7.600 head were reported, which was over 1.600 smaller than last week, but slightly larger than two weeks ago and a gain of more than 1.00 head over the corresponding day last year.

Shipping trade opened out fully a nickel higher, but after reports of dull trade in Chicago were received weakened off and some of the later shipper sales did not look to be eny more than steady to strong. Must of the shipper purchases were made at \$7.450.50, with tops as high as \$7.55.

The discriminations against heavy hogs which featured last week's markets were more in evidence than ever this morning. After the bulk of the hogs had been cleaned up there were still eight or ten loads of the heavy stuff left, and some of the salesmen reported that they had not had a bid on them. It is very evident that the killers do not want the weighty hogs and they are buying them only under protest.

The bulk of today's killer sales was made at \$7.697.46, with a sprinking of shippers on up to \$1.56, and a top of \$7.55.

Manipulation in War and Motor Specialties and Canadian Pacific Break Are Features.

GENERAL ELECTRIC ADVANCES

NEW YORK, June 7.—Renewed manipulation in the war and motor specialities and an abropt decline in Canadian Paville were the contrasting features of today's professional and irregular market. General Electric advanced 4% points to 163%, its highest price in several years, and General Meters gained 5, solling at 167, a new high record. Bethiehem Steel came forward in the last hour, rising % to 163, or within a point of its best quotation, made exactly a month ago.

The decline in Canadian Pacific, which fell is points to 149%, its minimum quotation since 1908, when it was on a 7 per cent, tended to unsettle the entire list for a time. Its weakness was the more inexpitcable from the fact that it rose over 1 points in London and gained over Shade Lower—Sheep Steady.

Its weakness was the more inexplicable from the fact that it rose over 1 points in London and gained over a point in the initial local dealings. According to gossip on the exchange, Canadian Pacific was sold here for Amsterdam account, the latter presumably representing German interests. There also were reports that the British government had decided to take over some of the railway's Canadian shops for use as a war unit in the manufacture of munitions.
