. In other divisions there is no indication of any damage by fly, or anything else.

At the date of the report, corn throughout the southern part of the state had all been planted, and in some fields it was beginning to show through the ground. Farther north there was considerable land that had not been planted, the wet weather having prevented work in the fields.

Some damage to fruit is reported, but principally in Colorado. The Nebraska districts are supposed to have escaped injury by frost and cold, with the possible exception of a small area northwest from Aurora.

Pastures are reported in prime condition, with the streams full of water.

### Loss of Sheep in the West is Very Light

Alexander Hampton, traveling agent for the Northwest, was in northwest Nebraska and over in Wyoming during the heavy snow, sleet and rain storm of last week and asserts that the losses to sheep men by reason of the cold will be light. Said Mr. Hampton:

"When the storm came the opinion was general that the herds of the flock masters would be wiped out. Some sheep died, but not any great number. What saved the animals was the quick change of the weather from cold to warm. The snow remained on the ground only a few hours.

"All through Nebraska and Wyoming the rain and snow was of great benefit to the farmers. The ground is now in perfect condition and it does not seem as if there could be anything that would prevent the raising of a bumper crop of small grain. Up where I was, there is no talk of insects injuring the crop."

### Burglars Halted After Running Fight

After an exciting chase and the firing of a number of shots, Detective Kennedy and Officer Burhard and Armstrong arrested two men who implicated themselves in the burglary of the Goldman-Meyerson grocery store at Twenty-fourth and Arbor streets at 3 o'clock Monday morning.

The men, held on charges of burglary, are Steve Malolepsy, 2504 South Twenty-sixth street, and Walter Sewzyk, 3502 C street, South Omaha. Their plunder was thrown away when the officers arrived and followed them. A third man is being sought on information given by one of the prisoners.

### FORMER COUNCILMAN IS BROUGHT HERE FOR BURIAL

John McLearte, councilman for two terms and prominent here as a foundryman, was buried yesterday at Forest Lawn cemetery, besides his wife and a son, John McLearte, Jr. The body was brought from Granger, Wash., by Mrs. J. A. Gallagher, a daughter with whom Mr. McLearte lived since he left Omaha, sixteen years ago. Another daughter, Mrs. C. E. Jay of Portland, Ore., accompanied the body to this city. Allan McLearte of Brainerd, Minn., is the surviving son.

Mr. McLearte lived for twenty years at Twenty-seventh and Burdette streets and operated two foundries. He was 73 years of age and a member of the Knights of Pythias and Woodmen of the World.

### COSTS FIFTY BUCKS TO TURN IN A FALSE ALARM

Toying with the city fire department proved costly for Mrs. May Nixon, 430 South Thirteenth street. She sent in a general alarm of fire, which proved to be false. Justice Foster fined her \$50 and costs in police court, after Fire Chief Charles A. Salter had testified against her.

### Water Board Case Against S. O. is to Come Up Wednesday

Judge T. C. Munger will return to the federal bench of the Omaha division Wednesday at 10 a. m. to proceed with the trial of the case of the Omaha Water board against the City of South Omaha, the Union Stock Yards company and four packing houses, to restrain the City of South Omaha from putting into effect certain ordinances passed by the council of that city giving the defendant Union Stock Yards company the right to lay mains for its water plant through the streets of the city of South Omaha. The case has already been on nearly a week but Judge Munger was forced to postpone completing it three weeks ago because he was due to hold court in Lincoln.

### Big Sign to Greet Highway Tourists

Local representatives of the Lincoln Highway will erect a sign near the Iowa end of the Douglas street bridge, the greeting for incoming motoring tourists to be, "This is Omaha, 200,000 population," and the benediction upon those going out to be, "Goodby, come again." The letters will be of sufficient size so that even those who speed may read.

### Allen's Foot Ease for the Troops

Over 100,000 packages of Allen's Foot-Ease, the antiseptic powder to shake into your shoes or dissolve in the foot bath, are being used by the German and Allied troops at the front. It relieves the feet, prevents friction of the shoes and makes walking easy. Sold everywhere, 25c. Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

### For Women Who Think!

You are interested, almost as much as we are, in extending the use of the Safe Home Match. It is the most reliable, the most efficient and the safest match that can be made. It is absolutely non-poisonous. It is made under conditions that forever do away with one of the worst of occupational diseases. It removes a poison from the reach of children in American homes. We ask you to use this new non-poisonous match and to urge others to do likewise.

5c. All grocers. Ask for them by name.
