Nebraska Beatrice Grows, And Business Men All Pull Together

(From a Staff Correspondent.)
BEATRICE, Neb., June 2.—(Special.)—Few cities in the United States of the size of Beatrice have a prettier or more up-to-date athletic park.

This fair little city on the Blue is up to date in every way and going forward at a pace that will astonish the state.

With three railroads running through the city, with some of the finest residences to be found in the state, with several excellent store buildings that would be a credit even to the metropolitan city or the capital city, with all of its business streets paved and many of them extending out into the residence portion for many blocks, Beatrice may well be listed as an ideal city.

Its park is a beautiful sight at this time of year. Nestled on the side of a hill which has been cut down and filled in on one side, a retaining wall of cement holds the lower portion of the park and extends six feet or more above the ground, almost entirely surrounding the beautiful place.

TURKEY DAY PUT BACK UPON MAP

Referendum of Missouri Valley Conference Schools Reinstates Thanksgiving Games.

IN EFFECT HERE IN YEAR 1916

LINCOLN, Neb., June 2.—(Special Telegram.)—Foot ball games in the Missouri Valley conference will be permitted on Thanksgiving day. It was announced today by Chancellor Avery, who made possible the result of a referendum taken among the members of the conference. The rule prohibiting the playing of "turkey day" games was rescinded by a vote of 5 to 2.

Nebraska, Ames, Drake, the Kansas Aggies and Missouri voted in favor of rescinding from the rule, while Kansas and Washington opposed it. The two schools voting against it took the ground that the action could not be legal except at a regular conference meeting. Chancellor Avery said he had little doubt as to the legality of the referendum and the situation resolved itself into those schools desiring "turkey day" games playing them, while those who did not would not change the present policy. Nebraska will not have a turkey day game next year, because St. Louis has already completed the schedule, but in 1916 it is likely the Cornhuskers will return to the old system.

A Good Breakfast---

Properly Selected---

Means a running start toward the day's work.

There's concentrated Energy in Grape-Nuts FOOD

Grape-Nuts

It contains the rich elements from Wheat and Barley in form for easy digestion; and so quickly absorbed that it makes itself felt in body and brain.

There's a Reason FOR Grape-Nuts

WISER WORDS.
A Physician of Portland, Oregon, has views about food. He says: "I have always believed that the duty of the physician does not cease with treating the sick, but that we owe it to humanity to teach them how to protect their health especially by hygienic and dietetic laws."

"With such a feeling as to my duty I take great pleasure in saying to the public that in my own experience and also from personal observation I have found no food to equal Grape-Nuts and that I find there is almost no limit to the great benefit this food will bring when used in all cases of sickness and convalescence. It is my experience that no physical condition forbids the use of Grape-Nuts. To persons in health there is nothing so nourishing and acceptable to the stomach especially at breakfast to start the machinery of the human system on the day's work. In cases of indigestion I know that a complete breakfast can be made of Grape-Nuts and cream and I think it is necessary not to overload the stomach at the morning meal. I also know the great value of Grape-Nuts when the stomach is too weak to digest other food."

"This is written after an experience of more than 20 years treating all manner of chronic and acute diseases, and the letter is written voluntarily on my part without any request for it." Name given by Postum Co., Battle Creek, Mich. Look in Pkgs. for the famous little book, "The Road to Wellville."
