HAVE they broken a precedent at the Dan? Have they, against all rules, had to fall back upon woman, the excluded, for an entertainer, a dancer? Who is it? A Julian Kline? But whence that womanly grace? That complexion, those arms, all snowy white and tender and plump? Those feet and ankles that seem never to stop? A great show they all say; why not, the eternal feminine again! A lot of the out-of-town guests are satisfied this person is a woman. How many of our Omaha men are guessing it?

Scalded Bottles

Milk may be ever so pure, but if your milkman places your milk in a bottle received from a scalded fever home without first sterilizing it, you may receive this dreaded visitor. Your bottles should go through a process, taking seven minutes at 180 degree temperature under heavy pressure.

All Alamito bottles get this scalding. Come in and have us prove it.
