GRAIN AND PRODUCE MARKET

Market is Firm and Good Demand Sends Wheat Price Up Another

OATS EXPORTS UNUSUALLY BIG

Two and One-Half Cents.

There was not much change in the corn narket. The receipts were light and were sufficient to take care of the slow lemand. The market sold unchanged to 4c lower.

demand. The market sold unchanged to be lower.

There was a pretty good demand for oats, but the receipts were light and the market was forced from bu to be higher.

The exports of oats have been enormous with foreigners taking large quantities for anima, food and this has been a big beip to the local situation. The crop promise at the present time is ideal and it is expected that the government report, which will be published early in July, will show an estimate as large, if not larger, than that of last year.

Clearances were: Wheat and flour equal to 473(00 bushels, corn, 211,000 bushels; oats, 1,000 bushels.

Laverpool: Spot, wheat and corn unchanged.

Laverpool: Spot, wheat and changed.

Primary wheat receipts were \$0,000 bushels and shipments 447,000 bushels and shipments of \$0,000 bushels last year.

Primary corn receipts were 515,000 bushels last year.

Primary corn receipts were 515,000 bushels, against receipts of 472,000 bushels and shipments \$20,000 bushels, against receipts of 472,000 bushels last year.

Primary outs receipts were 420,000 bush-Primary oats receipts were 420,000 bushels and shipments 425,000 bushels, against eccipts of 564,000 bushels and shipments of 574,000 bushels last

PERCY E. GWYNNE. Notary Public F. W. CLARKE. WARREN SWITTZLER. J. W. SCHEIBEL. Directory

Person of the Trading and Cleans Prices on Board of Trade.

CHICAGO, July 1.—Estimates that the United States would harvest 5,000,000 busicles more in 1915 than was expected a month ago had a restraining influence today on bullish sentiment resarding wheat. The outcome was an unsettled close at a shade off to be advance compared with last night. Corn gained 1500 kg to 1500 met and onts had to 1500 kg. The finish in provisions varied from 50 off to an equal upturn.

turn.
A)though the figures on the prospective old of wheat were unofficial, the trade nerally seemed inclined to accept them reasonably correct. The conclusion is drawn in some quarters that North nerica during the coming year would capable of experting 600,000,000 bushels, compared with 440,000,000 bushels dup the twelve months ended June 30. Unit such conditions higher prices, which ing the twelve months ended June 30. Under such conditions higher prices, which had been reached soon after the opening, failed to be maintained. The chief basis of the advance was the announcement that the steamship Armenian, sunk by a German submarine, was engaged in British admirally business. At lease temporarily this development as to the Armenian had a distinct reassuring effect and stimulated some buying.

For the only time on record, the first day of July passed without any wheat having been delivered here to fill contracts specifying the current month. Stocks of old wheat were reported as unusually small and a single car of the new crop is all that has been received in Chicago. The lone car, which came from the southernmost part of Illinois, and graded as No. 3 red, was premptly bought by a local mill at the rate of \$1.16 a bushel. Good shipping demand, together with virtual absence of deliveries on July contracts tended to strengthen corn. There was something of an offset, though, in a published estimate that the planted torritory this season exceeded that of hat year by 1,100,000 acres. Oats showed firmness on account of an active call from the seaboard. Because wet weather was said to be delaying the harvest.

Heavy deliveries appreared to make but little impression on the provisions market. On all the soft spots packers fur-

little impression on the provisions mar-ket. On all the soft spots packers fur-nished support. Closing prices on options:

The following table snows the average price for hogs at the Bouth Omaha live stock market for the last few days, with Date. | 1915. | 1914. | 1913. | 1912. | 1911. | 1910. | 1909.

"Sunday.

CATTLE—Receipts were moderate to-day, only 116 cars being reported in. This makes the total for the four days this week 14,108 head. This is 4,000 smaller than for the same days last week and the smallest of any recent week, although close to 8,000 larger than for the same period a year ago.

smallest of any recent week, although close to 8,000 larger than for the same period a year ago.

Beef steers were loghte higher on the good kinds, the best heavy beeves bringing \$9.50 and the best yearlings \$9.45, highest for the year. This means that prices on the strictly good kinds are 25,000 higher than last week. Cornfed cows and heifers were in good demand at strong prices, but anything showing grass was more or less discriminated against, the market on that kind being steadily working downward. There was no material change in stockers and feeders.

Quotations on cattle: Good to choice yearlings, \$5.7509.50; good to choice heavy beeves, \$9.009.50; fair to good cornfed beeves, \$5.509.50; common to fair cornfed beeves, \$5.509.50; good to choice heifers, \$1.5098.25; common to fair cows, \$4.75 good to choice feeders, \$7.5098.20; fair to good feeders, \$7.5098.50; common to fair stockers, \$5.5098.50; stock heifers, \$5.5098.50; stock caives, \$6.00 good to choice feeders, \$7.5098.20; fair to good feeders, \$7.0097.50; common to fair stockers, \$5.5098.50; stock heifers, \$5.5098.50; stock caives, \$6.00 good to choice feeders, \$7.0098.20; fair to good feeders, \$7.0098.50; stock caives, \$6.00 good to choice feeders, \$7.0098.50; stock caives, \$6.00 good to choice feeders, \$7.5098.20; fair to good feeders, \$7.0098.50; stock caives, \$6.00 good to choice feeders, \$7.0098.50; stock caives, \$6.00 good to choice feeders, \$7.5098.50; stock caives, \$6.00 good to choice feeders, \$7

\$1.50; veal calves, \$8.0029.75; fat buils, stags, etc., \$5.2527.25.

HOGS—Hogs were 5270c higher this morning and active enough at the advance to effect a clearance by 10 o'clock on the morning. Shippers took held very freely, picking out the best of the light shipping grades, for which they paid as high as \$7.50 and on un to \$7.55, which was the top, as against \$7.45 yeaterday. Packers, while not especially easer to take hold on the opening, still wanted the hogs, and when they had once made a beginning they bought very freely. The bulk of all the hogs sold at \$7.507.45, as against \$7.3027.40 yesterday. All in all it was a very satisfactory market.

Receipts of hogs have been running for the four days to 46.322 head, which is a few hundred head larger than last week's liberal run and the largest of any similar period since four weeks ago. As compared with a year ago there has been a gain thus far this week of about \$0.00 head.

gain thus far this week of the gain thus far this week of the gain thus far this week of the gain thus far this week, although the total for the four week, although the same as for the gain about the same as for the dess. \$18.50

ort, \$1 spring lambs, but still there was quite a little sprinkling of aged stuff.

Buyers evidently wanted the sheep this morning and the offerings of that kind of stock changed hands for the most part

of stock changed hands for the most part in good season. The market was not far from steady on the desirable kinds. Prices were a little lower on their face, but some of the offerings this morning were very wet, which would make up for a good share, if not all of the decrease in price. A six-car bunch of Oregon wethers sold at 85.50, as against 35.60 for the same stuff yesterday. However, the fleeces today were very wet.

Early advices regarding spring lambs from other market points were very discouraging, with the result that buyers at this point held back, making the market slow on lambs the same as it has been every day this week.

Quotations on sheep and lambs: Lambs, spring, \$5.4009.50; yearlings, fair to choice, \$5.500 5.60; ewes, good te choice, \$5.0005.90; ewes, fair to good, \$4.2506.00.

Altogether Lacking of Session. DOMESTIC NEWS FAVORABLE

NEW YORK, July 1.—Features of especial interest were altogether tacking in today's stock market, which bore the usual ante-holiday aspects in its duliness and irregularity. So far as outside developments were at all a factor, foreign conditions exercised an unfavorable influence, the sinking of the steamship Armenian with further loss of American menian with further loss of Amer lives causing renewed apprehension garding relations between this cou

garding relations between this country and Germany.

Domestic news was most favorable, including the government's report on cotton, which showed a condition slightly above the average of the past decade. From news from the northwest was more reassuring and advices from littaburg and other industrial centers reported a steady increase in the output of steel and iron.

and other industrial centers reported a steady increase in the output of steel and iron.

Almost half the dar's trading centered about four stocks—United States Steel, American Can, Miami Copper and United States Rubber in the order named. Interest attached to the movement in Rubber hecause it was expected that the directors would act on the common dividend soon after the close of the market. Rubber receded slightly soon after the opening, then rose 2½ over yesterday's close, later losing its advance. Miami Copper made a substantial gain in response to its increased dividend and Canrone smartly after its erratic course of the morning. Steel was steady when not firm, some of the early transactions being in large lots. Total sales of stock amounted to 257,000 shares.

Railroad shares of the high grade class moved within very narrow limits when at all and other investment issues were equally apathetic. Those same issues were decidedly lower abroad, London prices showing losses of a point for the Harriman and Pennsylvania, while Canadian Pacific was down 2½. Europe was again a seller here, chiefly of bonds, liquidation of these securities aggregating about \$200,000.

Foreign exchange was a triffe more steady mainly because of an absence of offerings. In fact, rates on Rome and Petrograd were merely nominal. London exchange on Paris moved to an unprecedented rate, presaging further shipments of gold from Paris to the British metropolia.

olla.

The general bond list was heavy on moderate trading, Total sales, par value, aggregated \$2.420,000.

United States bonds were unchanged
