

SAYS ROCK ISLAND DEAL OUTRAGEOUS

Untermyer Intimates Directors Asked for Receiver to Manipulate Stock Market.

IT DROPS AFTER THEY UNLOAD

WASHINGTON, June 4.—Appointment of a receiver for the Chicago, Rock Island & Pacific railway was taken up before the Interstate Commerce commission today at the investigation into the road's financial affairs.

Robert P. Lamont, president of the American Steel Foundry company of Chicago, testified for the Rock Island receiver not for fear it could not collect \$15,000 due it, but because...

Robert Walker of New York, connected with the Rock Island in various legal capacities, testified he asked Strawn to get some creditor to sign the petition, which he himself had drafted at the direction of W. H. Moore, T. M. Schumacher and F. L. Hine, other directors of the company.

Counsel Falk, for the commission, asked if the board had authorized Walker, as counsel, to file the petition. Mr. Walker responded that he did not consider that necessary, because a great majority of the directors individually approved the action.

Samuel Untermyer, representing N. M. Amster of Boston, a director, led Walker to tell how the Rock Island on March 21 borrowed \$1,000,000 from the Bankers Trust company on collateral plus the personal guaranty of Daniel G. Reid, Ogden Mills, William H. Moore, James McLean and Arthur C. James.

Mr. Walker denied that was the purpose. "Did you ever hear of any more outrageous deal than this?" demanded Mr. Untermyer.

"You have overlooked the fact that four new directors were to be elected on April 15, and we thought it but fair to allow them a voice in meeting the situation," responded Mr. Walker.

"But you sold your own stock for \$35 about this time," suggested Mr. Untermyer. Mr. Walker testified that he did.

Under cross-examination as to those responsible for his position with the Rock Island Mr. Walker said that he regarded W. H. Moore, F. L. Hine and Daniel G. Reid "and others" as in control.

As to who was responsible for his filing the petition for a receivership Mr. Walker said he talked with Directors Moore, Hine and Schumacher, who assured him of the position of other directors.

Falls City Church Members Do Honor To Father Hoffman

FALLS CITY, Neb., June 4.—(Special.)—The twenty-fifth anniversary of the residence of Father J. J. Hoffman in Nebraska was observed here last night.

A program by the children of the convent and addresses were given by James Noble, rector of St. Thomas' Episcopal church, John Mullen and Father Brickert of Rulo.

Father Hoffman responded with a review of his coming to America and his work. His studies were in Germany, France and Belgium. He came from Belgium in 1889 and to Nebraska in 1890.

Burt County Pays Money to Treasurer

LINCOLN, June 4.—(Special.)—Burt county has paid over to State Treasurer Hall \$2,000 due the state on the old insane patient accounts. Several other counties are still in arrears.

DEATH RECORD.

Mrs. Sarah D. Winans. TOLLEDO, O., June 4.—Mrs. Sarah D. Winans, past national president of the Women's Relief Corps, died at her home here this morning. She was 74 years of age. Cerebral hemorrhage was the cause of death.

Vacant Lots. A real estate investment into which you can put a little money and let the constantly increasing values of Omaha real estate double your money.

HEAVY RAINS OVER ALL OF NEBRASKA

(Continued from Page One.)

fallen inside of thirty minutes. The Elkhorn river rose rapidly, and the water from the stream came up and surrounded the depot at the foot of the main street. The river is one-half mile from town.

The Elkhorn river is reported out of its banks all the way from Stanton to Fremont and in many places a mile wide. Farms are flooded and it is asserted that thousands of acres of wheat and corn will be totally destroyed.

Damage at Battle Creek. At Battle Creek, situated on a stream bearing the same name as the town, there was considerable damage done to business houses and residences. A large portion of the town was flooded by a cloudburst, more than four inches of rain falling inside of an hour.

At Madison considerable damage was wrought by high water and crops on the low lands flooded. With the storm was a heavy wind, but no damage from it is reported.

The rain was heavy as far northwest as Alliance but from that section of the state no damage to property is reported.

Railroad men coming in from the east assert that the heavy rain did not extend over into Iowa more than fifty miles. South, however, it extended below the central portion of Kansas, doing great damage to crops.

Burlington Track Washed Out. For a long distance around Broken Bow the rainfall of the night is asserted to have been from three to five inches, completely washing away crops on the hillsides and on the lowlands.

In the vicinity of Broken Bow and to the east the Burlington lost 1,100 feet of track and one bridge, and as a result of this trains are being detoured over the Union Pacific.

The rain, which assumed the proportions of a cloudburst, covered practically all Custer county, and to the farmers will cause losses that will amount to many thousand dollars.

Loss in River at Superior. SUPERIOR, Neb., June 4.—(Special Telegram.)—The Republican river is out of its banks here and is the highest it has been for several years.

The contractor building the new cement bridge across the river, lost most of his lumber and forms and the pile driver tipped over and went down stream.

The dam was threatened for a while,

but workmen succeeded in filling in the gap and saved it for the time being.

Lightning Does Damage. BEATRICE, Neb., June 4.—(Special Telegram.)—A heavy rain and electrical storm visited this section this evening. The home of R. Delay was badly damaged by a bolt of lightning, but the family escaped unhurt.

Cloudbursts Do Damage. KEARNEY, Neb., June 4.—(Special Telegram.)—Cloudbursts at points along the Kearney-Calloway branch of the Union Pacific and on both the lines of the Burlington played havoc with railroad service here.

A cloudburst was reported at Eddyville and many culverts and bridges were washed out there. Two inches of rain fell in this city and the immediate vicinity and the small streams and creeks are rushing torrents.

Reports received here from Lexington are that that city is under water from a cloudburst, which also occurred Thursday night.

Duplicate Phone Line May Be Built

LINCOLN, June 4.—(Special.)—The State Railway commission has decided to permit the People's Telephone company of Sterling to issue \$25,000 worth of capital stock for the building of a duplicate plant. The Lincoln Telephone and Telegraph company now has an exchange of 419 subscribers in Sterling.

This is the case which T. L. Hall, a member of the commission, made capital out of when he urged the legislature last winter to pass a law enabling the commission to bar the construction of duplicate plants except upon a certificate of public necessity.

The opinion in the present case is by the other two commissioners. Mr. Hall has not seen it yet and does not know whether he can concur. The opinion takes the ground the statute as it now is does not permit them to stop the issue of any but "watered" stock; that the province of the commission is to see that the money is actually spent for construction.

News Notes of Lindsay.

LINDSAY, Neb., June 4.—(Special.)—Miss Marie Weidner and Alroy Brachle were married yesterday at Omaha. There was some opposition to the match and the bride's parents did not know of the affair until they returned.

On Tuesday at St. Bernard's Catholic church occurred the wedding of Miss Matilda Husman and Willie Schmidt of near St. Anthony. They will make their future home near St. Anthony.

Little Child at Colon Is Made Cripple by Tubercular Milk

LINCOLN, June 4.—(Special.)—A reflection upon modern civilization, is what Dr. L. C. Kigin, former state veterinarian, terms a case at Colon, Neb., the investigation of which he has just completed.

Tuberculosis was communicated to the son of a well-to-do farmer through the milk of a diseased cow. The little boy is 26 months old and otherwise very healthy, but his tubercular hip, as diagnosed by Dr. Lord of Omaha, is likely to make him a life cripple.

Dr. Kigin says that the farmer had neglected the proper sanitary precautions. Motion pictures were taken of the whole incident, and Dr. Kigin will add them to his present supply of material for an extensive campaign of education.

Saloon Fight Still Goes On.

SUPERIOR, Neb., June 4.—(Special Telegram.)—Another chapter in the troubles of the local saloon applicants was written this afternoon when the city council met to grant licenses to three applicants. Two of the applicants are brothers of the former applicants and one is a son. The dry forces again filed remonstrances.

Rain Interferes with Alumni Festivities

(From a Staff Correspondent.)

LINCOLN, Neb., June 4.—(Special Telegram.)—Rain interfered with the alumni festivities of the university planned for tonight and class reunions, which had been scheduled in outdoor places here were transferred to homes.

Six hundred Cornhusker alumni were in town tonight for the class reunions. The alumni day activities will continue Saturday with a business session at the Temple, followed by the oration delivered by Dr. Madison Bentley of the University of Illinois.

Dr. Bentley was a member of the class of '96. General J. J. Pershing is another well known alumnus expected to attend the exercises tomorrow.

The Lincoln pageant will be given tomorrow afternoon on the athletic field in honor of the old grads and the festivities will close tomorrow night with class stunts and a dance at the university auditorium.

Don't Neglect Coughs or Colds.

Dr. King's New Discovery should be in every home for coughs and colds. Children as well as adults should have it. All druggists. Advertisement.
