retailers pick flaws in goods that would be hailed with delight in larger towns; also in demands for the vogue of the last minute . . . . . The reason is apparent— Omaha people are great sticklers for quality. They want the best at a reasonable price and they get it."

Omaha manufacturers knew this long before Mr. New Yorker did. They have known right from the start that their's must be a product of the highest quality, equal to or better than any other known makes.

And they have produced it, but the average Omahan doesn't realize it. And here is something else he doesn't realize---it can be bought in Omaha for less than it can be shipped here for, and he gets a more direct, satisfactory service.

The next time you want to buy something, ask for the Omaha made brand and give it a trial. It's to your own personal interest.

## Better Made Boxes

The wooden box industry is a thriving one in Omaha. There must be packing boxes, box shooks and there is a big demand in this section for chicken coops and egg cases.

A distinction possessed by these Omaha-Made boxes is the better seasoned lumber used and the fact that it is kept dry; and the patented features make the boxes strong, durable, adaptable to requirements.

Made in Omaha by the

OMAHA BOX CO. East Omaha

Have you ever noticed that the better made the boxes in which you receive flowers, or hats, or suits from the stores, etc., the better are your goods protected?

There is a well-established, enterprising manufacturer in Omaha whose paper boxes, for all purposes imaginable, are unequaled.

And, because the cost of shipping boxes is high in proportion, he can undersell all out-of-town competitors.

Having the inclination of the Omaha manufacturer to serve you well, you can save time and money by dealing with him.
