dent. As a result business in new cropmonths proved smaller than usual. There
was a notable scarcity of May offerings
at the end, with a brief consequent flurry
on the part of belated miner shorts.

Better weather predicted and the absence of export demand had a good deal
to do with making new crop deliveries
of wheat fail in value. A fair quantity
of new Texas wheat was hedged here
by sales of July.

Corn reflected only to a moderate extent the weakness of wheat. Flood conditions in some of the chief producing
states acted as an offset when sellers
became aggressive. Evening up of trade
in oats took place quietly. Crop reports
were favorable on the whole.

Buying of lard on a generous scale by
a big packing concern gave backbone to
provisions. Miscellaneous holders, though,
seemed disposed to realize on pork.

The tone of the outset was irregular, gradually versing towards heaviness on rumors that Germany has issued another marine warning. More careful perusal of this notice served to allay apprehension and in some quarters was regarded as a desire on Berlin's part to show greater conciliation. MANUFACTURING OPPORTUNITY

Owing to change in state laws our plant closes Dec. 31, consequently we are looking for a manufacturing business that has proven itself; something that could be much extended with additional room, capital and energy.
