The producer of wheat continues to follow the price downward and is will-majy accepting the lower values for his grain. The cash wheat market dropped from 2 to 4 cents lower today.

Corn sells he higher to he lower, the better grades selling he higher, but the most of it going at he lower.

Oats remained unchanged. The continued declines established in the market illustrates the almost complete lack of demand for the futures after the shorts have been filled up.

The outsider is not to be found in wheat for the simple reason that conditions look bearish to him, and the public was never known to take kindly to a bear market. SERD AND CALIFORNIA. 33RD AND CALIFORNIA.

Features of the Trading and Closing
Prices on Board of Trade.

CHICAGO, June 10.—Wheat prices tumbled today to the lowest level yet for the 1915 crop. The chief reason given was the non-competition of foreign buyses. Transatiantic dealings for the time being apparently having all sone into the hands of European governments. Closing quotations were steady at 1461% under last night. Corn finished with a gain of %2% to 1½c, oats %c of to %c up and provisions varying from 1½60°c decline to a rise of a shade.

Independence shown by foreigners in regard to wheat shipments from the United States seemed to be based mainly on the fact that 16,000,600 bushels were represented as being on the way to Great Britain from India. In this connection reports were current that Europeans were cancelling recent purchases of American new crop wheat and were selling new crop futures in the Chicago market. Under that 18,000,600 bushels were cancelling recent purchases of American new crop wheat and were selling new crop futures in the Chicago market. Under that wheat prices were low enough had much to do with a bulge in the market. Sentiment that wheat prices were low enough had much to do with a bulge in the market during the first part of the session. Besides, the weather was rather unfavorable over the greater portion of the domestic winter and spring crop boils.

Prospects of clearing weather, taken with the weakness of wheat made corn.

Iowa crop conditions, said to be the worst in years, was responsible for most of the builtsh feeling in the market. There were also reports of frost damage in South Dakota. Oats ewayed mainly in response to the course of other grains. Field advices were against the buils.

Provisions failed to retain upturns scored at the start. Selling by packers was a handicap on values.

CATTLE—Receipts were about up to
the average for a Tuesday, but the four
days supply has been fully 1,500 short of
a week ago and undertone to the market
has been distinctly stronger for good to
choice beef of all weights. Today there
was vary little choice yearing stock
here, but prime heavy beeves soid as
high as 30, which is the high point of
the season, and the general market was
anywhere from strong to 100 higher than
Wednesday. Both choice heavies and
choice yearings are now selling the highost of the year, while it has been a very
uncertain and uneven market all week
on medium weight and quality stuff. General demand was healthy today and the
movement free throughout, so that the
moderate offerings were all cleaned up
in very good season.

There was no particular change in the
market for cows and helfers and for the
most part prices were in about the same
notches as yesterday. Desirable helfers
and grassy stuff was hard to move and
sold very unevenly. Cornfed stock is
somewhat stronger for the week, while
grassers are in the neighborhood of 102
180 lower. Veal calves, bulls, stags, etc.,
found a fair outlet at fully steady figures.
There was not much trading in stock
cattle and feeding steers for the simple
reason that there was compartively little
stock of that kind here. Undertone to
the market has been strong all week for
good to choice stock of all weights, but
common stuff has been more or less neglected at steady sale.
