Text of U.S. Note on Frye Case Made Public at Capital

WASHINGTON, June 29.-By agreement with the German foreign office the State department made public last night, text of the note, sent on June 24, by the United States, asking Germany to reconbehalf of the captain and owners of the raider Prinz Eitel Friedrich. Ambassador Gerard cabled that he had delivered the ote last Saturday afternoon. The American government declares

that inasmuch as Germany has admitted liability for the sinking of the Frye under the treaty of 1882, prize court proceedings are unnecessary and not binding upon the United States.

Aside from the question of how the indemnity should be paid, the note brings out clearly the refusal of the United States to accept the contention that Ger many has the right to stop the carrying of contraband by American ships "by the destruction of the contraband and the ship carrying it." While no mention of submarine warfare was made in either the jast German note or the present reply occasion was taken to deny this right. because of a belief that admission of it now might in the future be used as a justification for submarine attacks or American ships.

## Council Passes Barbers' Sunday Barbers' Sunday Law in a Hurry After twenty-five years of more or lens Dersistent effort the barbers of Council Dersis

Bluffs have succeeded in securing the passage by the city council of a Sab-batarian law that has been successfully opposed for a quarter of a century. The council last night passed a Sunday clos-ing ordinance making it a crime for any barber to do any barber work Sunday. The ordinance was so quietly prepared by the barbers, who have so long sought such a drastic law, that no knowledge was permitted to be given the public. It was presented and rushed through under suspension of the rules without a dis-senting vote. 1: is of the same type as many of the previous laws attempted to knocked out when resisted in court. The penalties in the new one are a little more drastic than in any of the previous at-

Recurrent Demoralization in Foreign Exchange is Salient Feature.

RECORDS LOW

normalization in foreign exchange was the salient feature of today's financial developments and more than anything else served to hold the stock market in check Further depreciation occurred in remittances of three of Europe's leading capitals. Paris checks were gusted at 5.65 reichsmarks at SP's and lires at 6.16. These quotations were not only the lowest reported since the outbreak of tile war, but established records for many years previous. London exchange made

solu as low as 10%, an overnight loss of the points, and its lowest quotation in seven years. Rubber repeated yesterday's low price of 48%. Rock Island, as the shares of the Chicago, Rock Island & Pacific railroad are now known, also fell to the low record of 15, with a renewal of pressure against Missouri Pacific and Missouri, Kansas & Texas. Offerings of Canadian Pacific oday come from local as well as out-of-town foreign sources and were traceable in part to May earnings, showing a net loss of over 1600,000, or a total for the eleven months of the fiscal year of more than 8,000. No new explanation was offered for Rubber's weakness.

There were material gains in copper, war shares and motors, but the movement in these issues was plainly of a professional origin and falled to carry conviction. Trading dragged in the final hour with lower averages, price interest at that time centering around the city bond offerings.
