SONG HITS that will be heard EVERYWHERE. SATURDAY 10c.

Very Few Pianos Actually Wear Out

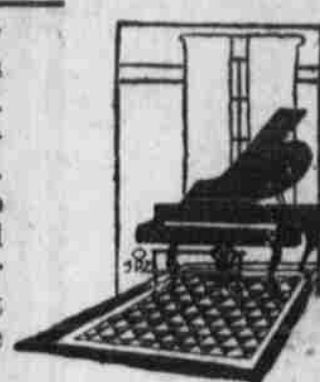

It is generally the giving away of one part before the others that renders a piano useless. That's why one-half of the business done today is in exchanges.

If you buy a Clarendon piano you can rest assured that detail of manufacture is looked after with sympathetic care and that there will be no premature breaking of any part.

It's our boast that the tone of a Clarendon piano does not wear out.

MISS LILLIAN B. HYDE defeated Mrs. Joseph E. Davis for the Woman's Metropolitan Golf association championship. This makes the fourth time Miss Hyde has won this honor.

WARS OF FUTURE IN AIR AND UNDER SEA

Secretary Daniels Discusses Development of New Craft in Address to Naval Graduates.

LESSONS OF GREAT CONFLICT

ANNAPOLIS, Md., June 4.—Prediction that war aircraft of the not distant future will be as fearful engines of destruction as the dreaded undersea craft was made by Secretary Daniels in addressing the graduating class of the Naval academy today.

"In the European war," he said, "there have been no surprises, no feats that could be called decisive. Slaughter there has been unprecedented, but the character of battles that stampeded an enemy by taking him unawares has passed away. The effectiveness of the flanking movement has been seriously impaired. Why? The soaring scouts carry messages from trench to trench and the sudden alarms that resulted in the routing of mighty armies became an ancient history when the modern engine and gasoline enabled man to conquer the regions of the air."

Secretary Daniels spoke of the marvelous development of the submarine and added:

"Almost daily you are started to read of the torpedoing of a ship by a vessel of these small undersea athletes," the secretary told the graduates. "The submarine's precision of aim, its deadliness of execution, its ability to do its deadly work and disappear in a moment, challenge the world's wonder."

"It seems only a few days ago that we were wondering if the submarine would become a really important part of the fleet. Today many are seriously debating whether our giant craft will continue to be the backbone of the squadron that constitute a country's protection."

"The last congress expressed its faith in the submarine by voting the money to build twenty-six new submarines, three of them to be equipped with a size and power never before contemplated. What of the future of this newest naval arm? He would be a rash man who would in prophecy limit its possibilities."

Secretary Daniels drew a lesson from the European war in pointing out that the graduates, in order to attain high place of honor, must possess in addition to other indispensable, self-mastery.

A bigger and always well prepared navy to insure this country's holding its proper place among the nations was urged by Senator Hulse Penrose, who addressed the graduates on behalf of the board of visitors, of which he is a member.

Captain Complains of His Treatment by British Officials

NEW YORK, June 4.—George Corneli, captain of the American steamer Antilla, brought his vessel into port today from Copenhagen, with a vigorous complaint against the treatment accorded him by the British authorities, who detained him fifty-nine days on his outward voyage. Captain Corneli is a naturalized American of German descent.

He sailed from New York in February with a cargo for Sweden and Denmark, which was loaded, he asserts, under the inspection of the British consul general, who gave him a certificate. He was taken into Kristianstad and detained eleven days, during which time a guard, he said, stationed at his door, watched him continuously. After having been ordered to Dundee, his vessel, he said, was detained forty-eight days there and half of the cargo taken off.

On the return trip Captain Corneli said he was detained two and a half hours by a British cruiser.

Charges Against Swoboda Not Proven

PARIS, June 4.—Charges of espionage preferred by the military authorities against Raymond Swoboda appear to be unfounded, says the Journal. The inquiry conducted by Major Julien of the Paris permanent court-martial has failed to bring out proof that Swoboda served as a German spy. It already has been established that he had nothing to do with starting the fire aboard the steamship La Touraine, a charge which led to his arrest. While there is no strong evidence against Swoboda, Major Julien has decided to continue his inquiry at all places in France where Swoboda is known to have stayed before ordering his release.

HUNDRED THOUSAND JEWS IN POLAND ARE HOMELESS

LODZ, Russian Poland, June 4.—(Via London.)—Warsaw newspapers, which have been smuggled through the lines, say the number of homeless Jews on the Russian side is increasing steadily. At a conference in Moscow recently of the Jewish Aid society it was estimated that the number of these homeless persons is about 100,000. The greatest distress prevails among the homeless in the government of Lomax, numbering about 22,000. Thus far it has been almost impossible to give them substantial assistance. At the Moscow conference it was decided to appeal to Jews throughout Russia for aid, and a plan was discussed for taxing wealthy Jews for the benefit of the sufferers.

GERMANS LEAVE JAPAN FOR THE UNITED STATES

TOKIO, June 4.—The Pacific Mail steamship Korea, which sails tomorrow from Yokohama for San Francisco, will have on board seventy-five Germans, mostly persons who were in Tientsin during the siege and who have been released by the Japanese authorities. They include Mrs. Meyer Waldeck, wife of the German governor of Kiao Chow, and a number of medical officers and hospital attendants. When the Korea came into Yokohama harbor the Japanese naval authorities examined all its passengers carefully in the belief that some members of the crew of the German torpedo boat S-50, interned in China, might be on board.

Scandal Grows Out of Prosecution of Oleomargarine Suits

COLUMBUS, O., June 4.—Demand that United States District Attorney Sherman McPherson and his assistant, Hervey F. Burns, return fees of \$20,000 awarded them by United States District Judge John F. Sater for their services as counsel for the receiver in the suit of the government against the old Capital City Dairy company is made in a motion filed in the federal court here today. The motion also asks that former Congressman F. L. . . . receiver for the company, be required to return \$20,000 awarded to him for his services as receiver.

The motion which is filed by Special Counsel Childs of the Department of Justice asserts that the payment of the fees to the district attorney and his assistant "was peculiarly improper" in that it was their official duty to prosecute criminal cases pending against officials of the company, who are charged with conspiracy.

The Dairy company, through some of its officials, recently paid to the government nearly \$200,000 in settlement of charges against it of having evaded the payments of taxes on oleomargarine.

State Spelling Bee at Columbus, Ohio

COLUMBUS, O., June 4.—Four-score grade and high school pupils, champion spellers in their respective communities, are here today to take part in the Ohio spelling contest.

Arrangements for the spelling "bee" were begun several months ago by the State Agricultural commission, and elimination contests have been held in most of the counties of the state to select entrants in the event. For weeks the contestants, who range from 12 to 17 years of age, have been studying a list of 5,000 words mailed to them by the commission.

Governor Frank B. Willis, who while a member of congress won the spelling contest in which senators, representatives and newspaper men were contestants, will pronounce the words for the spellers. Among the words which appear in the official list are Cinquefoil, charade, Wisteria, braggadocio, rendezvous, amanuensis, farinaceous and gossamer. Many proper names also are included in the list.

Ten prizes have been provided. To the champion will be given \$50 and a set of books, the latter being contributed by the governor. The other prizes range from \$25 to \$5.

Decree Handed Down in Watchcase Suit

PHILADELPHIA, June 4.—The United States district court here today handed down its decree in the government's dissolution suit against the Keystone Watch Case company. The decree carries out the decision of the court rendered on January 3 in which it stated that the Keystone Watch Case company was not organized in violation of the Sherman anti-trust law, but that certain practices with regard to the maintenance of prices were unlawful.

The court in its decree enjoined the company from continuing these practices and retains jurisdiction in the case for such additional relief as may hereafter seem appropriate.

A Mistake Made by Many.
Don't wait for rheumatism to indicate diseased kidneys. When you suffer pains and aches by day and sleep disturbing bladder weakness by night, feel tired, nervous and rundown, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley kidney pills put the kidneys in sound, healthy condition and keep them active and strong. Begin taking today. Good results follow the first dose. Sold everywhere.—Advertisement.
