

OMAHA BANKS MAKE REMARKABLE GAINS

Deposits and Loans Show Big Advance Over March and Also Over Same Time Year Ago.

SHOW BIG BUSINESS GROWTH

Bank deposits are about three-quarters of a million dollars greater now than in March, at the time of the last call by the United States comptroller. Loans by the banks show a gain of approximately \$1,500,000 in the same period.

Bankers say that the splendid showings indicate better business conditions in Omaha's banking territory, as well as the usual healthy growth from year to year. The call reveals the fact that on June 22 the total deposits in Omaha banks were \$2,444,442, as against \$61,707,067 on March 4.

How Mrs. Harold Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harold, Fort Wayne, Ind. Obtainable everywhere—Advertisement.

Regular Spendthrift and He Has Pendant for Breaking Records

A young man of perhaps 25 appeared at the "Money Orders Issued" window of the postoffice Monday and presented to Miss Clara Peterson, the clerk, a blank filled out for a money order.

"Why—" she said. "I beg pardon," said the youth, starting as if from a reverie. "Why, this is for 1 cent," she said. "Yes?" he replied, and there was stern inquiry in his voice.

"The young man that you want to get a money order for 1 cent?" inquired the fair clerk.

"I believe the blank which I have presented you indicates that desire on my part," said the youth.

"It will cost 3 cents for this money order," said Miss Peterson.

"Yes, and it will cost 3 cents for postage on the letter which shall carry the money order," said the young man. "I am sworn of all that. Nevertheless I am sure of it."

The wondering young woman, without further ado, proceeded to fill out the order. Never before had there been a demand at the local office for a money order of less than 25 cents.

"I presume I have broken another record," he said.

He was informed of the previous 25-cent minimum. It pleased him.

"I am very glad to hear it," he said. "I may say for your information that I, who now stand by this window, have broken probably more records than any other man now extant. At lunch today I tipped the waiter 1 cent. He refused it, but I had the credit of offering the smallest tip anyway, didn't I?"

"I tried to buy half an orange at a fruit stand down the street, but as the man wouldn't sell it at half the price of a whole one, of course it would have been no credit to me to purchase the citrus. So I desisted. At the postal savings bank I found they had no provision for accepting deposits of less than 10 cents, and as deposits of that denomination were common I was no longer interested."

"If the millionaires can have the distinction of writing the biggest checks and distributing the largest tips, I can have the distinction of writing the smallest. Yes, there is a distinction in that. I beg to bid you good morning."

And the young man wandered dreamily and solemnly away.

KUGEL WOULD STOP CARS ON NEAR SIDE

Asks Legal Department to Draw Up Ordinance Which He Will Introduce for Passage.

WOULD HELP AUTO TRAFFIC

Commissioner Kugel of the police department maintains that all traffic should be required to stop on the near side of intersections.

Acting in line with a communication from the Omaha Automobile club, he has asked the city legal department to draw an ordinance on this subject.

Explaining his contention, the commissioner states that under the present system there are frequent instances of automobiles interfering with traffic within intersections when these vehicles are stopped behind street cars discharging passengers. Under the new plan stops will not be necessary beyond the near sides of intersections. This will apply to street cars.

John Hancock—Father of the Revolution

UPON the Declaration of Independence his name may be read without spectacles. His signature was the first subscribed to the world's most famous State document. In the most realistic sense John Hancock pledged his life and his fortune to the cause of the Revolution. He was one of the richest men in the colonies, holding investments in banks, breweries, stores, hotels, and also owning a fleet of vessels.

The seizure of one of these precipitated the Boston massacre. In Revolutionary days and until his death he was a popular idol. When it was proposed to bombard Boston, though it would have resulted in greater personal loss to him than to any other property owner, he begged that no regard be paid to him because of his financial interests.

While Hancock did not sign the Constitution of the United States, he used his great influence in its behalf, which awakened the gratitude of Washington. "He was prepossessing in manner, and passionately fond of the elegant pleasures of life, of dancing, music, concerts, routs, assemblies, card parties, rich wines, social dinners and festivities."

Until the end of his life the people of Massachusetts delighted to honor him. In the stirring events preceding the Revolution he was one of the most active and influential members of the Sons of Liberty. To this tireless worker for American Independence Liberty was the very breath of life. He would have frowned upon any legislation which would restrict the natural rights of man, and would have voted NO to prohibition enactments.

It was upon the tenets of our National Spoken Word that Anheuser-Busch 58 years ago founded their great institution. To-day throughout the length and breadth of the Free Republic their honest brews are famed for quality, purity, mildness and exquisite flavor. Their brand BUDWEISER has daily grown in popularity until 7500 people are daily required to meet the public demand. Its sales exceed any other beer by millions of bottles.
