SAYS WAS URGED TO KILL FATHER

Marguerite Tharp So Testifies in Juvenile Court, but the Mother Denies It.

IS SENT TO INDUSTRIAL HOME

Love of a father for a daughter, so strong as to survive undiminished after she had attempted to kill him, was manifested by Eli Tharp, 3818 North Sixteenth street, when he heard Marguerite Tharp, 16 years of age, confess in juvenile court that she had turned on the gas in his room while he slept.

It was the father who sat by the girl's side as she told in whispers, with bowed head, of her attempt to slay him and of previous immoral conduct which she had concealed from him. When she wept her father patted her shoulder and encouraged her, though tears ran down his own face. The wife and mother, who had been brought from the county jail to attend the hearing, sat by apathetically.

The father made an excuse for the girl for her attempt to kill him. Told to Do It. "She was told to do it," he said, "I cannot believe that she would have done it, otherwise."

Judge Sears committed her to the Girls' industrial home at Geneva with her own consent. "Will you work and study and be a good girl at Geneva?" the judge asked. "Judge, she has given me her solemn promise to do so," said Mr. Tharp, with a touch of pride in his voice. "Just this morning she promised me to do better. I know she will."

Marguerite testified that her mother had told her to turn on the gas in her father's room. Mrs. Tharp is held in jail on a charge of contributing to her daughter's delinquency.

Mrs. Tharp Denies It. Mrs. Tharp denied that she had told the girl to kill her father. "I told her not to do it, because there would be no one then to support the family," she said.

When Mr. Tharp took his daughter into a private room for a farewell talk with her, Mrs. Tharp manifested no emotion. When Probation Officer Miller suggested that she might want to talk with the girl, she followed her husband and daughter into the other room.

Marguerite has promised to write to her father every two weeks from Geneva.

Dundee and Omaha Officials Smoke The Pipe of Peace

An entente cordiale between Omaha and Dundee was established last evening when officials of both towns met at the Dundee city hall and shook hands. The event was proposed by the Dundee officials, who invited the Omaha commissioners to visit the fair village on the west and tarry a while for a bite to eat at Happy Hollow.

Mayor Dahlman and the other commissioners, City Attorney Rine, Assistant Attorney TePoel and City Engineer Townsend made up the visiting party and they were met at the Dundee city hall by F. W. Slabaugh, George Gillespie and E. H. Westerfield of the Dundee Village board, Engineer Rohrbach, Attorney Hots and Clerk Hines.

The party of seventeen visited the public buildings and points of interest of Dundee, after which they went to Happy Hollow, where they fraternized around a large table, broke bread and exchanged words of felicitation.

After the prandial part of the event had been properly disposed of Mayor Dahlman, F. W. Slabaugh and a few others made short talks, all of which reflected good will and a desire to cooperate toward the upbuilding of a Greater Omaha.

KAISER GRIEVES OVER ATTACK ON KARLSRUHE

AMSTERDAM, June 18.—(Via London).—A message received here today from Frankfurt says the grand duke of Baden, now at the front, has sent the following telegram concerning the recent raid on Karlsruhe by French aeroplanes to the burgomaster of that city:

"Emperor William has telegraphed to me his deep indignation at the wicked attack upon beloved Karlsruhe. The poor innocent victims among civilians have greatly afflicted him."

WILL BE GREATER OMAHA ON MONDAY

City Commissioners to Make Formal Demand for Records of South Omaha and Dundee Then.

EXPECT MANDAMUS NECESSARY

The city commissioners, regularly assembled in a meeting of the city council, decided to start from the city hall at 8 o'clock Monday morning to make formal demand upon the officials of South Omaha and Dundee for public property, records, books and funds, in the manner provided by the merger law.

The seven city commissioners, Treasurer Ure and City Attorney Rine will make the trip. It is expected that mandamus proceedings will have to be started and that the delay in assuming official jurisdiction over the annexed territory will be only a few hours.

Mayor F. W. Slabaugh of Dundee has given assurance to the officials of Greater Omaha that the people of his village do not expect to receive any patronage in the way of public offices, but they hope to have their community maintained in the same manner that it has been.

Mandamus Necessary. If the Dundee officials should decline to turn records and funds over on Monday morning, it will be understood that this action will be for the purpose of securing protection through a court order. The city legal department expects that a mandamus may be necessary to satisfy the bondmen.

Superintendent Withnell of the fire department states that in the rearrangement of the fire department the Dundee fire house will protect the territory south to Leavenworth, north to the city limits and east to Twenty-eighth street, in connection with the houses at Forteth and Hamilton streets and Thirty-seventh and Jackson streets. This will mean more runs for the Dundee firemen and it will also provide more fire protection for Dundee. That village had twenty-nine fire alarms last year.

Name to Go On Forever. Mr. Slabaugh, retiring chairman of the Dundee village board, states that in his opinion the name of Dundee will go on forever, like a certain brook of poetry. He admits there is nothing in a name, but he contends that nothing short of an uprising would result if any suggestion would be made to change the name of Dundee to Omaha. In everything else he says Dundeeites are willing to join hands in the Greater Omaha spirit.

There has been much concern among the dog owners of Dundee whether the Greater Omaha dog catchers would fail to recognize canine licenses already issued by that village for this year. Assurances are given by City Clerk Flynn that no attempt will be made to impound Dundee dogs that have been regularly licensed. The same will apply to South Omaha.

Commissioner Butler offered a resolution.

The Real Suffrage Thought of Women

Motherhood is the thought uppermost in woman's mind. And with it, of course, comes the question of comfort, of helpful aids and inducements.

Among the best of these is a well known external remedy, "Mother's Friend." It is gently applied to the surface muscles, here are lubricated, toned, made pliable so they stretch as nature requires without the strain and pain on cords and ligaments.

This influence extends through the myriad of nerves to deeper surfaces, the internal organs. And thus a period of repose must reflect itself not only in the mind of the mother, but upon the babe to come.

A point upon which all experienced people agree is the accepted fact that whatever an expectant mother may do for herself that is safe and harmless is bound to encourage confidence in her babe. And as she applies "Mother's Friend" with her own hand where ever required and just where needed, she soon learns to forget those apprehensions as often imaginative.

Young mothers who have used "Mother's Friend" have written to say how rejoiced they were at the absence of morning sickness, extreme nervousness, and other distressing conditions in her baby. And as she applies "Mother's Friend" with her own hand where ever required and just where needed, she soon learns to forget those apprehensions as often imaginative.

GERMAN OFFICIAL SEES SETTLEMENT

Under Secretary of Foreign Affairs Confers with Dr. Meyer-Gerhard.

HE EXPRESSES SATISFACTION

BERLIN, June 18.—(Via London).—Dr. Anton Meyer-Gerhard, who is here with messages from the German embassy at Washington bearing on the German-American situation, had a two hours' conference today with Dr. Alfred Zimmermann, under secretary of foreign affairs, and Count Montgelas, head of the American section of the office. Gottlieb von Jagow, minister of foreign affairs, participated in part of the deliberations.

The nature of Dr. Meyer-Gerhard's report has not been disclosed, but after the conference, Dr. Zimmermann expressed himself as thoroughly satisfied with the prospects of an amicable settlement of the German-American difficulties.

The German-American situation continues to occupy the attention of the press and the public. Rear Admiral Kallau von Hofe, retired, in a newspaper article, today takes up the point made by Eugene Zimmermann, general director of the Lokal Anzeiger, that the United States made a motion at The Hague conference to prohibit shipments of munitions by neutrals to belligerents, but that this was rejected under Germany's lead.

The admiral alleges that Germany was not responsible for the failure of the motion, but merely voted against it, along with England and France.
