ALUMNAE WOULD FAVOR DORMITORIES AT LINCOLN Members of the Association of Collegiate Alumnae of Omaha at recent meetings have been discussing the advisability of giving a formal expression in favor of dormitories for the young women students of the University of Nebraska. It is said that no action has yet been taken in this direction, but that the question has been brought up frequently and that something may come of the move. While the Board of Regents of the university is laying comprehensive plans for the future of the school, the suggestion is that some provision be made to house young women or such as may desire, in buildings of this character. The expression is being favored by some who have themselves lived in sorority homes at the capital city and who suggest as the result of their own experience that this solution be made of a perplexing problem.

RECREATION BOARD AND COUNCIL CONFER

Seek for Expression Regarding the Expenditure of Public Funds by the Board in the Future.

ENGLISH LIKES PARK SYSTEM

The recreation board will confer with the city council Monday morning, to obtain an expression regarding the expenditure to which the recreation fund of \$20,000 may be expended by the board. C. H. English, supervisor of the Palmer park recreation system of Chicago, is here as an applicant for the position of superintendent of public recreation. He has been over the park and boulevard system and is impressed with the situation, but before making up his mind to take the position he wants to know with reasonable certainty what financial material he will have to work with.

English May Be Employed. Present indications are that the council will express a vote of confidence in the Recreation board and that Mr. English will be employed to take hold of the municipal recreation activities. In view of the situation wherein the recreation fund expenditures must be approved by the council, it was thought best to secure hearty co-operation of the council before entering upon the serious business of engaging a recreation superintendent at \$2,000 a year.

Mr. English, upon his return from a tour of the park system, said: "The outer system here is positively splendid, particularly for a city of this size. There appears to be need of inside recreation centers. In many instances people have to go several miles to a park, or rest spot."

Some of the work which will be turned over to the superintendent of public recreation will be the playgrounds in the parks, municipal beach, swimming and wading pool being placed in Riverview park, athletic field at Thirty-second street and Dewey avenue, and the development of play centers according to the needs of localities. He will be interested in neighborhood organizations, gardening work and similar activities. Mr. English commends the playground work already done by Commissioner Hummel in the parks.

G. S. Guild Funeral To Be Held Tuesday

Gerrit S. Guild, past commander of Grant post, Grand Army of the Republic, and for thirty years a printer and proof reader for the Omaha World-Herald, died yesterday at a sanitarium at Hot Springs, S. D., as the result of a cancerous growth in the throat. Mr. Guild was 67 years old. He was a member of Company B, Eighth Massachusetts infantry and Company C, One Hundred and Ninety-second New York infantry in the civil war. When he was mustered out in 1865, he was a sergeant. He was a Mason and a trustee of the Omaha Typographical union. Funeral services will be held Tuesday afternoon at 2 o'clock at the new chapel, Forest Lawn cemetery, and will be conducted by Rev. D. E. Jenkins. The Grand Army of the Republic rites will be a part of the services. Active pallbearers will be Masons and members of the printers' union. The following members of the Grand Army of the Republic will be honorary pallbearers: Captain J. Mallinson, Charles Allen, Edward H. Parsons, R. S. Wilcox, D. M. Haverly and W. H. Green.

JULIA TO USE GREAT CARE ON FIRST DECATUR TRIP

When Captain W. B. Stevens of the good ship Julia sets out for Decatur next Wednesday on his first trip his motto will be "Safety first." He is going to take only half a load the first time, to guard against trouble until he locates the channel. About twenty-five tons of building material, stock remedies and other goods manufactured or jobbed in Omaha will constitute the cargo. The Julia is expected being fifty or sixty tons. Captain Stevens has never navigated the Missouri above Omaha, so he intends to proceed cautiously on his first trip. The Julia is now being overhauled and repaired and will be loaded Tuesday.

Chadron Normal Notes.

An interesting meeting of the Young Women's Christian association was held in the chapel Sunday afternoon at which there was a large attendance. Mrs. Sparks gave the girls a most helpful and inspiring talk on the college girl and her church. Special music was furnished by Mrs. Hargis and Mrs. Mann and by the dormitory girls in chorus. The enrollment for the summer school is now 35. This number does not include those in attendance at the institute, 31; the pupils in the model school, 15; nor those in the kindergarten, 25. A total of 105. The students are working with enthusiasm and having a good time socially besides. The delightful climate makes this an ideal place for study in the summer. No matter how warm it may be in mid day, if one must be out of doors, it is never uncomfortably warm in the building, and mornings and evenings are always delightfully cool. The climate of the foothill region is an ideal one for summer work. Thursday evening was the occasion of the party given to students of the summer school, which was well attended and enjoyed very much by the students. A delightful program was given in the chapel. The students were divided into eight groups, each of which in turn enjoyed the entertainment provided by members of the faculty in different rooms. The students are working with punch and waves by the members of the classes in domestic science. A number of the students are being called to find. It was one of the most enjoyable parties ever given at the normal.

Chadron News Notes.

Among other entertainments for July 3, Chadron is to have an auto polo game. Judge Westover has announced the adjournment of the adjourned April term to July 20, of Dawes county district court. The Horner's chautauque is giving such good satisfaction here this week, arrangements are being made to have them return next summer. At the Dawes county eighth grade graduating exercises, held by the County Superintendent, Carrie Munkre, there were forty-three receiving diplomas. The new building 50x100, of cement is now ready, and the Chadron Ice & Creamery company open for business. The lot to be manufactured entirely of distilled water, and every farmer is adding to his stock of cows. At the meeting the company is serving hot callers with ice cold buttermilk, hot butter with its own make of butter and Dawes company alfalfa money.

School and College Notes

KEARNEY MILITARY ACADEMY

Distinguished Educator Appointed at Nebraska Institution. Harry R. Drummond, who for the last four years has been a member of the faculty of St. Alban's school, Washington, D. C., commonly known as the National Cathedral School for Boys, has recently been appointed by the bishop of western Nebraska as headmaster of the Kearney Military academy, Kearney, Neb.

Mr. Drummond is a graduate of Hobart college, Geneva, N. Y., and previous to his work at St. Alban's was a master for three years at St. John's school, Salina, Kan. At one time he was appointed an exchange teacher to Prussia, Germany, by the Carnegie Foundation for the Advancement of Teaching.

The Kearney Military academy was founded in 1902, by Bishop Graves, the first bishop of the missionary district of western Nebraska, and has had a continuous and successful history throughout the entire period. A large percentage of the graduates of this academy have completed their courses of study in the State university at Lincoln and other universities of the country, and are today occupying prominent positions in the business and professional world.

The courses of study for entrance cover the requirements for entrance to the State university. Special courses are offered in manual training, agriculture, commercial law and business methods.

The property of the academy has been entirely renovated, with the addition of a first class gymnasium and a swimming pool. The thirty-five acres of land afford ample opportunity for athletics and outdoor exercise, as well as experimental work for the agricultural department.

The institution is conducted under the direction of the Episcopal church, with the Right Rev. George Allen Beecher, D. D., as president. It is the aim of the academy to afford to each boy a wholesome and homelike environment, giving due consideration to the moral and religious element during the formative period of his education.

The charges for room, board, light, heat and tuition are placed at the lowest margin consistent with the advantages offered. No school could have more beautiful and wholesome elements of school life than the academy at Kearney, where the climate is unexcelled and the sanitary conditions of the property are first class in every respect.
