

## KAISER RAISES HIS GLASS IN JUBILEE AT PRZEMYSL FALL

Emperor William Enthusiastic as He Discusses the Capture of Great Galician Stronghold.

### LUNCHEONS WITH ROYAL ALLY

Journals Say Teutons Accomplished by Storm What Russ Did by Hunger.

### BERLIN PAPERS VERY CHESTY

LONDON, June 5.—The following wireless dispatch was received here today from Berlin:

"At a luncheon with Archduke Frederick at the Austrian army headquarters, Emperor William raised his glass to celebrate the fall of Przemyel, of which he spoke vigorously."

"Berlin newspapers say that whereas the Russians were compelled to reduce the fortress by means of hunger, the Austrians and Germans took it by storm in a few days."

## Cummins Has Bill to Create Schools for Army Officers

TACOMA, Wash., June 5.—Senator Albert B. Cummins of Iowa announced here today that he has prepared and will introduce in the next congress a bill aimed to create and train a force of reserves who would be ready to defend the United States in case of unforeseen emergency.

The bill, as outlined by Senator Cummins, would empower the government to turn eight of the interior forts and barracks that no longer have strategical value, into military schools. To these schools would be appointed boys in the same manner as they are appointed to Annapolis and West Point. They would receive training that would enable them to take officerships in the reserve or militia. The schools would turn graduates back into private life instead of into the army, but these men would be capable soldiers should necessity arise. Senator Cummins said he was in favor of federal pay for the National Guard.

The European war, he said, has demonstrated that for national defense three things are necessary: first, a navy both oceans sufficiently strong to prevent the landing within a reasonable time of an invading force; coast fortifications sufficiently strong to guard strategic points, and most important of all, a force of reserves.

## Americans Warned By Phone Calls to Quit City of London

LONDON, June 5.—Several American residents of London today informed Robert F. Skinner, the American consul general here, that last night they received anonymous telephone calls warning them to get out of London with their families at once.

Among those thus notified was M. K. Shaler, a member of the American Relief commission, who was told by an unknown voice over the telephone not to stir from his home during the night, and furthermore to fill the bathtub in his house with water.

For several days reports have been in circulation in London that all American women here had been warned to leave England by June 6. According to this report the American embassy had been requested by Berlin to issue a warning of this nature. Investigation brought the information that the ambassador had received no such request.

## FOUR PERSONS DROWN IN OKLAHOMA CREEK

KANSAS CITY, June 5.—While the smaller streams in northern and central Kansas were rising steadily today because of the heavy rains yesterday, fears of another serious flood had abated. In southern Kansas and northern Oklahoma the streams were receding.

Additional reports of casualties yesterday received here today were that John Shupp, a farmer, his wife and two small children, were drowned when the flood waters of a small creek near Gage, Okla., submerged their home.

In northern Kansas the situation was most serious at Beloit, where the Solon river was reported six feet above flood stage this morning. However, according to the United States weather bureau here, the rains are local.

## The Weather

Forecast till 1 p. m. Sunday:  
For Omaha, Council Bluffs and vicinity—Unsettled, cooler Sunday.

Temperature at Omaha Yesterday:	Hours	Deg.

## UNITED STATES JACKIES SIGNALLING ON MEMORIAL DAY from the old "fighting top" of the battleship Maine, erected in Arlington cemetery as a memorial to the sailors who lost their lives when the Maine was blown up.

## KING CONSTANTINE IS CRITICALLY ILL

Announcement that Another Operation Must Be Performed.

### ONE RIB MUST BE REMOVED

ATHENS, June 5.—(Via London.)—Announcement was made today that King Constantine of Greece has had a change for the worse and that another operation will have to be performed.

The operation will necessitate the removal of more of the king's ribs. The temperature of the patient last evening was 99.6; pulse 102 and respiration 20.

The king of Greece has been suffering from pleurisy for several weeks and his condition has been far from satisfactory. He underwent an operation the latter part of May after which he suffered a relapse. The reports concerning him have been more or less contradictory, but recently his condition is said to have been critical. King Constantine's wife is a sister of Emperor William of Germany.

## CHICAGO AVIATORS FALL THREE HUNDRED FEET

CHICAGO, June 5.—Vincent Durry and Frank Touth, aviators, are in a critical condition today as a result of falling 300 feet while testing a new biplane yesterday. They were buried under the wreckage and suffered internal injuries, which physicians said probably would prove fatal. Durry was a former pupil of Lincoln Beachey.

## CHURCHILL POINTS OUT VICTORY JUST OVER THE HORIZON

Former Sea Lord Says Forces of Empire Within Few Miles of Triumph and Will Retrieve All.

### MEASURE OF ENEMY IS TAKEN

Asserts Heavy Losses Must Be Expected on Sea and Land in Dardanelles Fighting.

### SUBMARINE MENACE RESTRICTED

DUNDEE, Scotland, June 5.—Winston Spencer Churchill, formerly first lord of the admiralty, who is chancellor of the duchy of Lancaster in the coalition cabinet, arrived today at Dundee, which he represents in the House of Commons, where he was received enthusiastically at a meeting of his constituents. He told them he did not come to make explanations or to indulge in reproaches or recriminations, for the only thing he cared about was the waging of a successful war on the enemies of Great Britain.

"For four years I have borne heavy responsibility, being, according to the time-honored language of my patient, responsible to the crown and Parliament for all business of the admiralty," Mr. Churchill said. "When I say responsible, I was responsible in the sense that I would have to bear the blame of everything that occurred. These years have comprised the most important period of our naval history; a period of preparation for war, a period of vigilance and mobilization."

Did His Best. "I have done my best. The archives at the admiralty will show the part I played in all the great transactions that have taken place. To them I look for my defense."

"I look also to the general naval situation. The terrible dangers at the beginning of the war are over. The seas have been swept clear. Everything is in perfect order. Nearly everything that has been foreseen, we have taken the measure of our foe and have only to go forward with confidence."

Mr. Churchill added there were two statements he wished to make about the operations at the Dardanelles. Heavy losses must be expected on land and sea. The fleet employed there was composed of a surplus of warships after all other needs had been provided for.

"Those who oppose Lord Kitchener's operations, and who are considering every requirement in relation to the army in France and Flanders are not only mistaken, but are presumptuous," he continued. "In looking at our losses fairly and squarely we must not forget the prize for which we are contending."

"The forces are within a few miles of a victory such as this war has not seen; a victory which, when it comes, will make amends for all."

Reproach for Press. Mr. Churchill said he did not think the newspapers should attack responsible leaders of the nation at home or in the field or publish anything tending to make bad blood. If there were any criticism it should be in Parliament. That was a matter of self-preservation.

"What does the nation expect of the new cabinet?" he asked. "I will answer that in one word: Action. That is the demand; that is the need; action, not hesitation; not discussion or agitation. The duty lies on the government to decide what should be done to propose it to Parliament and stand or fall by the result."

"The submarine menace has been fixed within certain limits," added Mr. Churchill. "The personal ascendancy of our men and the superior quality of our ships on the high seas has been established beyond doubt or question."

"Our strength has been greatly increased, actually and relatively, from what it was at the beginning of the war, and is growing every day by leaps and bounds in all classes of vessels needed for special purposes of war. By the end of the year the British navy will have received reinforcements which would be incredible if they were not actual facts."

LOS ANGELES, Cal., June 5.—A table heaped high with gold was the bait in the country-wide wire tapping swindle, of which this town was one station, police officials here said today.

H. B. Bauman, a farmer at Baxter City, Kan., told the police he surrendered \$1,000 upon sight of the yellow heap, and H. F. McCarter, an aged rancher from Curry, Idaho, reported \$4,000 gone under the same enticement. McCarter sold his ranch and turned over every cent he had. Bauman drew his money from a bank.

DENVER, Colo., June 5.—Leonard Seeds and his wife are being held by the Denver police in connection with charges of swindling made by J. W. Klinkerman, a rancher of Las Animas, Colo., who says he was fleeced out of \$5,000 on a mythical horse race. The alleged swindle was worked at Excelsior Springs, Mo.

## HITCHCOCK CAUSE OF REAL RUMPUS

Trustees of Bellevue Protest Against Senator as Commencement Orator.

### HE IS TO SPEAK, ANYWAY

A real "rumpus" has been started at Bellevue college over the commencement program by the announcement that Senator Hitchcock will be commencement day orator. Written protests have been sent by several trustees to President W. E. Nicholl, emphasizing the mistake in the choice of the man.

Dr. W. H. Betz questions Mr. Hitchcock's practical loyalty to his party particularly in his attitude on the export of arms and munitions.

Former State Senator Patrick, another trustee of Bellevue and a member of the senator's party, opposed him on the moral ground. He believes that a man whose influence goes to the support of the liquor interests is not fit to deliver an address to the students of an educational institution, particularly of a denominational college. Both men have written letters to President W. E. Nicholl, protesting against Mr. Hitchcock.

Does Not Support Wilson. "The faint praise and other commendation by which Senator Hitchcock has failed to support the Wilson administration are disgusting to me," said Dr. Betz. "It is deplorable that a man who has been elected to the United States senate as a democrat should make a trying situation more embarrassing than necessary to his party. If he was a real republican of the worst kind I would like him. I want a man to be what he claims to be."

Senator Patrick's objection is considered the stronger as far as Bellevue, an institution with a strongly religious atmosphere, is concerned. He points out that the time is here when a supporter of saloons and brewers is no more fitted to address students of the institution than would be the saloon keepers and brewers themselves.

How He Was Chosen. "I think," said Dr. Betz, "that the senator was chosen because he is a public man holding a high office and without any thought as to what he stands for."

The commencement day arrangements stand unchanged. Senator Hitchcock has accepted the invitation and the arrangement will be carried through.

## Confesses He Stole Strong Box of Far East Indian Nabob

SALT LAKE CITY, June 5.—Loren von Arnim auf Koenigsdorf, who claims to be a relative of General von Arnim of the German army, is in jail here and has confessed the theft of the strong box taken from the apartments of the Maharajah of Karpurthalia in a Salt Lake hotel Thursday.

Von Arnim has also revealed the hiding place of the box, which, with its contents practically intact, is in the hands of the police. The box contained about \$500 in foreign money and papers, including photographs in a secret compartment which von Arnim did not open.

Among the papers are a receipted bill for \$250 from a New York hotel, a receipt for \$1,000 for a private railway car, a letter of credit for \$20,000 pounds issued in Bombay and another for \$20,000 issued in London.

Von Arnim was arrested last night at Ogden, Utah, where he attempted to exchange English for United States money. He talked freely of the theft, saying he first obtained access to the Maharajah's apartments here in the guise of a vendor of art works and then waited until the party went out, when he entered and removed the box, which he placed in a suitcase belonging to the Maharajah. Jewels valued at more than \$50,000, usually kept in the box, had been removed and placed in another receptacle only a few hours before the theft.

Von Arnim came here recently and made several acquaintances in social circles, where he represented himself as a German officer.

## German Submarines Sink 3 Trawlers, a Drifter and Sailsip

NORWICH, Eng., June 5.—The trawler, Little Boy, of Lowestoft, has arrived at that port with the crew of the trawlers Horace and Economy on board, these two ships having been sunk by Germans.

A German submarine stopped the three trawlers in the North Sea Thursday and gave the crews of the Horace and Economy five minutes to board the Little Boy. After the transfer had been made the fishermen were sunk by bombs placed on board by the crew of the submarine.

## GERMAN AIR-AND UNDERSEA CRAFT ARE AGAIN BUSY

Another Aerial Raid is Made on Coasts of England, but Extent of the Damage Inflicted is Withheld.

### TEN SHIPS LOST IN THREE DAYS

Two British Liners, Four Trawlers and Four Neutral Vessels Sunk by Submarines.

### RUSSIANS HOLDING AUSTRIANS

BULLETIN. LONDON, June 5.—Hostile airships dropped bombs on the east and southeast coasts of England last night. Little damage was done and the casualties apparently were few. The bombs were thrown down at a number of different places which have not as yet been enumerated. This information is contained in an official statement given out here today.

LONDON, June 5.—Another German air raid on the coasts of England last night, coupled with the usual week-end activity of German submarines, are the war developments of the last twelve hours, which are today holding public attention. Discussion of the fall of Przemyel has been laid aside for matters nearer home.

Little is known as yet of the extent of the aerial attack, but it does not seem to have done much damage or been costly in lives.

German submarines have been very busy during the last few days in the North sea, in Bristol channel. Ten vessels have been attacked in the last three days without loss of life, except in the case of the trawler Victoria, four members of the crew of this boat and a boy passenger having fallen victims to shells fired by the attacking submarines.

The biggest capture of the Germans was the 5,000-ton Liverpool steamer Innum. Another important victim was the Cairn liner Lora, erroneously reported at first as the Wilton line steamer of the same name. The other ships sent to the bottom by the Germans include, in addition to several trawlers, four neutral ships, two Danish, one Norwegian and one Swedish.

Austrian Progress Slow. The Austro-German forces have pushed their silent as far as Tulkah, which is some distance northeast of Przemyel. Notwithstanding the evacuation of this fortress, the Russians have maintained an unbroken fighting front on both sides of the railroad to Lemberg. Thus far the Austrians and Germans apparently have made little progress since the taking of Przemyel, although an official report states the Russians have been driven east to the vicinity of Medyka.

British and French reports indicate that the fighting on the western front with much progress for either side. The Belgian frontier has again been closed to traffic. This tends to confirm reports that the Germans are moving heavy reinforcements to their positions along the Yser canal.

### French Official Report.

PARIS, June 5.—The French war office this afternoon issued the following statement on the progress of hostilities: "The enemy delivered last night three violent counter attacks against the sugar refinery of Souchez and the trenches to the north and to the south of this position. They were repulsed, and in their first efforts particularly, they suffered very heavy losses."

"We remain masters of every one of the positions captured by us."

"Last night we also took possession of a German position to the northwest of the roadside inn, known as the Cabaret Rouge, one kilometer (two-third miles) to the south of Souchez."

"There was great activity last night on the part of the artillery in the entire sector to the north of Arras."

"Along the remainder of the front there is nothing new."

More German Troops for Galicia. PETROGRAD, June 5.—(Via London.)—Further discussion of the evacuation of Przemyel brought out the claim in Petrograd today that the Germans doubled their forces operating on their southern front during the Galician advance, and that fresh troops and artillery are still being sent in. Most of the reinforcements are being directed toward the Russian left flank in the Dniester region, this having become since the abandonment of Przemyel the chief point of the Austro-German attack.

The movement of the German center would appear to have been stopped ten miles to the east of Przemyel and the elimination of the breakthrough of the Russian alignment has, according to Russian military experts, advantageously shortened their front from fifty to fifteen miles.

With this center of the Galician operations marking time the Germans are described here as being forced back on their extreme left coast toward the lower Danube and as advancing toward the Dniester fortifications on their right. This gives the situation as a whole the character of a slow pivoting movement with Przemyel as the center.

### ANOTHER GERMAN SPY IS ARRESTED IN LONDON

LONDON, June 5.—Official announcement was made here this afternoon that another German spy named Robert Rosenthal had been arrested and had made a confession.

According to the official statement Rosenthal confessed he had been sent to England by the German administration to obtain information on the state of the war. Rosenthal was arrested while he was leaving the country. He had been here only a short time.
