GREAT BATTLE IS PENDING ON ISONZO

First Big Engagement Between Italy and Austria is Probable Within Week.

BERLIN, June 9 .- (Via London.) issued by the German army headquarters today. Stanislau is seventyfive miles southeast of Lemberg, the Galician capital.

LONDON, June 9 .- From Caporetta to the head of the gulf of Triest the forces of Italy are consolidating their positions along the river Isonzo and in a week, or perhaps sooner, the first serious battle along this front should be fought.

The clashes up to the present time have been of a preliminary character, but now that the Italians no tance, in the opinion of British ob and I hope that you won't mine." servers, is inevitable.

Desperate Fighting in East. in the eastern arena the Russians are ighting desperately to stem the Austro-German advance in the direction of Lemberg. White some sections of the British press maintain that the Teutonic rush has lost its impetus, the more general feeling is that unless the Russians succeed in developing a counter offensive on a colossal scale, the entire Galician situation will remain unfavorable to Russian arms and more than likely involve the abandonment of Lemberg, capital of the crownland of Galicia.

The news of the resignation of Secretary of State Bryan was received too late for editorial comment in the morning papers of London, but the first editions of the afternoon journals present the news most prominently.

"We may take it that the president whose Jevotion to honorable peace no one can doubt, has felt it necessary to show in his second note that there are certain sacrifices which he cannot make for the sake of friendly relations with Berlin.
