CORN IS ALSO SOME LOWER

OMAHA, July 6, 1915.

OMAHA, July 6, 1915.

The market received a slight setback today. Wheat deskned by cents, the receipts of this cereal being very light and the demand poor.

The demand for corn was fairly active, but there was a good supply of this grain on the tables and it sold unchanged to a cents lower. Oats were weak and dropped 1 cent. Receipts of this cereal were light and there was also a light demand. It is expected that the corn market will sell to a still lower level.

If it was possible for the United States to place its surplus abroad, conditions would be quite different from those now facing us.

on the tables and it sold unchanged to a cents lower. Oats were weak and dropped I cent. Receipts of this ceroal were light and there was also a light demand. It is expected that the corn market will sell to a still lower level.

If it was possible for the United States to place its surplus abroad, conditions would be quite different from those now facing us.

Argentine corn is being offered for sale in the United States and abroad at as good, if not better, prices than can be made by the dealers in this country. The situation in oats is against holders because of the favorable crop prospects and the partial halt in the business of foreign shipments.

Clearances were: Wheat and flour equal to 96,000 bushels, corn, 760,000 bushels, corn, 760,000 bushels, and shipments of 947,000 bushels and shipments of 947,000 bushels and shipments of 947,000 bushels and shipments of \$78,000 bus

refer to transactions included in the total reported from the east.

Corn displayed stubborn resistance and gave way only a little to bearish attacks that were due to the weakness of wheat. The uphoiders of prices had the backing of unfavorable crop reports and of an urgent spot demand at Liverpool as well as a falling off in domestic stocks, Field news concerning oats was of a decidedly flattering sort. About the only check on the ensuing decline resulted from profit taking by shorts.

taking by shorts.

Heavy lard sales on the part of packers led to a setback all around for provisions. The selling began after the market had bulged owing to an advance in the price of bogs.

CHICAGO, July 6.—Wheat prices took a decided downward shoot today. Influenced by the outlook that the arrivais of new grain would soon be much enlarged. The market closed steady, but 1% 51% to to the under Saturday night's level. Corn Features of the Trading and Closing Cattie. 110gs. Sheep. H T's M. & St. P. W., east., W., west., M. & O., The market closed steady, but 1% pike to 3½c under Saturday night's level. Corn finished 4c off to 45% to 10, cats down 10c to 2c and provisions 55% decline. Hedging pressure dominated the wheat market from the first tap of the bell and defeated in short order every effort at a rally. The July option especially feit the effects of continuous selling by receivers who were engaged in the purchase Illinois Central .... Chicago Gt West. Total receipts .....182 ceivers who were engaged in the purchase of new wheat in the country. Advices from the harvest regions appeared to indicate that the weather was better on the whole than at any other time in the last six weeks, and that threshing had become general over a large section of the winter crop belt.

As a result of the break in prices foreigners showed considerably more interest regarding wheat. After the close, word came from the seaboard that between \$60,000 and 700,000 bushels had been disposed of for export. Some of the buying was said to have been for France and the inquiry from Italy seemed also to have improved. Rumors of 300,000 bushels sold to go to Europe by way of the Guif of Mexico were generally believed to refer to transactions included in the total reported from the east. ceivers who were engaged in the purchas DISPOSITION-HEAD

of cattle this morning, considering that it was the day after a holiday. There were all told 176 cars reported in the yards.

The market opened early in the morning, buyers being in the saddle in very good season. Everyone seemed to want good heavy beeves and the market on that kind was active and 10c, some would say 10g15c higher, than last week. The less desirable kinds and even good kinds that lacked in weight or flesh did not show any improvement, being steady. The best beeves sold the highest of the year to date.

Cows and helfers of good quality were in demand and fully steady, but grass kinds wehe a little slow about moving. There is as usual at this season a gradually widening spread between the good cornfeds and the grassy kinds.

There were very few stock cattle or feeders in sight and the market did not develop any new or interesting features.

This included a consignment of twenty-three cars direct to a packer from another point. Today's run shows a failing off of 13,000 head, as compared with the first two days of last week, and is only about half as large as a year ago. The shipper trade, which was the only redeeming feature of most of last week's markets, didn't show much fire this morning. A good deal of last week's sharp competition was lacking, and prices were no more than steady, to, at the outside, a nickel higher than at saturday's close. Most of the shipping hogs moved at \$7.40,27.55, with tops as high as \$7.60.

Packers were slow in starting, and
while their early offers were a nickel
higher, very little business was done, as higher, very little business was done, as salesmen were asking a 10c advance. When first hogs finally sold it was on a 5670c higher basis, but only two killers got in at these figures, the others standing pat on their early bids.

In the end the big bulk of the hogs moved at 5670c higher prices, although some sellers were splitting hairs and calling the killer trade no more than a big nickel up. Most of the killer sales were made at \$7.2567.30, with a sprinkling of shippers on up as high as \$7.50, the top. On the extreme close things weakened off, and some undesirable stuff, as well as a few loads of decent hogs, would not bring much over steady prices.

Sheep—The largest run of sheep nad lambs to show up since the first Monday in April arrived this morning, about forty-nine cars, or 12,500 head being received. There being no market yesterday, the run for the week to date is 8,000 smaller than a week ago, 5,500 lighter than two weeks ago and over 5,000 short of the same days last year.

In view of the heavy local receipts and sharp declines in prices at other points. sharp declines in prices at other points 51 bbls.; shipments, 1.243 bbls.; stocks, buyers started out demanding 35c concessions on lambs. Normal Conditions Prevail in Resumption of Dealings at Session.

NO TRACE OF FEVERISHNESS

NEW YORK, July 6.—Normal conditions prevailed on the resumption of
stock dealing today, there being no trace
of the feverishness which marked last
Saturday's trading. J. P. Morgan's
steady progress toward recovery was in
teelf an encouraging factor and the decision of the federal court exonerating
the Heading company from any violation
of the laws governing its relations with
its coal subsidiaries helped to create a
more cheerful tone. Reading was the
most active of the speculative favorites
soon advancing 2 points with gains of 1
to 3 points in numerous railways and industrials. War specialities soon came forward, Hethichem Steel, Haldwin locomotive and a few others of that group rising
from 2 to 4 points. United States Steel
which was regarded as something of a
market barometer opened at a substantial rise soon increasing its gain
at 14.
Even St. Paul and United States rub-NEW YORK, July 6-Normal condi-

market barometer opened at a substantial rise scon increasing its gain at 18.

Even St. Paul and United States rubber, last week's depressing features, recorded substantial initial advances, but in the case of the former this was soon lost on a recurrence of the recent selling. Canadian Pacific also began to manifest signs of pressure and by midday a large part of the early advance was lost.

In the final hour fresh liquidation of St. Paul Canadian Pacific and Missouri Pacific resulted in general recossions and an irregular close. St. Paul fell to 80%, a new low record, and Missouri Pacific at 5% also made a minimum quotation. Total sales amounted to 27,000 shares. Foreign exchange became strong as the day progressed, largely as a result of an inquiry for bills on London. Continental remittances held at or above last week's final quotations. Canada contributed \$500,000 to our gold supply and rumors of additional imports from France were again current. Negotiations for a new British loan to be taken by American bankers were held in abevance pending development abroad.

Several favorable rallway statements for May were reported, including St. Louis and San Francisco, which made net increase of \$500,000. Norfolk & Western, \$2,000.

Enture or foreign selling, amounting approximately to \$600,000 was the feature of the bond market. Total sales, par value augregated \$2,170,000.

United States bonds unchanged on call. Number of sales and leading quotatians an sincks were as follows.

No matter that Eddle Rickenbacher drove a great race and Eddie O'Donnell almost as good a one, and that Tom Orr broke a world's record, the crowd was disappointed. Resta was the big drawing card. Everybody wanted to see the famous Italian-Englishman, and they lost their greatest interest in the event when he failed to appear.

The Speedway association has issued a statement deploring the condition of affairs which existed Monday. "We have OBJECT TO THE A. A. A. RULINGS heard of a good many complaints about the race Monday," the statement reads, "and we greatly deplore the fact that
